You Can Help Bring A Dog Park To 1960/Willowbrook Area

If you have ever taken your dog to a dog park you know how much fun they are for people and dogs too. You probably also know there is not one in our neck of the woods if you live in far NW Houston. The nearest off leash public dog park is Bill Archer Park in the Bearcreek Park area on Hwy 6 near I-10. If you have not ever been to a dog park you may soon get a chance to do so here in our own back yard. The Houston Dog Park Association (HDPa) is proud to be partnering with sponsor Barks 5th Avenue to bring a public dog park to far NW Houston. Land next to the Barks 5th Avenue facility on 1960 near Jones Rd. will be donated by the land owner to HDPa to build a public dog park on. HDPa will design, construct and manage the dog park. The plan is in preliminary stages now and more details will be shared at the Kick Off and Fund Raising event to be held October 2nd in the parking lot of Barks 5th Avenue at 10620 FM 1960 West, Houston, TX 77070.

We will be announcing the event details on our web site soon but you can mark your calendar for Oct. 2nd now. Leashed pets will be invited to the event and we'll have lots of fun for people and doggies including a dog and car wash, frisbee dog demonstrations, doggie costume contest, and lots of local vendor tables with freebies and goodies to give away and win. We are seeking vendors and will also need volunteers to help setup and work at the event from washing cars and dogs to entertainment and set up/clean up. HDPa is also seeking sponsors and vendors as well as entertainment for the event, contact HDPa to offer your services or reserve your space.

You can donate to the NW area dog park construction fund right now on our web site under Programs via Paypal or you can donate at the event. Dog park donations are tax deductible. HDPa has already raised over \$1000 for the NW area dog park. HDPa will be forming a "Friends of the NW Area Dog Park Committee" to help us plan and develop this new dog park and the event and we need volunteers. If you'd like to help us make this dream a reality for NW Houston dog owners email tiffany@houstondogpark.org to learn how you can help. HDPa is a 501c3 non-profit volunteer organization that advocates for dog parks and supports dog park patrons through education. Learn more about HDPa, how you can help, and what HDPa is doing to support dog parks all around Houston on our web site. For a map of all the dog parks around Houston visit www.HoustonDogPark.org. See you at the dog park!

GIRL SCOUTS EARTH SAVER MESSAGE

The United States is the world's largest consumer of bottled water, purchasing 37 billion bottles in 2005. Bottled water produces up to 1.5 million tons of plastic waste per year. As much as 40 percent of bottled water comes from the tap. According to Food and Water Watch, "plastic requires up to 47 million gallons of oil per year to produce. Producing plastic bottles uses energy and emits toxic chemicals." While the plastic used to bottle beverages is of high quality and in demand by recyclers, over 86 percent of plastic bottles are simply thrown away. Plastic waste is now at such high volume that vast amounts of current-bound plastic trash is now spinning endlessly in the world's major oceans. This represents a great risk to marine life, killing birds and fish which mistake our garbage for food. Thanks to its slow decay rate, the vast majority of all plastics ever produced still exist somewhere. Breaking down these plastics can take thousands of years.

There's a simple alternative to bottled water: buy a stainless steel thermos, or a reusable water bottle and use it. If you don't like the way your local tap water tastes, inexpensive carbon filters will turn most tap water sparkling fresh at a fraction of bottled water's cost. This message is brought to you by Alexandria Morgan, Isabel Mujica and Nicole Riso, Girl Scouts of San Jacinto Council, Houston, Texas

Krone Earns Eagle Scout Award

Indianapolis native joins father as Eagle Scout

Joining Eagle Scout Patrick Krone, from left, are sister Amanda Krone, Patrick, mother Nancy Krone, and father and Eagle Scout Jeff Krone following Patrick's Eagle Court of Honor at Good Shepherd United Methodist Church in Cypress, Texas.

Patrick A. Krone, a Cypress resident and Indianapolis, Ind., native, has joined his father in earning the Eagle Scout Award, the Boy Scouts of America's highest honor.

A graduating senior at Cypress Woods High School, Patrick was awarded the Eagle Scout Award during Troop 533's Eagle Court of Honor at Good Shepherd United Methodist Church in Cypress. He was joined by his parents, Nancy and Jeff Krone and sister, Amanda.

Patrick joins his father, Jeff, as an Eagle Scout. Two Eagles in a family are a rarity. Only 3 in 100 that begin in Boy Scouts complete the rigorous requirements for Eagle Scout, making this accomplishment the more remarkable. Patrick is the 36th Eagle Scout in Troop 533, and has earned his Brotherhood in the BSA Order of the Arrow

honor society.

To become an Eagle Scout, a Scout must earn a minimum of 21 merit badges, including 12 of which are required. He must serve actively in a troop leadership position for a period of six months after achieving the rank of Life Scout. While a Life Scout, he must plan, develop, and carry out a service project helpful to a religious institution, school, or community in a manner worthy of an Eagle Scout. He must demonstrate, through the testimony of character references and otherwise, that he lives by the principles of the Scout Oath and Law in his daily life. He must participate in a Scoutmaster Conference. Finally, he must appear before a Board of Review.

