They're Back!!

Dear Residents,

Lawn Experts have advised that this summer will be particularly bad for insects that can damage your yard. If you notice any dying areas you may have chinch bugs, which will destroy your yard if not treated immediately. Local gardening centers can advise on products to broadcast treat for these insects.

Help your neighbor – if you notice a problem perhaps they are not aware or may need to borrow a spreader to treat for insects. Don't have a spreader? Go together with several neighbors and share one. They are available for around \$30.00. Due to the drought last year and insect problems many Fairfield yards suffered damage. It is difficult and expensive to restore your property; prevention is less costly than replacement.

Vacant home next to yours?

Make sure that AMI is aware that the property is vacant. If a home is not being maintained we can mow and weed a property, but we are not able to water a yard. If you live next door perhaps you can assist in watering. Let AMI know the situation and your Board of Directors.

Fairfield Village is a beautiful community. But remember being a good neighbor is more than just maintaining a house and lawn. Respect for all community rules, residents and community assets are what make Fairfield Village a great community in which to live.

SUMMER WEED and ALGAE GROWTH

LAKE MANAGEMENT SERVICES, INC.

As you may be aware, over the past few weeks, algae and weeds have begun to explode just about everywhere. There are several reasons for this, primarily all the rain we had which brought in fresh nutrients and, now that the rains are over, hot temperatures, lots of sun and almost no wind. Lakes and ponds could not be in a better position for weed and algae growth. Unfortunately, algae and weeds cannot be eradicated or prevented from growing, only controlled. The products we have available to use must be approved for aquatic use by the EPA. However, for the EPA to approve a product such as this, the products are very mild in efficacy and, in truth, do not perform as well as they should given their expensive cost. Unfortunately, we have no alternatives. There are only eight active ingredients in the entire world approved by the EPA for aquatic use. And, there are many species of weeds and algae that are highly resistant, if not totally resistant, to these products. When these species emerge, we can only treat them over time in an effort to slow their growth and reproduction.

When growth is abundant, the only way to effectively control growth is by multiple, on-going applications on a very frequent basis. Aquatic weeds and algae can literally explode overnight. If, for example, we only make once a month or twice a month visits, it is almost impossible to stay ahead of the growth this time of year and under these conditions. Even weekly visits may not be enough if your goal is to have “swimming pool” water. When you chemically treat aquatic growth, you are treating a symptom not solving the source(s) of the problem. These sources can be lack of winter, excessive rainfall, clear water, fertile water, warm water and sunlight. Therefore, only the Man upstairs can control these sources.

Another major factor is dissolved oxygen. The warmer the water the less oxygen it holds. If your lake or pond has little or no mechanical aeration and is dependant on heat and wind-generated current, then oxygen levels can become dangerously low this time of year. As weeds and algae die from being treated, the decomposing process causes an even further loss of oxygen. Therefore, treating weeds and algae can cause a significant oxygen crash thus suffocating fish and, even more importantly, benthic organisms that live in the bottom muds and are crucial to utilizing organic matter that enters the water. Even with mechanical aeration, if enough plants are treated at one time, oxygen levels can crash as well. This time of year, if you treat just enough to keep the oxygen levels from crashing, you likely cannot treat enough to get ahead of the growth which then becomes overabundant. We perform dissolved oxygen tests each time before we treat. If the levels are low (<6.0 mg/l), we do not treat unless authorized by the customer. Many chemical manufacturers recommend “split-treatments” during the summer to help reduce this risk. Unfortunately, waiting two weeks between treatments allows the untreated areas to virtually grow back into the previously treated areas.

If you quit putting chlorine in a swimming pool, algae will grow and very fast at that. This is nature and we cannot use chlorine in lakes and ponds. We can put a man on the moon but no one has the technology to prevent weed and algae growth. Likewise, no one has a magic potion that can be applied to turn the lake or pond into a “swimming pool”. Unfortunately, nature does not care about marketing or people’s impression that the lake or pond resembles a swamp. In fact, that is exactly what nature tries to do. Nature has a pre-chartered course for all lakes and ponds whether natural or man-made and that course is not conducive to urbanization. If you want or already have clear water, you will have weeds and algae no matter how much chemical you apply. These products only treat what is there, biodegrade within a day or two and do nothing to keep the weeds from growing back.

