SATURDAY
AUGUST 20TH
8:00 AM - NOON

It is very important to recycle in the community because we need to maintain a healthy environment by reusing goods rather than wasting precious natural resources. Burning garbage or throwing waste into landfills produces byproducts that pollute the environment. Runoff from the landfills and metals like mercury find their way into streams, rivers, oceans, and fish which eventually are consumed and can harm our health. Also, you are saving huge amounts of money each year by recycling paper, cans, electronics, and batteries.

LOE COMMUNITY SERVICE DAY

While you are recycling your old items, the Social Committee is sponsoring a LOE Community Service Day. We invite everyone to please come inside and meet your AMI community representatives and LOE Board Members. We will have information on the LOE website, LOE vehicle stickers, and gate remotes available for purchase. Hope to see you there! LOE also has many clubs and activities such as the Tennis Club, Stitchers, Bible Study, Bunko, Pet Safety, Swim Team, Book Club, MotherWise, Wildlife Committee, and Yoga, to mention a few. We will also have representatives of each group so you can explore how you can meet your neighbors and have a whole lot of fun in the process.

Lakes on Eldridge Dolphins Win Divisionals!

Another great season was capped in GRAND style by a WIN in the Divisionals! It was a tight contest between the four top teams all day long, but the LOE Dolphins swam their fastest and finest races over and over again, and kept the pressure on to push ahead during the final relays and win by 2½ points! Kudos to all Dolphin swimmers, our great coaches and the parent volunteers who made it a fun and rewarding day. For those team members unable to attend, we recognize your contribution to the team's success all season long.

Speaking of that, end of the season congratulations go to all the children in the team, who put their best effort for themselves and for the team. And many thanks to our wonderful, dedicated coaches that helped them excel, and to all the Chair position volunteers and all parents who made it all happen. We will need you again next year! We thank also the outgoing Board and welcome the new Board for 2011, who are working to renew next year the great successes of this year!

But why wait until next spring to swim again? LOEST is offering at the LOE pool its yearly FALL SWIM PROGRAM, available to all Swim Team members and other interested residents who want to maintain physical conditioning and develop their swim strokes. Practices will be led by Coach Meagan, and will take place Mondays, Wednesdays and Thursdays from August 22 to October 27 at the following times:

4:40pm to 5:25pm
8 and Under

5:30pm to 6:30pm
9 and Up

ANN KNOCHE

2011 FIVE STAR REAL ESTATE AGENTSM

As seen in the June 2011 issue of Texas Monthly Magazine

The Selection Process

Recipients were asked to evaluate only real estate agents whom they know through personal experience. They were asked to evaluate them based upon nine criteria.

- Customer Service
- Communication
- Finding the Right Home
- Integrity
- Negotiation
- Marketing the Home
- Market Knowledge
- Closing Preparation
- Overall Satisfaction

Candidates chosen by past clients and reviewed by a panel of industry experts. Winners represent less than 2% of licensed agents in the Houston region.

Choose a PROVEN Winner . . .

TIMELY TIPS FOR AUGUST GARDENERS

From Cornelius Nursery

Many gardeners are looking for ways to get the most out of gardening and landscape enjoyment while preserving and protecting our environment. Using an organic approach is simply working with Nature to improve the health of the soil. Healthy soil produces healthy plants; healthy plants produce healthy animals and people!

It all begins with the soil. Organic matter is important to the soil composition. It aids with drainage and helps increase the soil microbe population. Expanded shale is also used to break up hard, compacted clay soils. Organic Fertilizer contains seven food-grade meals and can be applied to your lawn and other plantings. Top dress your flowerbeds and containers with organic mulches. They not only break down slowly putting organic material back into the soil but, they also prevent weeds, conserve moisture and cool the soil during our hot Texas Summers.

For organic solutions, help keep harmful pests in control by using these products. Diatomaceous Earth (D.E.) is a finely ground powder containing skeletal remains of microscopic organisms. D.E. is a natural control for chinch bugs, fire ants, fleas, roaches, slugs, snails and silverfish. Bacillus thuringiensis (Bt) is a beneficial bacterium used to kill cabbage loopers and other caterpillars. Neem oil is an organic pest control solution which will not harm beneficial insects such as bees and ladybugs. Your vegetable garden and fruit trees can be sprayed right up until the day of harvest. These are all products which are safe to use around pets and children.

