## LET US KEEP OUR NEIGHBORHOODS

### Litter Free!

Take responsibility for yourself & be a good neighbor! Keep our streets & neighborhood trash & litter free! Make it a habit, be a good neighbor & do your part!

If each person did their own part (around the outside of their home including their little stretch of street in front of their house), what a better place this would be to live!

A clean environment/neighborhood makes people feel good about themselves. They will keep it clean. Some need to be reminded. Others need to be continually reminded. It takes time to change habits. Keeping your neighborhood clean is a habit that takes conscious effort.

## Dear Friend,

Most of you are unaware of a rare genetic disorder known as Ectodermal Dysplasias. This condition affects about 7 in 10,000 births. There are at least 150 different syndromes of Ectodermal Dysplasias. Symptoms range from mild such as a missing teeth and thin hair to severe such as skin erosion or bone anomalies. The most common symptoms are hair, teeth and bone anomalies. Many individuals affected by Ectodermal Dysplasias cannot perspire. Their sweat glands may function abnormally or may have not have developed at all. Without normal sweat production, the body cannot regulate temperature properly. While this condition is rarely life threatening it is almost always heartbreaking.

My wife and I are writing this letter to ask if you would help us with a very important fund raiser, the First annual "Fore A Good Cause" Golf Classic to be held at Stone Gates "Home of the Houston National Golf Course".

Jordan Jaundoo is our Eleven-year-old son who is affected by Ectodermal Dysplasias. He is missing some of his teeth and will receive bone graphs and permanent implants, for those missing teeth when his jaw stops growing. Jordan has very thin hair, and was born without any sweat glands; consequently he is unable to perspire.

Despite all of this Jordan is a fighter and one outgoing and fun loving child. And not to be biased since he is our child, but one of the most kind hearted people we've had the privilege of raising. He is an (A) student, loves music and the arts as well as an accomplished soccer player, and competitive swimmer. At age three in his first game of soccer, he scored nine goals. Jordan has continued to love the game of soccer even now. Additionally he has won 'Most valuable Swimmer' five years in a row on the summer swim team. Overall

Jordan is very competitive and passionate with any and all sport he plays. He does play most of the seasonal sports, such as Baseball, Indoor soccer, and Basketball. Most recently he was the MVP of a baseball tournament as he led his team to a championship, after pitching a great game. His next sport of choice is Football. Although, we're somewhat apprehensive as parents, concerned with how hot it could get wearing all those pads. Although, Jordan is so adamant that he wants to at least give it a go. As Parents we will always have to worry about Jordan overheating and most importantly the possibility of suffering from a heat stroke. This is why we are trying to bring awareness to everyone who may come in contact with children who are also affected with this condition and help the children become everything that they set out to be.
