A Brief History of Fairfield

Have you wondered how Fairfield got started and who had owned this plot of land over the years?

The tract of land now known as Fairfield was once owned by a partnership of an Aggie and a Longhorn. The duo of Sterling C. Evans, the Texas Aggie, and Gus S. Wortham, the Texas Longhorn, were active in buying up distressed Texas ranch properties.

After graduating from TAMU in 1921, Mr. Evans worked for the Texas Agricultural Extension Service. In 1932 Sterling went to work for the Federal Land Bank until he retired in 1959 to spend more time with his expanding business interests with Gus Wortham. He also began serving on the Board of Regents for Texas A & M and served until 1971. The Sterling Evans Library located in the center of the campus is appropriately named for this outstanding Aggie.

Gus Wortham attended Tarleton State University and the University of Texas before moving to Houston in 1912 to begin a career in the insurance industry. Eleven years later, Wortham with several other leading Houston business leaders formed American General Insurance. Gus served as chairman of the board and chief executive officer of American General for almost five decades.

Evans and Wortham worked together to build successful agricultural businesses raising cattle and crops, then find a marketing niche, and re-sell the properties at a profit. One of their properties was the Nine Bar Ranch in Cypress, Texas. In 1959, the duo held the first registered Santa Gertrudis sale at the ranch. These auctions were quite the celebrity affairs. Cattle barons such as Winthrop Rockefeller and John Connally often attended the Santa Gertrudis cattle auctions. The Houston Chronicle headline in 1961 was "Big Men, Big Money, Big Day at the Bar Nine". Eventually, the Nine Bar Ranch was sold in the 1970's to the Cox Enterprises which was an Atlanta newspaper Group.

In 1984, Cox Enterprises sold the Nine Bar Ranch to Friendswood Development which was then a subsidiary of Exxon Corporation. The sale price was reported to be in excess of \$54 million for the 3200 acres. Friendswood began construction of the infrastructure of a planned community to replace another northwest Houston subdivision, Copperfield, which was soon to be built out. The project began with a \$20 million infrastructure program which included paved streets, a water treatment plant and a wastewater treatment plant. It was estimated the investment in the project would be \$1.6 billion over the next two decades which would result in a community of 21,000 people.

The first new homes in Fairfield became available in 1988 in the Inwood Park and Garden Grove neighborhoods. The growth in Fairfield began slowly as the location was 10 miles from most retail establishments including grocery stores and gas stations. My wife and I moved to Fairfield in 1993 locating in the Chappell Ridge which was the third neighborhood in the community. Shortly thereafter, there was an announcement that the one thousandth home had been sold.

Several things began to happen which helped to accelerate the growth in Fairfield. At the guidance of Tim Fitzpatrick, marketing manager for Friendswood, and Tommy Weaver, construction manager of Friendswood, the Lakes subdivision was begun. This area was built around two dredged-out lakes which were at different levels with water flowing over a waterfall between the lakes. At about the same time, Cy-Fair ISD began construction of Ault Elementary school which was the first school in the subdivision. These changes spurred further and faster growth. The Bradford Creek, Bradford Lakes, The Trails and The Estates were brought into the market.

In May of 1995, Exxon put Friendswood Development up for sale. Later that year, a sale of Friendswood to Lennar Corporation

was completed. Exxon Mobil retained ownership of Fairfield while Friendswood was hired to continue site development and sales of Fairfield lots to builders. Over the years there has been a broad rotation of builders who have been active in Fairfield.

In late 1996, there were 1,125 homes reported in Fairfield. By April 2007 the number of homes had jumped to 3,652. The community now had Keith and Ault elementary schools to support the growing youth population. With the addition of Fairfield Village South, two very large six acre lakes were added. In 2009, Swenke elementary school was added to relieve the overcrowding of Ault and Keith. This August, Salyard middle school will open to serve our growing 11 to 13 year old students. Today, there are 5,000 homeowners in Fairfield well on the way to the 5,800 to 6,000 homes when the project is built out.

In the spring of 2008, the Simon Corporation opened the Houston Premium Outlet Mall with 145 stores in front of Fairfield on US290. In 2010, a second phase added 30 stores to this outlet mall. Simon has future plans for a Cypress Towne Center in the large acreage between Mason Road and the Outlet Mall.