Visit www.calloways.com/cornelius for more gardening tips, information and to become a member of our Garden Club! Also, stop by any of our garden centers and visit with a Texas Certified Nursery Professional. Success in the garden is made fun and easy at Cornelius Nursery!

Book Club

We have a good mix of topics in the books coming up. Some are best sellers, others classics that have been around for a while.

Book Club tries to cover a wide variety of topics so we each get out of our comfort zone and read something different. Each book is available through the Harris County Library. Consider joining us to discuss them! We meet on the 4th Monday of each month at a member's home. Call Celeste at 713-896-6942 for location or additional information. Also, if you have a book recommendation please drop her a note at celeste.fritz@gmail.com

UPCOMING BOOKS:

August 22 - Sharp Objects, by Gillian Flynn. WICKED above her hipbone, GIRL across her heart. Words are like a road map to reporter Camille Preaker's troubled past. Fresh from a brief stay at a psych hospital, Camille's first assignment from the second-rate daily paper where she works brings her reluctantly back to her hometown to cover the murders of two preteen girls. NASTY on her kneecap, BABYDOLL on her leg. Since she left town eight years ago, Camille has hardly spoken to her neurotic, hypochondriac mother or to the half-sister she barely knows: a beautiful thirteen-year-old with an eerie grip on the town. Now, installed again in her family's Victorian mansion, Camille is haunted by the childhood tragedy she has spent her whole life trying to cut from her memory. HARMFUL on her wrist, WHORE on her ankle. As Camille works to uncover the truth about these violent crimes, she finds herself identifying with the young victims—a bit too strongly. Clues keep leading to dead ends, forcing Camille to unravel the psychological puzzle of her own past to get at the story. Dogged by her own demons, Camille will have to confront what happened to her years before if she wants to survive this homecoming.

September 26 - Jacques Cousteau: The Sea King, by Brad Matsen. An unprecedented and masterfully told biography of Jacques Cousteau that reveals for the first time the fascinating and compelling individual behind this famous television personality. Inventor of the aqualung and fearless scuba diver, Jacques Cousteau opened up the ocean to a mass audience for the first time. Here, with the cooperation of many of the subject's closest confidants and family, Brad Matsen makes clear the full picture of his remarkable life, showing the father, military man, inventor, entrepreneur, and adventurer behind the public face. Vividly conveying the people, the science, and the lure of the sea that shaped Cousteau's life, Matsen paints a luminous portrait of a man who profoundly changed the

Yoga Practice

After a long day, come stretch and unwind with some gentle yoga. No experience or flexibility needed except for a willing heart and open mind, and it is open to all residents free of charge. Wear comfortable clothing and bring a mat (borrowing mats are available at the class).

In August and September, meetings will be at 7:30 pm in the Lakes on Eldridge Club House unless otherwise noted, on the following days: 2nd, 9th, 11th, 18th, 23rd (by the pool weather permitting), 25th, and 30th of August; 8th, 12th, 19th (by the pool weather permitting), 21st, and 26th (by the pool weather permitting) of September.

Lawn, Shrub, and Tree Care

Besides making you feel proud, keeping your lawns and beds in good condition is also your responsibility as a Lakes on Eldridge homeowner, in accordance with our deed restrictions. So, keep your yards looking their best by following these suggestions!

ST.AUGUSTINE GRASS

- Weed Control: Use a fertilizer with pre-emergent control in the early fall around September to prevent clover from coming up. The window of opportunity is very small for this application. If you already have clover, use the post-emergent control 'Weed Stop for Lawns', available at your local garden center in a hose-end sprayer bottle. There are several good products available: just make sure it says "for lawns".
- Fertilizer: Fertilize in the fall and spring with a slow release fertilizer. Always read the warning label carefully and keep fertilizer away from any plants indicated in the label. Keep in mind that organic fertilizers do not contain any weed killers. Know your square footage to purchase the proper amount and distribute in accordance with the instructions.
- Brown Patch is a fungal disease in the soil. There is no way to eradicate it, but you can take measures to control it. In early spring when we have cooler nights and warm muggy days, it is important not to over-irrigate. Treat brown patch with a granular or liquid fungicide to prevent the spread. You may have to treat more than once as rain is always a factor to restart the spread.

