Mud 149 Well Work

Harris County Municipal Utility District No. 149 is planning to rework Water Well No. 2 on an emergency basis beginning in mid-May. The rework will take approximately two (2) months to complete. Work at the site will be limited to the hours of 7:00 a.m. to 6:00 p.m., Monday through Friday. Residents around the water plant will notice increased noise levels during construction activities. During the rework of Water Well No. 2, the District might have to purchase water from a neighboring MUD district, but residents should not notice a significant change in the water pressure or quality.
