## **A GENTLE REMINDER: LOOSE PETS/BARKING DOGS GOOD DOGS NEEDS LEASHES TOO!!**

Now that Spring is upon us and the weather will become pleasant, many of us will be outside more often and taking our pets walking with us. To most of us, our pets are members of our family. Sometimes we forget that our best friend won't snap at us but may snap at an unfamiliar face or another dog. Harris County law states that when your pet is outside the confines of your property, that pet (dog or cat) must be leashed and under the direct supervision of a responsible person.

It has been brought to our attention by many residents of Fairfield, that there has been an increase in the amount of dogs (and cats) running loose (being left outside of backyards and homes) and unusually prolonged and noisy barking. We have been receiving an increasing amount of "barking dog" calls. This problem can be easily solved by the purchase of a bark collar. They have become fairly reasonable in price and have been advised this is a humane way to control barking.

Again, some of us forget our pets are strangers to others and just by letting them out for a few minutes or longer can lead to a dangerous situation. As stated above, the Harris County Animal Control Ordinance governs all pets within Harris County, which includes the Fairfield Community. Please adhere to these laws as they have been put in place for the safety and well being of everyone in the community. No dog obeys 100% of the time and a leash goes a long way to comfort people who fear dogs. Dogs, even good dogs, can sense fear and aggression. They communicate with body language that often is not read until it's too late. If your dog truly stays at your side, putting on a leash should not cause an inconvenience to.

Harris County Animal Control has been notified of this problem and will consider any roaming animal a stray. Your pet could be picked up by Animal Control, taken to the Harris County Animal Control facility and, if your pet is not claimed within three days, it will be destroyed. (To claim a pet from this facility can be expensive and very sad and frustrating). The Harris County Deputies and Constables are also aware of this problem and may, at their discretion, issue citations to owners whose pets are roaming loose in the community or being walked without a leash. Ownership of animals is fairly quickly ascertained by talking with neighbors and the children who play outside.

Also, should your pet need to relieve itself, please be prepared to immediately clean up after your pet.

Thank you for your understanding and cooperation.

## Fairfield Book Club

Our group started in January 2001. We have both members who have been with us since the beginning and some who have just joined last month. This is a great way to meet your neighbors, have great conversations and develop new friendships.

Members can feel comfortable enough to talk about any book, genre or author. Classics, modern pop fiction, non-fiction, biography, and classic junk that you just love anyway...anything: there are no limits on the books we read. No book snobs here, we read it all! So if you are a book lover of all kinds or would like to expand your reading, then please join us at one of our meetings.

Our group is free and open to women living in Fairfield. We meet the 3rd Wednesday of each month (rotating homes and sometimes restaurants), from 7pm – 9:30(ish)pm. We share food, drinks and or course conversation. We select our readings by voting though getting suggestions in writing that requires the title, author and a brief description of the book. We draw three suggestions from a bag and the majority wins. We do ask if someone wants to actually participate in the discussion (and not just listen), that she reads the book and hopefully brings a list of items/questions/comments that she might have. This is what really forms the basis for our discussions.

We invite you to join us as a guest or a member. We currently have openings; however because we have the meetings in homes and we want to give everyone (who wants to) an opportunity to participate in the conversation, our membership is limited.

## CUB SCOUT PACK #1533 SPRING FAMILY CAMPOUT

On April 28, 2007, Pack #1533 participated in the Sam Houston Area Council's Scout Fair—"RACE TO SCOUTING". Held at Reliant Arena, the Fair drew thousands of Scouts and their families who enjoyed the opportunity to mingle with other Scouts, participate in hands-on activities, taste gourmet camp-fare foods, and take home great memories. Pack #1533 sponsored a "Box Hockey" booth at the Fair, which was a big hit with the crowd. The boys also worked very hard selling Scout Fair tickets and prizes will be awarded at this year's "Crossover Ceremony" at the end of May.

The boys have been working hard to finish up their Rank Requirements. Bear Den #4 took a trip to the Planetarium to fulfill both Bear Electives and Beltloop Requirements. The Scout's learned all about the night sky over Houston.

Summer is coming up and so is a fun-filled schedule for Pack #1533.

### Pool Tags Needed For Pools

Pool Season will start on May 5, 2007. In an effort to reduce unauthorized use of Fairfield's community pools, the decision was made to issue pool tags for 2007.

Please note tags will only be issued to homeowners or legal lessees. Those properties showing unpaid association dues will not be eligible for pool tags until the balances are paid. Owners must present a valid form of identification at the time of collection. Driver's licenses with a Fairfield address is preferred. Lessors or tenants must bring a copy of their current lease agreement with a photo ID. Homeowners must have 2007 pool tags for all Fairfield pools.

