Seven Lemons Placed Third at the Texas State Competition

Months of teamwork and many hours of applying amazing, creative brain power has brought success to the Destination ImagiNation team "Seven Lemons" from Ault Elementary.

Destination ImagiNation (DI), is an extraordinary, non-profit organization that provides educational programs for students to learn and experience creativity, teamwork and problem solving. Teams are tested to think on their feet, work together and devise original solutions that satisfy the unique requirements of mind-bending challenges. Participants gain more than just basic knowledge and skills—they learn to unleash their imaginations, take creative approaches to problem solving and are highly encouraged to think "outside the box".

A team works to develop an innovative solution to their challenge problem over the course of many months and start competition at regional level tournaments. Fueled by their success at the Gulf Coast Regional competition, the "Seven Lemons" placed third at the Texas State Competition in Dallas and have earned the opportunity to compete at the DI Global Tournament. This is the first team from Ault Elementary to advance to the global level. For five days at the end of May, the "Seven Lemons" will compete alongside teams from all 50 states and 35 foreign countries at the University of Tennessee.

14 YEAR OLD, ALICIA ADAMS

Inspires Houston To Take Steps To Fight Digestive Diseases

Alicia Adams from Cypress is inspiring people in the Houston area to participate in the Crohn's & Colitis Foundation's South Texas Take Steps Walk on June 12th at 5:00pm at Discovery Green in Houston. Alicia Adams lives with Crohn's disease, which combined with ulcerative colitis, are painful and unpredictable digestive diseases impacting over 1.4 American adults and children including over 66,000 in Texas.

Alicia was diagnosed with Crohn's disease at 9 years of age. She lives with unpredictable and at times, excruciating pain. She has endured several surgeries and must remain on medication for the rest of her life, or until a cure is found.

"I HOPE THIS WALK WILL HELP TO RAISE AWARENESS ABOUT CROHN'S & COLITIS, AND THE MONEY NEEDED TO ONE DAY SOON FIND A CURE," says Alicia. "I JUST WANT TO BE NORMAL AND NOT HAVE TO LIVE IN SO MUCH PAIN."

The walkers raising funds in honor of Alicia Adams have been given all the necessary fundraising tools to raise critical research dollars for these diseases, including a free customizable Web page for fundraising support, fundraising advice and assistance, and banners for social networking sites like Facebook.

For more information about becoming involved in Take Steps for Crohn's & Colitis, visit www.cctakesteps.org or contact Angela Fay at 713-572-2232 or afay@ccfa.org

ABOUT TAKE STEPS

At over 100 Walk sites across the country, thousands of people will gather this spring and summer to join the fight against Crohn's disease and ulcerative colitis. Together we'll raise money for crucial research and raise awareness of these painful and unpredictable digestive diseases that afflict millions of people. After only two years, CCFA's Take Steps Walk has raised over \$13 million for research and

patient service programs. Our goal is even higher in 2010. We're committed to help transform the lives of those impacted by these diseases to one of a brighter future based on well-funded, cutting-edge scientific research. Join us now -- register today and take a step toward a future free from Crohn's and colitis!

ABOUT CROHN'S DISEASE AND ULCERATIVE COLITIS

Crohn's disease and ulcerative colitis are painful, medically incurable illnesses that attack the digestive system. Crohn's disease may attack anywhere from the mouth to the anus, while ulcerative colitis inflames only the large intestine (colon). Symptoms may include abdominal pain, persistent diarrhea, rectal bleeding, fever and weight loss. Many patients require hospitalization and surgery. These illnesses can cause severe complications, including colon cancer in patients with long-term disease. Some 1.4 million American adults and children suffer from Crohn's disease or ulcerative colitis, with as many as 150,000 under the age of 18. Most people develop the diseases between the ages of 15 and 35.

ABOUT THE CROHN'S & COLITIS FOUNDATION OF AMERICA

The Crohn's & Colitis Foundation's mission is to cure Crohn's disease and ulcerative colitis, and to improve the quality of life of children and adults affected by these diseases. The Foundation ranks third among leading health non-profits in the percentage of expense devoted to research toward a cure, and more than 80 cents of every dollar the Foundation spends goes to mission-critical programs. The Foundation consistently meets the standards of organizations that monitor charities, including the Better Business Bureau's Wise Giving Alliance (give.org) and the American Institute of Philanthropy (charitywatch.org). For more information, contact the Foundation at 800-932-2423 or visit www.ccfa.org.