Patrick has been in Troop 533 for 5½ years and in Troop 894 in West Newton, Indiana

AGAINST THE *Wind-Scaping* NATURE'S FURY

Did you ever wish you could start a day over? The kind of day where it starts out like a light rain shower with the sun peeking through, and ends with a dark, heavy flood?

When I first heard the sound, I was searching in the dark for matches to light a candle. Our power had gone out due to the storm raging that night. The sound startled me and I jumped as I heard it a second time. This time, I knew exactly what that sound was. It was the sound of my only shade tree falling over. It landed on my deck and filled the whole back yard. My heart sank. This could not be happening to ME!. As I opened the door, there it lay, completely uprooted. I had refused to greatly thin the canopy of this top heavy tree because it had provided many a play day in the shade for my children, and kept the swing set cool during even the hottest months. It was still storming for two days following, so with our emergency jobs I did not have a chance to remove it until 4 days later. While I was cleaning up debris of the tree and carrying a large branch to the truck, I knew what I had done. If I had only thinned out this tree, it would have had a much greater chance of withstanding that storm. Sometimes, we overlook things that are precious to us until it is too late, even when we have the knowledge to prevent it from happening.

Early June is the time to trim trees in your yard before storms threaten our area. We should make our trees more wind resistant by removing diseased and damaged limbs, and strategically remove limbs throughout the canopy. This provides less wind resistance in a storm when the wind can blow through the tree. Keep overhanging branches on homes to a minimum, and check for trees entangled in power lines.

Native trees such as Live Oak, Cypress, and Red Maple do survive hurricanes better than Non-natives. In high winds, Palms will bend, but not always break. Since they originated in the tropics and sub-tropics, their trunks have adapted to hurricanes. Although fronds will be damaged in a storm, most Palms including Chinese Fan, Majesty, and Pygmy Dates will recover. Queen Palms are the exception due to very low wind tolerance.

We all live extremely busy lives out here, and when storms approach it could be too late to thin out or take care of that dead tree that has been there for a while take some time to care for your trees and they will thank you in many ways.

Warmly, Laura Lamar

STRATEGIES FOR A POSSIBLE LAYOFF

A family's most important financial strategies include defensive ones. What if you or your spouse might get laid off in the near future? But you might not get laid off too, so what types of things should a family do? The challenge is to protect your family's assets while staying on-plan to secure your future finances.

First, stay with your retirement savings plan. Keep on contributing because it reduces your taxes and your company may make matching contributions. Combined, these will do you more good than paying off consumer debt. And avoid borrowing against a retirement plan or worse, withdrawing funds early. The taxes and penalties for this are severe.

Next reduce your spending, say, by 10%. This is a good idea

regardless of your situation and the upside is you might reconnect with what is important. Distinguish between wants versus needs. Include the kids on the family decisions. Now that you have more money, it's time to boost your emergency fund. Everyone needs 3 to 6 months of expenses in a readily accessible account. This helps you avoid going into debt when emergencies arise.

Secure your life insurance. This protects your income stream. If you have a group life plan, it will disappear with a job loss. And group plans often have steep increases when you hit those magic milestones every 5 years after 40. Buying a policy outside the company is called portable insurance, and it's smart.

Next knock down your consumer debt. By that I mean anything with a "minimum payment" box – that's bad debt. Use debt-stacking techniques to get out of debt quicker while paying no more on a monthly basis. It's smart to open a home equity line of credit now but don't borrow against it. Think of it as a safety net.

Lastly, secure your home by refinancing while interest rates are low. While you could get a 15-year note, it's smart to get a 30-year loan and pay it off as though it were a 15-year note using higher payments. In this way if you get laid off you can always revert to the lower payments required by the 30-year note.

FACTS YOU NEED TO KNOW ABOUT DROWNING

Drowning is the leading cause of unintentional injury-related death in children ages 1-4

DROWNING WILL AFFECT YOU OR SOMEONE YOU KNOW

Drowning is the 2nd leading cause of unintentional injury-related death ages 1-14.

For more information, check out our website at

www.colinshope.org

DROWNING CAN STILL OCCUR EVEN IF YOU KNOW HOW TO SWIM

NO ONE is "drown proof" – no matter their level of swimming ability.

Falls, entrapments, and injuries lead to drowning regardless of swimming level.

A majority of people overestimate their own and their child's ability to swim, especially in a panic event.

DROWNING IS QUICK AND SILENT

Drowning occurs in as little as 2 minutes.

Irreversible brain damage occurs in as little as 4 minutes.

Most children are out of sight or missing for less than 5 minutes and usually in the presence of 1 or both parents.

Most children die who are submerged for as little as 6-10 minutes.

Children who drown do not **scream, splash, or struggle**. They silently slip beneath the water, even with adults & lifeguards present.