Considering that the original Nine Bar Ranch was mainly open cattle land, it is amazing to consider that all the pine trees and hardwoods in Fairfield were transplanted to fit the green belts and homeowner lots. Work is under way to identify all of the subdivisions' many miles of fences, water wells, swimming pool facilities, sports fields so funding can be allocated for replacements for all the community public items. It looks like the original estimate of a population of 21,000 is very possible once the community is built out. The current estimate is that the final buildout will occur in 2014.

Fairfield is a close knit community and a great place to raise a family. We are blessed to have such a wonderful place for all ages to live and enjoy northwest Houston.

Around Fairfield

Fairfield's Fifty Plus- (Continued from Page 12)

OUR SEPTEMBER BUST TRIP PLANS ARE FOR:

Thursday, September 15, for four unusual tours around Houston. We will be touring the Beer Can House and the Orange Show Monument, as well as, the Houston Fire Museum and the National Museum of Funeral History.

The Beer Can House is a folk art gallery/workshop consisting of more than 50,000 beer cans. The house was built by John Milkovich who hated to throw anything away and after years of drinking his attic and garage were busting with empty beer cans.

The Orange Show Monument is a 3,000 square foot monument which in its maze-like design includes an oasis, a wishing well, a pond, a stage, a museum and a gift shop. It was built single-handedly by the late Jefferson Davis McKissack. The monument encourages visitors to follow McKissack's theories relating health and longevity to good nutrition, hard work and eating oranges.

The Houston Fire Museum houses a prized collection of 18th - 20th century fire service artifacts including a piece of structural steel from the Twin Towers (9/11). In addition to the self-guided tour we will enjoy a talk from an expert on fire safety for seniors.

The cost for this trip will be \$17.00 per person. Plus the cost of your lunch at Katz Deli, this has always been a popular place for us.

To get your name on the list for the trip list call:

Jackie Wurth at 281-304-0805.

Checks are to be made out to: Fairfield 50 Plus. Checks can be given to Jackie Wurth, Kay Wheeler or Mary Lou Cook, and also can be mailed to the Wurth's at 21119 North Yellow Bud Court, Cypress, Texas 77433.

We will depart from the Fairfield Village Parking Lot promptly at 8:30 a.m. Please be there by 8:15 a.m.

OUR UPCOMING CRUISE SCHEDULE:

OUR AUGUST ACTIVITIES PLANS:

Thursday, August 11: The Monthly Planning Committee meeting is at 1:00 p.m. at the Lakeside Trails Club House. Everyone is invited to attend these meetings and participate in our upcoming trip plans. 2011 Fairfield Baseball - Softball

I just wanted to take a quick minute to thank all the players, coaches, parents, sponsors and especially the volunteers for a great 2011 baseball season. We had over 900 kids this year and played over 500 games in a matter of 3 months. An accomplishment like this does not just happen by itself; it takes hard work, for which I thank all of you. Our transition to Nations Baseball this year created some challenges throughout the season. The Committee recognizes these challenges, and will be taking measures to be prepared for the 2012 season. I appreciate everyone's support and patience as we worked through these changes.

I would like to single out a major sponsor that has helped us tremendously for the past two years with their financial support, donations of equipment, baseball tickets to Astros games, and the overall support of our community...Lone Star Chevrolet. With their support, we have grown our

league, updated our facilities, and made our community a great place to enjoy baseball and softball with our friends and neighbors. THANK YOU LONE STAR CHEVROLET!!!!

In addition, a special thanks to our League Sponsors for 2011. Your support of FSA allows us to continue our programs year to year:

TRIPLE PLAY Sponsor (\$800 Level)
Willies Restaurants

DOUBLE PLAY Sponsors: (\$600 Level)
Carrizo Oil & Gas, Inc
Don Julio's Mexican Restaurant & Cantina
Gringo's Mexican Kitchen
Smash Burger - Cypress
Smoothie King - Premium Outlet Mall

To TEAM TIERRA for their support not only with the building of HOPE FIELD, but breast cancer awareness, a community support network, and a million HUGS and

SMILES to those affected by this horrible disease.

To the Rovello family (Chip, Christina, Cheyenne, Kyle and Michael) – my gratitude goes beyond the past 2 years that Chip has served as Commissioner; thank you for all the years that your family has dedicated to the Fairfield Sports Association.

I am Mark Walston, and want to introduce myself as the incoming Baseball – Softball Commissioner. My family (wife Denise and 2 sons Jake and Luke) has lived in Fairfield since 1992. I look forward to volunteering and serving all of the baseball and softball families over the next two years with the goal that we can all work together to make Fairfield the best place to play ball.