Aquatic weeds and algae cannot be prevented or eradicated. What we try to do, this time of year, is to control the growth from taking over the entire body of water and stay within the chemical budget we submitted last Fall. Imagine the cost if you had to maintain a 5 or 10-acre swimming pool. As summer winds down and the growing season comes to an end, usually in October, growth will slow and the water will cool and hold more oxygen allowing us to treat more effectively.

There are three types of lakes and ponds in the Greater Houston Area. Those that are experiencing weed and algae problems, those that will and those that are not only due to the fact that the water is not clear and therefore, no sunlight penetrates.

Another major factor is that the majority of lakes and ponds serve as detention for flood control. Every time it rains, the runoff water from the development goes straight to the lake and carries with it loads of fertilizer and other organic nutrients. Then, when the rainfall event is over and the sun comes out, the weeds and algae begin to explode.

So the bottom line is this – we can visit your lake and pond every day of the year and bomb the water with chemicals all day long if that’s what you want. We just can’t do it within any reasonable budget. However, if for some reason your HOA is just loaded with more money than it knows what to do with, we’d love the opportunity to apply more product. Until then, we are working extremely hard and long hours to try and keep your lakes and ponds looking as good as possible. Thank You!

Fairfield Charity Golf Classic - June 3, 2006

On behalf of the Fairfield Charity Golf Classic committee, we would like to take this opportunity to extend a huge THANK YOU to our community for making our tournament a success. Due to your incredible generosity, we were able to make this event fun and enjoyable for all of our participants who were appreciative of the wonderful prizes and donated items.

The proceeds from the tournament will be used to fund the Fairfield Women's Club donations to local charities and the Fairfield Sports Association's general fund for capital improvements.

We were fortunate to have 5 hole-in-one prizes available: a 2006 Honda Accord Sedan sponsored by John Eagle Honda Houston along with \$10,000 cash, trips to Cabo San Lucas, Reno, and Scottsdale sponsored by MMG Media. We are grateful to John Eagle Honda and MMG Media for their generosity; unfortunately, no one made a hole-in-one at the tournament.

Without the support of our fantastic HOLE SPONSORS we could have never had a successful tournament:

- | | | | |
|-------------------------------|---|--|---|
| ♦ MMG Media | ♦ Wells Fargo Bank | ♦ Catechis, Campbell & Associates | ♦ Cypress Lawn & Landscaping |
| ♦ Annette Vidrine, CPA | ♦ Dawn Fore Re/Max | ♦ AMI | ♦ Joe Myers Toyota/Scion |
| ♦ Joe Myers Ford | ♦ HUB Buick, Hyundai, Mitsubishi | ♦ Northwest Dodge | ♦ Papa Fajitas |

A special thank you to Mark Lundquist of Wells Fargo Bank for his repeat sponsorship of our Putting Contest. Hats off to Doug King of Admiral Linen, for supplying the table coverings at the awards presentation and steak dinner again this year. We also appreciate the warm hospitality given by Cypress Lakes Golf Club.

Each golfer received a tasty sandwich from Fairfield Subway and a delicious steak dinner at the end of the tournament from Outback Steakhouse Hwy 290. In addition, each player received a goodie bag filled with donated items and a dri-mesh golf shirt. We were fortunate to have a tremendous amount of prizes donated for the player goodie bags, raffle, and silent auction. Thanks to the following for making all of this possible:

Tri-Star, John Eagle Honda Houston, Joe & Shelley Connelly, Mossy Nissan, Doug & Lisa Bell, Hilton Garden Inn, Vivian Sobotik-Mary Kay, Cypress Lakes Golf Club, Kim Schneider, Trisha Legg-Arbonne, Jay's Wine & Spirits, Cavender's Boot City-Katy Freeway, Trademarks Promotional Products, Cypress Chick-fil-A, Tom Cunningham, Great Clips, II Friends, Katie Smith-Salsa Gourmet, Anna Cowser, Cypress Wal-mart, Vickie Lynn's, Cindy Brown-Re/Max NW Territories, Don & Jeanne Machrowicz- Re/Max, Top 8 Nails, Fairfield Athletic Club, Fairfield Information Center, Alicia Wilson-Keller Williams, Studio Movie Grill, Bridget Angelica-B's Designs, Heery International, Rick & Lisa Cannon, Augusta Pines Golf Club, Outback Steakhouse Hwy 290, Texas DPS, Project Child Safe, Mac Haik, Sam's Club Hwy 290, Pei Wei, and Rosehill Pet Resort.

We would like to CONGRATULATE the WINNERS of the tournament:

1st Place: Phil Grandjean, Wayne Holcombe, Jeff Barns, and Brian Kelly

2nd Place: Brad Samuelson, Mark Parsons, Al Ballard, and Dennis Rupp

3rd Place: Darrell McCorquodale, Danny Scullion, Carl Nicchio, and Pat Daily

Putting Contest winner was Brian Kelly. Longest Drive winner was John Wood, and Closest to the Pin winner was David Toups.

All 76 golfers need to be commended on a job well done. Without the support of all of you, the tournament would not take place.

We would also like to thank our volunteers that helped us the day of the event as you were all lifesavers. We could not have managed witnessing the hole-in-one for the car if it were not for Billy Buckley, thank you very much. Tyler Anderson of the Cy-Fair Key Club was instrumental the morning of the tournament, thanks for donating your time to our community.

The last group that we would like to recognize are the members of the FCGC committee: Dawn Bond, Casey Buckley, Anna Cowser, Kimberly Lightsey, Vivian Sobotik, Cheri Stone, Kim Urban, Alicia Wilson, and Allen Webb. Thanks for the many months of meetings, phone calls, emails, and planning that took place to make the tournament a reality. Your time is truly appreciated!

We sincerely appreciate the continued support from all of you and we are looking forward to our next tournament in the fall of 2008.

Thanks Everyone!

Lisa Cannon & Bob McInnerney, Fairfield Charity Golf Classic Co-Chairs

News:

FALL BASEBALL & SOFTBALL NEWS

This fall, the FSA will be offering an off-season baseball and softball league (limited divisions) for those wishing to play in a participatory setting in order to keep their skills honed or ready themselves for next spring in a new age division. Fall ball is not considered competitive in terms of league standings, placement or awards for placement.

The season will consist of an 8 to 10 game schedule, based upon participation and number of teams to be accommodated, along with practice and field availability. Games will start after Labor Day and run into mid-October.

We have tentatively planned a ***one-day registration*** (no late registrants) for Saturday, August 5th. The coach meetings, tryouts and drafts will immediately follow during the week after this registration. Please monitor the website (www.fairfield-sports.com) during the month of July for confirmation of the registration day.

The following divisions will be offered, yet with the qualification that there **MUST** be enough registrants to form (4) teams in order to justify the formation of a division. If you sign up and not enough kids register for a division, your registration fee will of course be returned and not deposited.

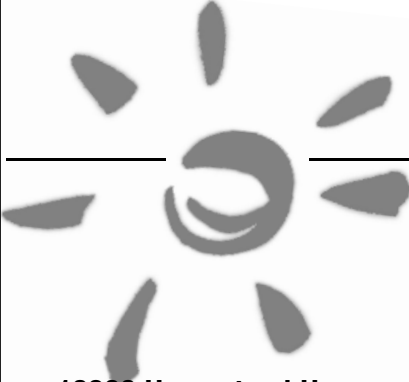

Boys – 7/8 Coach Pitch; 9/10 Kid Pitch; 11/12 Kid Pitch

Girls – 7/8 Coach Pitch; 9/10 Modified Kid Pitch

Divisional placement is based on your child's age as of April 30, 2007.