If you have not received your pool tags yet, you may pick them up

from the onsite management office located at the Fairfield Athletic Club. If you have any questions, please call Cecelia Panzinetti, the on site manager, at 281-256-0065.

Be sure to bring your pool tag with you each time you go to the pool. Have your tag pinned to your towel or pool bag, it does not have to be attached to your bathing suit. When you enter the pool, please sign in at the gate. A lifeguard will randomly come around and check for your tag. Each pool pass allows 3 people into the pool area. Children under the age of 10 must be accompanied by an adult.

## Harvest Bible Church

Did You Know? Why are there so many versions to the Bible, and can we really trust a document that has been translated and re-translated so many times?

The King James Version (KJV) was first published in 1611, and it was a masterpiece of literature. For hundreds of years people read it and came to know Jesus Christ. So why would anyone attempt to improve greatness? For the same simple reason that the KJV was originally published: in order to create a readable text in a modern tongue. The KJV was put together so that everyone in England could read their Bibles and understand what they were reading. The same is true today with each new translation of the Bible from the TNIV to the Message.

Of course there are many different translations of the Bible in print today. Most of them are good translations insofar as they reflect the earliest and most accurate Greek manuscripts of the New Testament and Hebrew manuscripts of the Old Testament. But be assured that each and every new translation of the Bible published today stems not from a previous translation of the Bible but from the earliest Greek and Hebrew manuscripts. And the best English translations are published not by one person but by entire teams of scholars who work together to not only reflect the thought of the original author but also to put that original thought into the modern lingo.

The modern translations, however, have omitted some of the stories that the KJV scholars included. For instance, modern translations end Mark's gospel at 16:8, they omit the reference of the angel of the Lord stirring the waters at the pool of Bethesda in John 5:4, and they delete the story of the woman caught in adultery in John 7:53-8:11. Why? Because the earliest manuscripts that have been discovered since the creation of the KJV do not contain these stories. Because there were only a half dozen Greek manuscripts available in the 17th century when the KJV was put together – dating back only as far

as the 9th century – these stories appear to have crept into the text as later additions by that time. The modern English translations utilize more recent Greek manuscript finds – manuscripts which date back to the second, third, and fourth centuries – over 500 years earlier than the manuscripts used to put the KJV together. And these older manuscripts don't contain the three citations listed above. These seem to have been added by later scribes describing actual events, but they weren't words written by the original author.

Besides omissions, modern versions do change the text slightly. For example, the KJV text of 1 Timothy 3:16 says, "God was manifest in the flesh," but most modern translations read, "He was manifest in the flesh" (simply because the earlier Greek used the pronoun). Altogether, there are hundreds of textual changes just like this between the KJV and modern translations, but as you can see they are insignificant. The truth is, the textual changes in the modern translations affect no major doctrine. The deity of Christ, the virgin birth, salvation by grace alone, and all the others are all perfectly intact. Though certain passages are omitted or changed, the doctrines are not. And even when you put all the minor changes together, the Greek manuscripts behind the KJV and the ones behind the modern translations are literally more than 99% in agreement!

Has the Bible been translated and re-translated through the centuries? Of course it has. But the English translations today are more accurate to the original time of writing than ever before. And altogether there are over 5,600 Greek manuscripts of the New Testament to compare with each other to determine the accuracy of any given text. The closest book of antiquity with manuscript evidence is Homer's The Iliad, and it only has 643 manuscripts (the earliest dates to the 13th century!). The Bible is believable, and praise God! It just so happens to be His Word. Permeated throughout the Bible is God's revelation of Himself. It's worth studying.

## Fountain of Life Fellowship

School's Out! Yep, it's time for a little slower pace, a little more cookin' out and a lot more time with family. For the next three months families get to do a lot of great things together. Movies, vacations, theme parks and the beach are probably on everybody's list and for good reason. Each of us needs to unwind a bit and recharge the 'fun' meter. We've been hittin' it hard for months and now is the time to chill out for awhile.

Like to read a little more during the summer months? I'd suggest "Wild At Heart" by John Eldridge for the guys and "Woman, Thou Art Loosed" by Rev. T.D. Jakes for the ladies. Both books will change your life and make this summer a great memory.

Like to watch movies together as a family? Then I'd suggest "The Kid" with Bruce Willis. It's a great movie of a man who learns that life is more than being a 'rich loser without a dog'! While you're at it "Raiders of the Lost Ark" and "National Treasure" are also great movies that you don't have to worry about hiding your kids eyes while you fast forward through scenes they aren't supposed to watch.