Again, thank you for a great 2011, and I will see you in 2012!

Best regards,
Mark

Bluegrass and Old Time Music Jamming Cypress

Bluegrass jamming in Cypress is growing. We really enjoy the friends we have made through Bluegrass Jamming and the camaraderie we share. If you are a picker we invite you to get that instrument out of the attic, clear your throat, get some bluegrass songs together that you want to play/work-on, or just listen, come, join us and have a lot of fun.

Tony got a new Collings mandolin for his birthday and 50th wedding anniversary and he is really enjoying playing it and we love hearing it; although, we are about to run out of space for storing all his instruments. He loves music, especially Bluegrass, but he is an olde engineer retired.

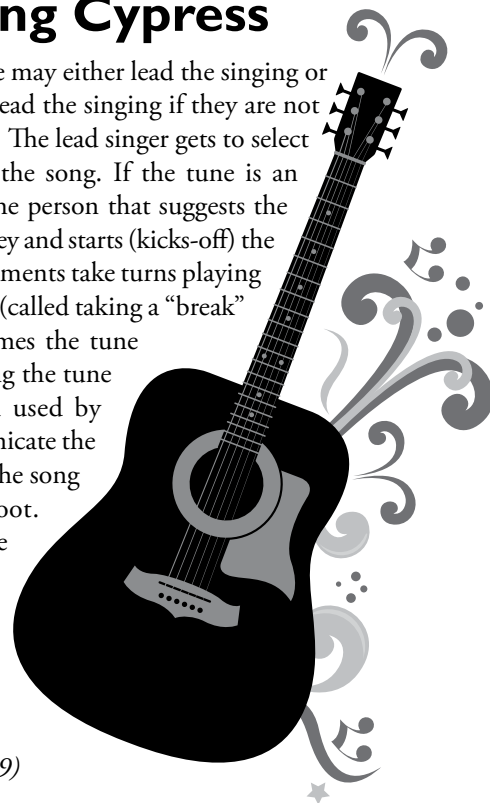

Every fourth Saturday of the month you will find us at Kleb Woods Nature Center on Draper Rd., off of Muschke in Rosehill circled-up and plucking away on those instruments and singing that grassy song and having a wonderful time. You are welcome to join us. Just park in the parking lot on Draper Rd. and walk approximately 600 feet to the Bird Reserve and Nature Center. This is an historical adventure as well.

The typical format for the jam is, after everyone tunes their instrument, each person in the circle, in turn, may either suggest a tune for the group to play or pass to the next person. The person

that suggests the tune may either lead the singing or ask someone else to lead the singing if they are not comfortable leading. The lead singer gets to select the musical key for the song. If the tune is an instrumental, then the person that suggests the tune announces the key and starts (kicks-off) the playing. Other instruments take turns playing a portion of the tune (called taking a "break" or a "ride"). Sometimes the tune is ended by all playing the tune together. The signal used by the leader to communicate the approaching end of the song is to kick up one foot.

To ensure a good time is had by all, being considerate and courteous of each person in the jam is very important. For

example, a considerate jammer will try to blend in with the others by keeping the established tempo, not singing or playing too loud, and giving others adequate space and a chance to play.

In our jam, players may bring their song lyrics, chords, and music stands. In some more advanced jams, the players typically know their tunes "by heart" and music sheets aren't used. However, as tunes are repeated over a period of time, many of our jammers have memorized them, and that is a good thing. If you listen close you will hear "that was a good lick," or "boy you nailed that one."

We are considering some interesting variations to the jam format and plan more fun things for our Jammers.

We meet in Fairfield the 2nd and 4th Monday, from 7: to 9:30/10: PM of each month and on the 1st, 3rd and 5th Monday from 6:30 to 9: pm in the Banquet Rm at Spring Creek BBQ in Cypress. Come a little early and have some great BBQ with us. For more information please call: 281-373-1777.

Fairfield Book Club

The Fairfield Book Club is a terrific way to meet other women in our community, enjoy great conversations, and develop new friendships. We meet the third Wednesday of each month (rotating homes) from 7 to 9:30pm. Book Club members share food and drinks while discussing the book selection for that month. We read all kinds of books suggested by our members - classics, contemporary fiction, non-fiction, biographies, romance, sci-fi, etc. There are no book snobs in our group - we read it all!