FAIRFIELD SOCCER REGISTRATION

Fairfield Soccer Registration will be held on July 8, 9, 15, and 16 from 11:00 am – 5:00 pm at the Fairfield Practice Center (formerly, Golf Center) for Boys and Girls ages 4-13. On July 29th, tryouts will be held to determine draft. Please check the website: www.fairfield-sports.com for future information.

CUB SCOUT PACK #1533

ENJOYING THOSE "NOT SO LAZY" DAYS OF SUMMER

When you think of summer your mind looks back on those long, lazy days-spent sipping lemonade and lounging by the pool. Well, summer is "not so lazy" for the **Cub Scouts of Pack #1533** who are enjoying every minute of their vacations.

Kicking off the summer, **Pack #1533** proudly promoted those **Scouts** achieving rank at the annual **Crossing Over Ceremony**. What a thrill it to see our boys progress through the ranks! It's hard to believe the year went by so quickly—it seems like only yesterday we were welcoming our new Tigers!!

The **Scouts** celebrated the beginning of summer break with a **Pack Family Pool Party** held on May 27th at the FAC Pool. The water-logged crowd consumed an abundance of hot dogs, chili, chips and watermelon. There was little "lounging" by the pool for this group!! This was also a time to say goodbye to **Cubmaster, Jim West**, as he ends his two-year tenure. **Pack #1533** thanks **Jim** for his hard work and dedication to the **Pack** and wishes him a long, "lazy" summer. He will be missed by all.

Summer would not be complete without the annual **Rising Star District**

Cub Scout Day Camp. This year's camp, "**Where the Wild Things Are**", was held June 5th- 9th and June 12th-16th at the Cy-Fair Exhibition grounds on Telge. The boys attending earned various achievements, electives, beltloops and pins while having a "wild" time. Some of the activities the **Scouts** participated in included archery, soccer, ultimate, woodworking and building. They also completed a service project in which they collected items to help support area animal shelters. Overall, the boys had a "roaring" good time.

But that's not all—there is still more excitement for the **Scouts of Pack #1533** this summer! Upcoming events include:

July 4, 2006

July, 2006

August, 2006

4TH of July Parade, Fairfield

Lazer X Outing

End of Summer Event

As you can see, summer is anything but "lazy days" for the boys of **Cub Scout Pack #1533**. Do you know a boy who likes to have fun, learn new things and make lifelong friends? Then you know a boy who may be interested in **Scouting**! If he is in grades 1st through 5th, please feel free to contact Pack Committee Chairman, **Tom Huber** at tomh@tdspecialty.com for more information. **Every boy is welcome; regardless of what school he attends.** Be sure to check out **Pack #1533's** website at www.pack1533.org for more news and more great photos.

AESTHETIC AND FAMILY DENTISTRY DR. A. SUNDRANI

Dental Tip of the Month.

Hello Neighbors!

*I am starting a series of educational articles related to
dentistry.*

*My qualifications: I am a dentist, having my own
practice on Hwy290 @ BarkerCypress Rd. I did my
undergraduate degree at the University of Texas in
Austin in 1995. Then went to the dental school here
at the University of Texas Dental Branch.*

*Not only do I have a dental degree, but also have
pursued mastery courses in comprehensive den-
tistry and cosmetics at the prestigious Center of
Aesthetic and Restorative Dentistry at Baylor and
residency program at The Seattle Institute of
Advanced Dental Studies.*

*If anyone has any topics that they would be
intrigued about, I would love to give you advice on
the subject from what I know through my training. I
would like this to be an interactive deal.*

sundranids@yahoo.com

Tip of the month:

Lot of children get into activities in the summer time
such as sports, martial arts, and gymnastics. I also
know that sports guards should be a necessary part of
any physical activities where a fall or a hard hit to the
face can happen.

Lemonades and summer go hand in hand; however,
due to the high sugar content, brushing immediately
afterwards is highly recommended.

Harvest Bible Church

Did you know? God reveals exactly what He loves and hates in His people. In the book of Revelation Jesus Christ addressed seven churches in chapters 2-3. He told them what he loved about them, but he also rebuked them for their shortcomings and commanded that they repent.