While you're out there having fun, let me also suggest that you take some time this summer to draw closer to God. A time when things are just naturally slower can be a great time to recharge the 'spirit meter' as well. If you haven't found a church home yet, now is a great time to go looking. The atmosphere at most churches is a little more laid back and you'll get time to get to know people better. Most churches take the summer months to send their kids to camp and that would be a great way for your kids to get to know some new friends.

Spend time pursuing a more meaningful relationship with the God

that made your summer. He hung the stars in the heavens, created the great mountain ranges and the beautiful sunsets we enjoy. He's not some nebulous God with no name or personality, but a real God who loves and gives without holding anything back. The Bible says in the 1st chapter of the Gospel of John that, "In the beginning was the Word, and the Word was with God and the Word was God. He was in the beginning with God. All things were made through Him, and without Him nothing was made that was made. In Him was life, and the life was the light of men."

Who is this God? What is His identity? A few verses later we find out. "And the Word became flesh and dwelt among us, and we beheld His glory, the glory as of the only begotten of the Father, full of grace and truth. This loving God is Jesus Christ. As John tells us, "He came to His own and His own received Him not." Won't you receive Him today? Make this the greatest summer of your life. Make this the summer that you gave your life, without reservation, to Jesus Christ.

At Fountain of Life Fellowship, you'll find a great 'family' of people who serve this God. We are a non-denominational, Spirit filled church with a vision to serve our community through the lives of transformed people. Won't you join us? We're located on Mueschke Road, one mile north of Hwy. 290. Our service time is Sunday morning at 10:45 a.m. and our Home Groups meet throughout the week. We offer complete programs for children and youth as well as a Nursery for all services. For more information please call the church office at (281) 373-9337.

FYI: Nursery Worker Wanted. Please call the church office at (281) 373-9337.

We encourage you to visit with us and get involved.

We have just updated our website at [www.goodchurch.us](http://www.goodchurch.us) so take a look at our new look at see what we have going on. The youth have their own website at [www.gsm youth.net](http://www.gsm youth.net) so visit it often to check out the latest summer fun activities planned weekly.

Located on Cypresswood Drive in beautiful Fairfield, we are right down from the Shell station off 290 and Mason Road. Join us this Sunday for Traditional Worship at 8:30 or 9:45am, or our Contemporary Praise service at 11 am. Or join us Saturday night for Common Grounds, a coffeehouse style service with contemporary music and weekly communion at 6 pm.

### KidMo

New this Summer, during the Common Grounds service on Saturday evenings, the children of Good Shepherd will experience something unlike anything they've ever known!

Our new program, Kidmo, will challenge, intrigue, teach, and entertain kids and teachers alike.

For a completely out-of-the-box experience that will change your children's lives (and probably your own), kids 4 years through 5th should join us at 6 pm in room 113 this week!

### Ladies Night In

Sign up now for our "Ladies Night In" on Friday, June 22nd at 6:30 pm at the church. There will be a \$10 charge at the door. This is a girls only night of praise and worship, dinner, snacks, puzzles, games, karaoke and a special pampering from our BeautiControl friend, Julie Baldrige. We hope you will join us and bring your friends! We won't spend the night, but make sure your husband knows to not wait up for you.

### Fourth Journey to Brazil

Our fourth Brazil mission team will be leaving on June 17th for a 10- day trip. They will be working on the Santa Barbara Methodist Church building and visiting in the homes in the Novo Mexico slums as well as worshipping with both groups. Please pray for the whole team that God will prepare them for the ministry this year and will be with them before, during and after the trip. Ask God to specifically use each person to further His glory and to touch lives for Jesus. Ask for safety for our Team. And ask for strength for our families while we are away from them.

# Fit Facts™

FROM THE AMERICAN COUNCIL ON EXERCISE®

## The Top Ten Fun Fitness Summer Activities for Kids

Summer is here and children need to stay active, healthy and busy during their break from school.

Parents need to encourage their children to warm up properly and stretch before each activity and teach them never to play through any type of pain or make winning the reason for playing any sport. Let them choose the activity and keep the focus on having fun. To keep kids moving, the American Council on Exercise suggests ten, fun fitness summer activities.