If you are a book lover or simply want to expand your reading and social network, please consider joining us. We invite you to attend one of our meetings as a guest or a member. We currently have openings; however, because we hold meetings in our homes, membership is limited. For membership inquiries, please contact Linda Locke by email (linda15226@yahoo.com, subject heading "Book Club") or by phone (713-298-6514, evenings only).

REVIEW OF JUNE BOOK SELECTION

Major Pettigrew's Last Stand by Helen Simonson

Major Ernest Pettigrew, the quintessential Englishman, is a prideful, decorous widower who is fighting to keep his greedy relatives from selling the family's valuable heirloom hunting rifles. In the process, he befriends neighbor Jasmina Ali, a Pakistani shopkeeper. As their unlikely relationship deepens, Major Pettigrew learns to let go of some of his former traditional values to focus on what is really important in life. The author's dense prose is dialogue-focused and requires patience at times, but the end result is a charming story full of wry humor that touches on several meaningful themes, including family relationships, racial prejudice, cultural values, honor and justice.

GIRL SCOUTS ENCOURAGES ADULTS TO VOLUNTEER

Make A Difference In A Girl's Life

 **Girl Scouts®**
Where Girls Grow Strong™

EVERYONE CAN CREATE NEW LEARNING EXPERIENCES FOR GIRLS

Every year, through programs that include science and technology, business and economic literacy, visual arts, and outdoor and environmental awareness, Girl Scouts of San Jacinto Council (GSSJC) encourages women and men over the age of 18 to help build girls of courage, confidence and character who make the world a better place. As a volunteer of the premier organization for girls, you'll add meaningful days to the lives of girls by creating new learning experiences for future leaders in grades kindergarten through 12th.

There is no better time to serve as a Girl Scout volunteer than now. The 2011-2012 will mark the centennial of the Girl Scout movement, giving volunteers plenty of opportunities to participate in all the wonderful events and programs that are sure to be memorable for the girls and the communities they serve.

Becoming a volunteer is simple. All you have to do is complete an application and background check, and accept the Girl Scout Promise and Law. A year-long commitment is no longer necessary as the organization provides a number of flexible options to serve its membership, matching your expertise, skills, interests, and life experiences to available opportunities.

FACTS YOU NEED TO KNOW ABOUT DROWNING

DROWNING ALERT!!!

TEXAS has more drownings than any other state so far this year and we still have a long HOT summer ahead of us. Please be safe in and around the water.

DROWNING CAN STILL OCCUR EVEN IF YOU KNOW HOW TO SWIM

Download a
QRcode App
on your phone
& scan me!

NO ONE is "drown proof" – no matter their level of swimming ability.

Falls, entrapments, and injuries lead to drowning regardless of swimming level.

DROWNING IS QUICK AND SILENT

Drowning can occur in less than 2 minutes.

Irreversible brain damage can occur in 4 minutes or less.

Most children are out of sight or missing for less than 5 minutes and usually in the presence of 1 or both parents.

Most children die who are submerged for as little as 6-10 minutes.

Children who drown may not *scream, splash, or struggle*. They can silently slip beneath the water, even with adults & lifeguards present.

Girl Scouts- (Continued from Page 36)

Tackle everything from global warming to election reform. Travel to incredible places. Teach a girl how to build a robot, butterfly or rain garden. Share your personal passions and create experiences together you'll never forget. Whether you choose to directly or indirectly work with girls, short-term or long-term, GSSJC will provide the support, guidance and tools you need to be successful.

Girl Scouts is for every girl, everywhere. It's also for adults – caring individuals willing to share their time and talents to help girls explore their interests and achieve their potential. If you can think it, you can share it!

For more information on how you can make a difference, call 713-292-0300 or 1-800-392-4340, or visit www.gssjc.org/volunteer.cfm.

Girl Scouts of the USA is the world's preeminent organization for girls, with a membership of more than 3.7 million girls and adults. Girl Scouting builds girls of courage, confidence, and character, who make the world a better place. Chartered by GSUSA to provide Girl Scouting locally, Girl Scouts of San Jacinto Council is one of the largest Girl Scout councils in the country serving more than 76,000 girls served and nearly 18,000 adult members in 26 southeast Texas counties. Girl Scouts motivates and teaches girls that if they can think it, they can do it. No challenge is too big! While membership

dues are only \$12 a year, the rewards girls, their families and their communities reap are invaluable.