What God loves are orthodox churches who are led by men of honor and passionate love for Jesus Christ and church congregations who follow suit. Jesus specifically commends the following traits in those who call themselves Christian: First, he commends toilsome day-in, day-out preaching of the Bible in the midst of a society of people who don't want to be bothered with it. Second, Christ commends intolerance of evil people and teachers of false doctrine. Third, he commends steadfast perseverance in the midst of persecution. Fourth, he commends hatred for evil teachings that promote sinful practices among Christians in the name of Christian liberty. Fifth, he commends bold faithfulness to Christ without growing weary and renouncing the faith in spite of persecution. Finally, Christ commends a deep-seated love for God and a growing reputation for ever-increasing good deeds done in honor of Jesus Christ

But Jesus also rebuked certain behaviors in the seven churches in Revelation 2-3. The Ephesian church had many good works, but their love for Christ had grown cold (Rev. 2:4). The church in Pergamum (Rev. 2:14-15) was faithful to never deny Christ, but they used their Christian liberty to sin freely believing that Christ didn't mind if they sinned. The church in Thyatira had many good deeds, were faithful in their service to God, and persevered in trials. But in the name of love and acceptance of all people

they were tolerant of evil people (Rev. 2:20). The church in Sardis (Rev. 3:1-6) had a reputation for being alive, but they were spiritually dead. They were a large and thriving church by the world's standards, but they were spiritually bankrupt from God's point of view. In other words, they were a bunch of hypocrites. And the church of Laodicea (Rev. 3:14-22) was a church rebuked for not taking any stands – either for right or wrong. They accepted all things, had a false sense of security, and were completely destitute of anything good. Laodicea represents today's church.

God's commendation of good behaviors should cause all Christians to take note of what pleases Him. But we must also take note of that which God despises, and because He commands us to repent of our sins we must heed that warning or else face the consequences of our indifference to Him. In each church in Revelation God promises rewards for those who take stock of their lives and change their ways. But for those who refuse to repent of sinful ways God promises retribution. Clearly God is not One who winks at sin. But because He loves His church He gives careful and specific teachings about how she must love Him in return.

Come visit **Harvest Bible Church** where God's Word is faithfully taught, where Christ's name is upheld in worship, and where the Spirit of God convicts through the fellowship of believers. "Discovering the Heart of Christ, in the Heart of Fairfield."

(CNN) — Most think humans we will reach Mars within their lifetimes. Many expect to make the trip themselves. And rock climbing will be tops among recreational activities. Such are the aspirations of thousands of U.S. schoolchildren. More than 2,600 youngsters took part in the online poll, released Thursday by the organizers of Space Day, an annual event designed to bolster interest in science, math and space among youths. "It's exciting and encouraging that the spirit of exploration is alive and that students see it occurring in their lifetime," said Orlando Figueroa, director of NASA's Mars Exploration program. "These may well be the children that make it a reality." Among the findings of the 2002 survey: Seventy percent of respondents thought a manned mission would reach Mars within the next 10 or 20 years. Nearly 25 percent plan to visit the red planet personally. More than 50 percent anticipated rock climbing as the most fun activity. After Mars, the next most popular destination planet for the future space explorers was Pluto.

Wow! Where do we go from here? Certainly we live in an age of innovation and seemingly limitless possibilities. But the same questions still emerge from the soul of mankind. Where did we come from and ultimately where are we going?

We invite you to come to church this Sunday and journey with us through God's word to find the answer's to these and many other important questions of life. Each week we have continuing events and activities as follows: Sunday mornings; **Bible Classes** for babies to adults begins at 9:30am. Each bible class is taught by loving, well prepared, Christians utilizing the latest in educational techniques and finest bible curriculums.

Worship is at 10:30am and each service is carefully thought out and

planned by our worship ministry leaders. Every service is meant to bring glory to the name of Jesus and help each person realize how wonderful it is when you fall in love with Jesus as your savior. At 5:00pm on Sunday evenings we spend time in prayer, praise, and casual conversation about God's word and how it applies to our daily lives.