RETIREMENT CHALLENGES

For Today's Families

I recently had the pleasure of hearing David Walker, the former Comptroller of the United States, speak to my company at a training session. Mr. Walker, who made the famous movie "I.O.U.S.A." is an expert at knowing how the country can reverse the trends of increasing government debt and seemingly unlimited entitlement spending. Now the President of the Peter G Peterson Foundation (www.pgpf.org) he paints a scary picture of what our future can hold if we don't act. In "I.O.U.S.A." he forecasts that without intervention, by 2035 the government will spend so much on defense, social security, Medicare and interest on debt that there won't be enough money to pave a street. But it doesn't have to be this way.

He believes that the American people are more knowledgeable now than at any time in history about how our government spends money. This is the key to action. Mr. Walker is not a man prone to exaggeration – he is a factual

man. And he showed us how various arms of the government can be reformed in a sensible, step-wise manner, starting with a rethinking of tax and entitlement policy. Sure, he expects our taxes to rise in the future but there is really good hope that our taxes will be used more sensibly. This is real stuff, not a fantasy. In fact in May 2010 he led a by-invitation only summit of the best thinkers on both sides of the political scene to create solutions.

How will your family navigate these waters? Creating a financial strategy for living in this new world of retirement is vitally important. Find out what it takes now to plan for rising inflation and taxes, future college costs, and changes to social security. Learn how to protect your assets from these headwinds and accumulate what you need for the future.

Annual 12th Russian Children's Folk Festival 2010

Happy Families has been sponsoring orphaned children to participate in our Russian Children's Folk Festival since 1981! We plan to bring 15-20 children ages 6-12 from orphanages in the Kaliningrad region with their chaperones to Houston, TX in June 2010. The children will be staying with host families for 2 weeks.

School age children are one of the most deprived groups of Russian orphans. They have few chances for a bright future in Russia. The festival gives them a unique opportunity to see a different world outside of their orphanages.

These annual events have found much attention from the media, including coverage on ABC's Good Morning America and New York Times and many more. See details at www.happyfamilies.org.

What are the requirements to bring a child? Happy Families needs to raise about \$2,000 to bring each participant. This covers airfare, transportation in Russia, passports, visas, medical insurance, translation and coordination. We are asking for your support and participation in this project. Please contact us for additional information on how you can help.

Sincerely,

Svetlana Startz

SUMMER HEAT CAUTIONS

Stay Safe This Summer

How dangerous is overheating in the summer months? According to the Centers for Disease Control and Prevention, from 1973 – 2003, excessive heat exposure caused 8,015 deaths in the United States. “Heat-related deaths and illness are preventable, yet annually many people succumb to extreme heat,” says Dr. George Luber, extreme heat expert for the Centers for Disease Control and Prevention in Atlanta.

Summertime activity, whether on the playing field, running, boating, or just enjoying the great outdoors, must be balanced with measures that aid the body’s cooling mechanisms and prevent heat-related illness. Know the symptoms of heat disorders and overexposure to the sun, and be ready to give first aid treatment.

Heat Cramps- are strong muscle contractions and usually affect the abdomen and legs. The condition usually improves with rest, water and cooler conditions.

Heat Exhaustion- caused by heat and dehydration but the effects are more serious than cramps. Symptoms may include

pale skin, dizziness or fainting, nausea or vomiting, and an increase in body temperature. Rest, water and cool compresses (ice water on the back of the neck, etc) can help. For more severe heat exhaustion, IV fluids may be required.

Heat Stroke- The most serious of the heat related conditions. Heat stroke is most commonly brought on by strenuous exercise in hot conditions. However, it can also affect non-active individuals if the temperature is high enough. Visual signs include flushed, red skin, the person often stops sweating**. This is one key sign that an individual is in an over heated condition. Also, a person with heat stroke might become delirious, unconscious, or have seizures. Lowering the body temperature and getting fluids into the person as quickly as possible is imperative.

Don’t get caught off guard this summer drink plenty of water, wear plenty of sun-screen, and exercise early in the morning. Enjoy the summer season and stay safe.