1. **Soccer:** This highly active game involving both agility and teamwork has grown increasingly popular in the U.S. in recent years. To keep kids injury free, be sure they are geared up in appropriate protective equipment, such as shin guards. Soccer players should also wear shoes with cleats or ribbed soles to prevent slipping.
2. **Martial arts:** With a variety of forms to choose from, martial arts are a great way to get kids involved in a sport that involves strength, coordination and mental discipline. Proper training and equipment to prevent injury are a must.
3. **Bike riding:** Bicycle riding is a fun activity for the whole family. Experts suggest children ride on sidewalks and paths until they are at least 10 years old, show good riding skills and are able to follow the rules of the road. Helmets, of course, are a necessity for both children and adults.
4. **Swimming:** Nothing beats splashing around a pool with friends, and swimming

offers the benefits of a full-body workout for both young and old. The American Academy of Pediatrics recommends swimming lessons for children ages 4 and up, although classes are available for babies and toddlers as well.

5. **Basketball:** Whether it's a round of HORSE, a game of one on one, or a full-court competition, basketball is ideal for developing hand/eye coordination and teamwork. Encourage children under the age of seven to use a smaller foam or rubber ball, and lower the height of the basket if possible.
6. **Obstacle courses:** Challenge kids to use a variety of different skills by setting up an obstacle course at the park using playground equipment or other items, such as jump ropes, balls and cones.
7. **Dancing:** Whether your kids like ballet

or hip-hop, dancing encourages them to be creative and move their bodies freely. For video arcade fans, an innovative new game challenges opponents to follow a dance routine while watching the video. Kids can spend time learning new moves while also getting a great workout.

8. **Board sports:** Whether snowboarding in the winter, surfing in the summer, or skateboarding year-round, kids love to be on the board. Injury risk, however, is higher for these sports. For both snowboarding and skateboarding, kids should wear helmets to prevent head injuries, and surfers or boogie-boarders should always be accompanied by an adult.
9. **Jumping rope:** Jumping rope is still a favorite on most playgrounds. Whether alone or in a group, jumping rope challenges both coordination and stamina.
10. **Ice-skating/inline-skating:** Ice-skating, inline-skating and hockey can be both fun and safe as long as appropriate protective gear such as a helmet, wrist guards and kneepads are worn. Hockey players should wear a helmet with foam lining and a full-face mask, a mouth guard, pads for shoulders, knees, elbows and shins, as well as gloves.

## E85 Stations Surpass 1,200 Locations!

by Michelle Kautz with NEVC

The number of E85 refueling locations across the United States has now exceeded 1,200. The Renew E85, LLC station at 1440 Horicon Street in Maryville, Wisconsin, is one of the newest E85 stations and put the total number of E85 fueling sites over 1,200.

Jay Stoflet of Renew E85, LLC added, "It's great to reach a milestone like this, but we know there is still a long way to go to for Americans to have the type of convenient access across the US needed to make E85 a viable option for the masses. Being the 1,200th facility to offer E85, our hope is that it illustrates to others there is a waiting market in this country for E85 and that it inspires them to join the cause, helping to fill the demand US consumers have for alternative fuels."

Last year at this time, the number of E85 sites across the U.S. was less than 750 facilities. During the past year, more than 450 new sites have been established including E85 locations opening for the first time in Alabama and Arkansas. Currently, there are 70 privately accessed and 1,134 publicly accessed E85 sites. The NEVC has assisted with the establishment of all of these facilities providing technical, promotional and/or financial support.

"Growth and interest in E85 fuel and infrastructure is continuing at a rapid pace," said Chairman of the NEVC and Director of Government Affairs for ICM Greg Krissek. "We are thrilled to celebrate this milestone and look forward to helping to grow the nation's E85

infrastructure even more in the coming months. Congratulations to the Renew station in Maryville, Wisconsin and to all the retailers supporting E85."

The NEVC is currently working with our many partners to encourage Congressional appropriations are made available to continue to grow the numbers of E85 stations across the nation.

The NEVC provides the most accurate and up-to-date E85 fueling station listing. To find an E85 station near you, go to [www.E85Refueling.com](http://www.E85Refueling.com).

## Heart-related Strokes Trigger 'Double-jeopardy' Race Against Time

*Baylor College of Medicine*

HOUSTON -- When a stroke stems from disorders of both the heart and mind, the window to save a victim's life closes nearly as fast as the onset of symptoms.

"In terms of damage, a stroke originating from the heart presents a double jeopardy for the patient," said Dr. Wayne Franklin, assistant professor of medicine-cardiology at Baylor College of Medicine in Houston. "The treatment and recovery effort are magnified."

Roughly 20 percent of all instances of ischemic stroke, in which blood supply to the brain is blocked, result from cardioemboli, or clots in the heart that break off and clog blood vessels in the brain.

During onset of heart-related strokes, or cardioembolic strokes, doctors are in a race against time to treat them, given that the brain cannot survive more than a few hours without treatment. The complicated nature of cardioembolic strokes, which can block blood flow to parts of the brain, makes it all the more challenging for doctors to arrive at a proper diagnosis.