Mid-week **Bible studies** are also offered every Wednesday at 7:30pm. This is a great time to pause in the middle of a busy week and be re-energized by fellowship, prayer, and study of God's word.

We also offer free of charge in-home, personal, one-on-one Bible studies and for those who wish to study alone, Bible correspondence lessons as well.

If you have a prayer need of any kind please let us know by calling the church office or visiting our web site at www.fairfieldchurch.org. You may also call the church office and set up a time to come into our sanctuary for a personal time of prayer and reflection. Fit Facts™

FROM THE AMERICAN COUNCIL ON EXERCISE®

Summer Skin

Once again, winter has faded into spring and spring has burst into summer. Along comes the invincible summer sun, your skin's arch-enemy, particularly if you exercise outdoors. Most people know that using a sunscreen is essential protection, but knowing and doing are often two different things. There are a number of ways to promote a healthy glow without exposing your skin to harmful rays.

Sunscreen

Every sunscreen has a sun protection factor, or SPF, which is a measure of its strength or effectiveness. Each of us needs a different SPF, depending on whether, and to what degree, our skin burns or tans. A tan is the direct result of melanin, a brown pigment found in the epidermis that is produced when skin is exposed to sunlight. Melanin protects the skin by absorbing, reflecting and scattering ultraviolet radiation before it penetrates the dermis, or underlying skin. However, armor that it is, melanin can't prevent all the negative effects of the sun, and is often representative of damage. That's why we need to use sunscreens. To determine what SPF your skin requires, you must know how long it takes your skin to burn when unprotected and exposed to sunlight. As a rule of thumb, anyone whose skin burns, whether or not it turns into a tan, should use an SPF of 15. Check with your doctor or pharmacist if you are taking antibiotics, antidepressives or antidiuretics. Some of these medications increase your skin's sensitivity to sunlight and may decrease the time it takes your skin to burn.

Creating a Barrier

When exercising outdoors on a hot, sunny day, light-weight, light-colored clothing combined with plenty of sunscreen on both exposed and unexposed skin is the way to go. However, if overheating isn't a concern, dark-colored, tightly woven clothing is more

effective at blocking UV rays than say, a white T-shirt, which allows UV rays to reach the skin. Another barrier against sun damage comes in the form of eyewear. Protect not only your eyes, but the skin around them by wearing sunglasses that block 90 percent to 100 percent of the sun's UV rays.

And, last but not least, wear a hat. Though a cap may be more comfortable for jogging, try a wide-brimmed hat that will shade your neck and face while gardening or walking outside.

Sunscreen Facts

- Wear sunscreen every day if you will be outside for more than 20 minutes, even when it's cloudy.
- Sunscreen should be applied 15 to 30 minutes before going outdoors, and reapplied every two hours or after swimming or sweating.
- Don't skimp: One ounce—enough to fill a shot glass—is considered the amount needed to properly cover exposed skin.
- Limit your exposure to sunlight from 10 a.m.–4 p.m. during Daylight Savings Time (9 a.m.–3 p.m. during Standard Time) when the sun's rays are the strongest and most harmful.
- When choosing a sunscreen, look for one with an SPF of 15 or higher that provides broad-spectrum coverage against all ultraviolet light wavelengths.
- Throw out old bottles of sunscreen, which can lose strength after three years.

Source: *American Academy of Dermatology*

Start with the Inside

Now that you know how to protect the skin's surface, it's time to start thinking about what you can do to make it glow from the inside out. You're already off to a good start with exercise, which gets the blood circulating and delivers fresh oxygen to the skin all over your body. The next step is to

drink plenty of water. Outdoor exercise, especially in the summer, increases your risk of dehydration. This is one risk you don't want to take since it not only affects your performance and robs your skin of its vitality, but may be potentially hazardous to your health. Be sure to drink fluids before, during and after activity. To replenish your fluids after any outdoor activity, weigh yourself before you participate and then again after. Any weight you lost is water and should be replaced by drinking two glasses (16 ounces) of water for every pound you have lost.