Girl Scouts of San Jacinto Council Copper Corners Service Unit is forming now. If you or your troop is interested in coordinating Father Daughter, Daisy Day or Brownie Day or annual recruitment events at your school events, please call or email melinda.riso@yahoo.com. Copper Corners serves all girls in the residence areas for Lowery, Birkes, Fiest Elementary Schools, Aragon and Labay Middle Schools and corresponding high schools. Your Fairfield Village 2011/2012 Maintenance Assessment is Due

Dear Residents,

The FFV 2011/2012 assessment fee is now past due. Although there is not a late charge penalty there are finance charges incurred, 10% per annum on the unpaid balance. Please get this taken care of if you have not done so already. Your Association does not wish for residents to incur expensive legal charges for collection. There were some returns on statements mailed - it is the homeowner's responsibility to provide us with an alternate billing address if they are leasing their Fairfield property.

If you need assistance please contact our office at 713-932-1122.

COYOTE ALERT

Please be advised that a coyote was observed recently in Fairfield Village. It is important to protect small pets - coyotes are native to the area and typically hunt at night for rabbits, mice etc. Please be sure to keep garbage secure so as to not provide a food source.

THE ROOT OF THE MATTER

It May Not Be Too Late To Save Your Trees

It's not fall, folks. The out-of-season brown in tree canopies is drought damage.

Even worse: Experts say without relief, this is just the beginning. We need substantial rains to avoid losing millions of trees in the next few years — if not from sheer thirst, from opportunistic killers such as disease and insects.

"Lack of rain, plus wind and extreme temperatures contribute to tree stress," said Jack Swayze, a district manager with Davey Tree Expert Co. "Secondary problems then set in."

Accumulated damage from the worst drought in our area's history will be seen in the next five to 10 years, reducing the environmental benefit of the tree canopy, not to mention the beauty of healthy trees, he said.

The thought is distressing, but with careful watering, we can help. Young trees with limited root systems are especially vulnerable. They dry quickly. Trees with roots squeezed between the sidewalk and street also have limited water supplies. But given the extreme conditions, even big trees need weekly soakings at least 18 inches deep. A watering schedule that maintains a lawn in a drought won't adequately maintain trees, foresters say.

Drought symptoms vary among tree species. Yellowing leaves and leaf drop throughout the crown may be the first clues. As damage worsens, leaves die from the bottom of the tree upward and from the inside of the canopy outward. In some cases, leaves simply wilt or turn brown along their edges.

When roots can't supply adequate moisture and nutrients to the crown, a tree often dies back to create a better balance between roots and crown.

Water slowly and deeply to avoid runoff and evaporation. How much depends on the tree:

Give a small, 1-year-old tree 28 gallons of water a week, a 2-year-old tree 56 gallons a week, and a 3-year-old about 112 gallons a week.

For larger trees, it's easier to use the general formula of 10 gallons per inch of trunk diameter (measured at knee height) each week during drought.

"Older, established trees have more extensive root systems, but still might not find enough water in the soil during a drought to stay in good health," said Mickey Merritt of the Texas Forest Service.

The key, he said, is a long, slow soaking, so water can penetrate deeply into the root zone. Options include:

- Turn the hose on at a trickle, and let water soak into the ground under the drip line or canopy until that area is saturated about 18 inches deep. After about two hours, move the hose to another area and repeat.
- Coil a soaker hose around the tree, as near the drip line as possible. Let it run several hours to slowly soak the soil.
- Poke three small holes in the bottom of 5-gallon buckets and place them beneath trees, then fill the buckets so the water slowly seeps into the soil.
- Purchase slow-release systems such as Ooze Tube and Treegator, which Merritt said are beneficial in watering young trees.

If watering is only possible with an irrigation system, Swayze recommends running a second cycle so water can percolate deeper into the soil.