"They need a whole work-up – head CT scan, head MRI, carotid Doppler exam, EKG, echocardiogram – to determine if the cause is from a clot in the heart or from a narrowing of blood vessels," said Franklin, who is also medical director of the Texas Adult Congenital Heart Center. "Time is of the essence."

Fortunately, clot-busting medications can be administered shortly after the onset of stroke to reestablish blood flow to the brain, although room for improvement remains.

"Anti-clotting oral medications are in development that are easier to monitor and less erratic in their effect," said Franklin.

Cardioembolic stroke from clots that originate in the heart have several possible causes, the most prevalent being atrial fibrillation, a condition caused by an abnormal heart rhythm that can go undetected.

"It is quite common to have atrial fibrillation as people get older, but it can be treated with medication to prevent clot formation, and it can also be treated with drugs that control heart rhythm and rate," said Franklin.

For ischemic strokes from narrowed arteries, surgical options include carotid endarterectomy, a procedure that cleans out diseased neck blood vessels, as well as ballooning and stenting of carotid arteries, all of which go a long way toward preventing further ischemic strokes.

"Stroke is the number three killer in this country and has caused a great deal of sickness and disease," said Franklin. "But we can prevent more of it by detecting and treating it earlier."

## The Health Benefits Of Wine

by Peggy Fleming

(NAPSA)-A glass of wine can offer much more than a relaxing drink at the end of a stressful day. It may also ensure a healthier heart, a reduced risk of cancer and many other health benefits scientists continue to discover.

Those who drink one glass of wine per day have a 30 to 40 percent lower rate of death from cardiovascular disease than non-drinkers. In fact, a daily glass of wine also significantly reduces the risk of stroke and can help assist in recovery.

*Moderate wine drinkers have a lower risk of heart attack due to wine's ability to reduce blood clotting.*

A good point to remember is that wine's health benefits outweigh alcohol's risks only when experienced in moderation: no more than one glass of wine per day for women and two per day for men.

You don't have to be a wine connoisseur to enjoy this age-old remedy. You can learn as much or as little as you'd like. Pop the cork because a healthier you calls for a special occasion.

Here are some facts that may want to make you trust your heart to the vine:

- Over half a million Americans are diagnosed with heart failure each year. Moderate wine drinkers have a lower risk of heart attack due to wine's ability to reduce blood clotting.
- Anti-oxidants in grapes' skin and seeds lead to red wine's heart-healthy nature. This substance helps reduce "bad" cholesterol while increasing "good" cholesterol, a process that also reduces the risk of a heart attack.
- Johns Hopkins University scientists found

that red wine may help protect you from the brain damage associated with strokes.

- A diabetic presents the same risk of coronary heart disease as someone who has already suffered a heart attack. A glass of wine may help prevent this leading cause of death in the U.S.
- Wine also helps fight cancer by preventing cancer cells from receiving the protein they need to survive. In addition:
- A glass of red wine per day appears to cut the risk of prostate cancer in half for men. Moderate red wine drinkers also reduce their risk of colon cancer.
- While wine can help prevent some cancers, the American Medical Association warns that women who drink more than the recommended one drink per day actually increase their rate of breast cancer.

## AESTHETIC AND FAMILY DENTISTRY DR. A. SUNDRANI

### Dental Tip of the Month.

## Pregnancy and Dental Care?

By: Dr. Asim Sundrani

Hello Friends,

Now that you are pregnant, so many exciting changes await your body.

Those changes can include changes in the mouth as well. If you have tender gums, or if the gums bleed when you are brushing then you have pregnancy gingivitis.

This is caused by plaque accumulating in the gums and on the teeth surfaces.

Usually if gingivitis is left untreated, it can cause irreversible gum disease called periodontitis. However, if the pregnancy gingivitis is left untreated, it can additionally cause complications with your pregnancy, such as premature childbirth.

The increased blood flow during pregnancy and the increased hormone production makes you more susceptible to gum disease.

I will recommend the prevention method. Brush twice a day for 3 minutes minimum. Be really gentle when brushing your teeth. Use a mouthwash twice a day, morning and night. Avoid eating too much sugar. However, if you have consumed a large amount, brush right after.

All pregnant women should receive at least two thorough dental cleanings during pregnancy. This will help prevent getting gingivitis during pregnancy.

In the mean time if you have any dental related questions, feel free to email me at [sundranidds@yahoo.com](mailto:sundranidds@yahoo.com), and I will happily respond to your inquiries.