Everyone Needs a Little Sunlight

It's been shown that a lack of sunlight can cause depression. After all, most plants won't even grow without sunshine. And when the sun comes around and makes the days longer, our first instinct is to peel off our sweaters and bask in it. Go ahead. Just take precautions so you won't have to deal with the unpleasant (and unnecessary) consequences.

What SPF Do You Need?

Follow these steps to calculate what SPF you should look for in a sunscreen:

1. Determine how many minutes your bare skin can be exposed to the sun before it burns.
2. Divide that number of minutes into the total number of minutes you want to remain in the sun.
3. The result is the SPF you should look for in a sunscreen. For example, if your unprotected skin burns in 10 minutes, and you plan on being in the sun for three hours, you would need a sunscreen with an SPF of at least 18 (180 minutes divided by 10 minutes).

Children's Health

Helping Your Child With Speech And Language Development

(NAPSA)-Speech and language skills develop at varying rates for children. Still, there are certain milestones most children reach at specific ages. Common, everyday interaction between children and those around them is the best way to boost and enhance speech and language skills. From birth, hearing is critical for children to learn and react to the world around them. An unidentified hearing loss can cause a delay in speech and language development. Consequently, it is better to identify and treat hearing loss as soon as possible.

Parents and other caregivers can do many things to encourage speech and language development and provide learning opportunities. Some examples:

- Listen and respond to your child. Acknowledge, encourage, and praise attempts to communicate.
- Talk to your child about what you are doing, what you see, what your child is doing, and what your child sees. Use language that is appropriate for your child's speech and language abilities.

It's never too early or too late to read to your child. Reading introduces new words and ideas, even if you simply describe pictures without following the written words.

- Accept mistakes as your child's speech develops. Simply repeat or expand what was said, using the correct words or sounds.
- If you don't understand what your child is saying, ask your child to repeat or help your child

to rephrase.

Seek help if you suspect your child is having a speech, language, or hearing problem. An evaluation can determine whether or not a child's skills are developing normally. Certified speech-language pathologists and audiologists are educated and trained at the master's or doctoral level to evaluate communication skills and treat disorders.

The steps you take can be very important. During the first five years of life, the building blocks for lifelong communication are formed. Believing your child will "grow out of a problem" can hinder his or her ability to read, write, learn, and engage in social relationships.

For more information on this or other subjects, such as hearing loss, stuttering, aphasia, articulation, or voice problems, and prevention of noise-induced hearing loss, contact the American Speech-Language-Hearing Association at 1-800-638-8255 or www.asha.org.

Community Emergency Response Team CERT

Cy-Fair CERT classes now have 53 team members in your neighborhood. These new team members are not only from Copperfield, but Katy, Bear Creek, Cypress, Alief, Tomball, and Sugarland. More trained CERT members will be needed in each of these areas to form teams.

CERT training is designed to prepare you to help yourself, your family, and your neighbors in the event of a catastrophic disaster. Because emergency services personnel will not be able to help everyone immediately, you can make a difference by using this training to save lives and protect property.

This 8 week course (24 hours of training) covers basic skills that are important to know in a disaster when emergency services are not available. You are taught skills about disaster preparedness, small fire suppression, urban search & rescue, medical operations and more. With training, practice and working as a team you will be able to do the greatest good for the greatest number of people after a disaster, while protecting yourself from becoming a victim.

In 2003 President Bush asked Americans to volunteer to serve others. The Harris County Citizen Corps www.harriscountycitizen corps.com was created to help our citizens find volunteer and training opportunities. CERT training is just one of the programs created.

Training courses are provided throughout Harris County. There

is no cost for this course. A backpack of supplies is provided to all CERT team members during training. This program is brought to you by Harris County Judge Eckels.

For more information on how you can become involved in CERT and to register contact: Sue Zahn Lucas (Cypress Mill Resident), 832-687-5778 or email suezahn58@yahoo.com or Teri Shamlian, 713-594-1159 or email at tshamlian@sbcglobal.net