COSTLY OPTIONS

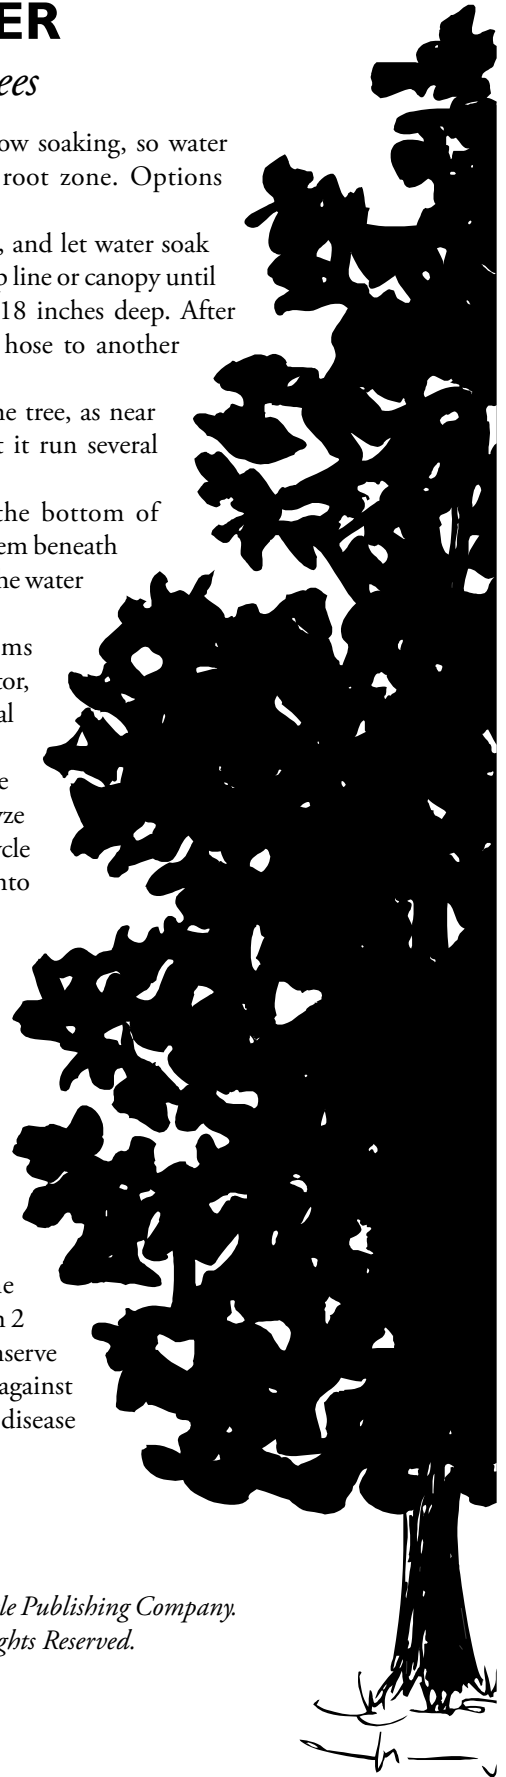

It may take several hours to water a large tree, Merritt said. But a slow soak reduces runoff and evaporation. Though water bills may run high, the cost of removing a large dead tree can run hundreds of dollars.

You can also help trees by removing weeds and grass that compete for water beneath the canopies. Replacing the grass with 2 to 3 inches of mulch will help conserve soil moisture. Don't pile mulch against tree trunks, which encourages disease and pest problems.

You CAN Make a Difference!

*Be Part of the "Bus Buddies Volunteer Program"
In Our Cypress-Fairbanks ISD Schools*

WHAT IS BUS BUDDIES?

Bus Buddies is a partnership between the Cy-Fair community and Cypress-Fairbanks Independent School District to provide assistance to elementary students helping them get off the bus at the correct location. The program requires one "Bus Buddy" per elementary bus the first three days of school. The approximate time commitment is from 2:45 p.m. – 4:45 p.m. on August 22, August 23 and August 24. Your job is to simply assist the bus driver with making sure the children get off the bus at their correct stops.

WHAT IS REQUIRED?

- (1) Attend one of the training sessions, if not previously trained.
- (2) Arrive and sign in at your assigned school where campus staff will assist you.
- (3) Enjoy helping the kids and driver!

WHEN AND WHERE IS TRAINING?

Training Sessions will be held at The Berry Center, 8877 Barker Cypress Rd., Cypress, TX.

Training dates: Monday, Aug.15 (9:30 – 10:30 a.m.); Tuesday, Aug.16 (6:30 – 7:30p.m.) and Thursday, Aug.18 (7:30 – 8:30 a.m.).

The Partners in Education (PIE) department is looking for the same strong Bus Buddy support we have enjoyed the past. Making sure that all of our elementary children get off the bus at the correct stop is a very big task. It requires 400+ volunteers in the Cy-Fair community to ride buses to assist the nearly 9000 riders and their drivers.

INTERESTED?

Volunteers can RSVP and register for a training session by visiting <http://www.cfisd.net> and selecting "Bus Buddies". For additional information about the program, please contact the CFISD Partners in Education Department at 281-894-3949.

Going 100 Percent Organic Not Feasible?

The Environmental Working Group (EWG), a non-profit organization specializing in research and advocacy related to public health and the environment, has released its 2011 updated “Dirty Dozen” list of the 12 fruits and vegetables containing the most pesticides. Topping this year’s list? Apples. This begs the question, “Can eating an apple a day really keep the doctor away?”

The answer may lie in where you get your apples. Although the EWG’s ranking was cited as an overestimate of the risk by the Alliance for Food & Farming, a non-profit organization with the stated mission of providing a voice for farmers to communicate their commitment to food safety, consuming organically grown products can reduce the amount of pesticides that enter your body. According to the World Health Organization (WHO), long-term exposure to pesticides can lead to death or serious illness, including developmental and reproductive disorders, impaired nervous system function, and certain cancers. Further, the WHO has found children to be at higher risk from exposure than adults.

However, organically grown products are typically more expensive than conventionally grown products, and some organic products may be difficult to find in some areas. If growing your own fruits and vegetables is not an option, and purchasing 100 percent of your produce in organic form is monetarily unfeasible, the EWG’s list offers a good starting point for consumers.

According to the EWG’s 2011 report, which is based on its analysis of tests conducted by the U.S. Department of Agriculture (USDA) and the federal Food and Drug Administration (FDA), the following 12 fruits and vegetables (the “Dirty Dozen”) consistently contained the highest amount of pesticides when conventionally grown, and should be consumed in organic form when possible:

- | | |
|--------------------------|----------------------------|
| 1. Apples | 7. Grapes (imported) |
| 2. Celery | 8. Sweet bell peppers |
| 3. Strawberries | 9. Potatoes |
| 4. Peaches | 10. Blueberries (domestic) |
| 5. Spinach | 11. Lettuce |
| 6. Nectarines (imported) | 12. Kale/collard greens |

Alternatively, according to the EWG, the following 15 fruits and vegetables (the “Clean 15”) consistently contained the least amount of pesticides, and by adhering to this list, individuals can get their recommended daily allowance of fruits and vegetables without incurring the expense of buying organic products in order to limit their exposure to pesticides:

- | | | |
|---------------|--------------------------|--------------------|
| 1. Onions | 6. Sweet peas | 11. Cabbage |
| 2. Sweet Corn | 7. Mangoes | 12. Watermelon |
| 3. Pineapples | 8. Eggplant | 13. Sweet potatoes |
| 4. Avocado | 9. Cantaloupe (domestic) | 14. Grapefruit |
| 5. Asparagus | 10. Kiwi | 15. Mushrooms |

Underscoring the importance of the consumption of fruits and vegetables was the release of MyPlate, also in June, replacing the classic food pyramid. The USDA’s new food icon is a simple, visual cue that advises individuals to “make half your plate fruits and vegetables,” graphically shrinking the role of meats and dairy products in the national diet.

Every creature needs to rest. Giraffes, little babies, elephants, dogs, cats, kids, koala bears, grandparents, moms, dads, and hippos in the jungle — they all sleep! Just like eating, sleep is necessary for survival.

Sleep gives your body a rest and allows it to prepare for the next day. It's like giving your body a mini-vacation. Sleep also gives your brain a chance to sort things out. Scientists aren't exactly sure what kinds of organizing your brain does while you sleep, but they think that sleep might be the time when the brain sorts and stores information, replaces chemicals, and solves problems.

The amount of sleep a person needs depends a lot on his or her age. Babies sleep a lot — about 14 to 15 hours a day! But many older people only need about 7 or 8 hours of sleep each night. Most kids between the ages of 5 and 12 years old are somewhere in between, needing 10 to 11 hours of sleep. Some kids might need more and some need less. It depends on the kid.

Skipping 1 night's sleep makes a person cranky and clumsy. After missing 2 nights of sleep, a person will have problems thinking and doing things; his or her brain and body can't do their normal tasks nearly as well. After 5 nights without sleep, a person will hallucinate (this means seeing things that aren't actually there). Eventually, it becomes impossible for the brain to give its directions to the rest of the body without sleep — the brain needs to spend time in bed and catch its ZZZs!