SHRUBS AND BEDS

- Weed Control: The most effective approach to prevent seeds from germinating is to apply a pre-emergent control and a 2 to 3-inch layer of mulch (non-colored pine bark mulch is the approved mulch in LOE). Weeds grow year round, and pre-emergent control can be applied at any time. Once you have weeds, the most effective approach is to pull the weeds, being sure to remove the root. Of course there are multiple weed killing products available.
- Pruning: Indian Hawthorne and Dwarf Yaupon are examples of common shrubs with naturally rounded forms and require minimal pruning as long as light pruning following the natural shape is performed regularly. If you have an overgrown or irregular shrub, wait until April or until after the first bloom and cut back as needed. Spring is the best time of the year to perform a severe pruning as the plant is able to recover quickly with a spring flush of new growth.
- Mulching: The benefit of mulch in preventing growth of weeds has already been discussed. The most important role of mulch, however, is to keep moisture in the soil. Beds should have a minimum 2-inch layer of mulch.

ANT CONTROL

There are many chemical ant treatments on the market that can be broadcast over the lawn to prevent ants from establishing a colony in your yard and can be spread over

mounds to kill existing colonies. There are some organic approaches to killing ants if you prefer not to use chemicals. Perhaps the most effective of these is to place a capful of orange oil (such as Orange Guard Fire Ant Killer) on the mound.

TREES

- Fertilization: January and February are the best times to deep root fertilize with tree spikes or liquid feed. The easiest time to perform this task is when the soil is saturated after a rainfall. Either type of application should be made around the drip line of the tree (where the tips of the outer most branches are located). A general rule is to use 1 fertilizer spike for each inch of trunk diameter. Tree spikes from typically come in a pack of 12 or 15.
- Suckers and deadwood: If your trees are producing suckers along the trunk, remove them. This is a sign of stress! Limb up your trees to expose their trunk, so people can walk under them and cars can drive by without hitting them. Always remove deadwood when the trees are small by making the cut in the healthy wood above the branch that has died.

Avoiding Pesticides in Fruits and Vegetables

The Environmental Working Group (EWG), a non-profit organization specializing in research and advocacy related to public health and the environment, has released its 2011 updated “Dirty Dozen” list of the 12 fruits and vegetables containing the most pesticides. Topping this year’s list? Apples. This begs the question, “Can eating an apple a day really keep the doctor away?”

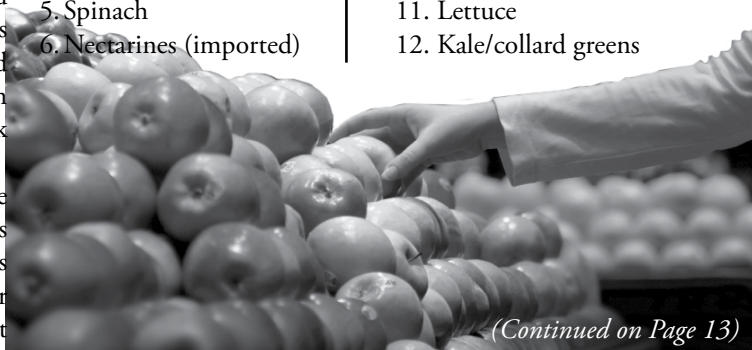

The answer may lie in where you get your apples. Although the EWG’s ranking was cited as an overestimate of the risk by the Alliance for Food & Farming, a non-profit organization with the stated mission of providing a voice for farmers to communicate their commitment to food safety, consuming organically grown products can reduce the amount of pesticides that enter your body. According to the World Health Organization (WHO), long-term exposure to pesticides can lead to death or serious illness, including developmental and reproductive disorders, impaired nervous system function, and certain cancers. Further, the WHO has found children to be at higher risk from exposure than adults.

However, organically grown products are typically more expensive than conventionally grown products, and some organic products may be difficult to find in some areas. If growing your own fruits and vegetables is not an option, and purchasing 100 percent of your produce in organic form is monetarily unfeasible, the EWG’s list

offers a good starting point for consumers.

According to the EWG’s 2011 report, which is based on its analysis of tests conducted by the U.S. Department of Agriculture (USDA) and the federal Food and Drug Administration (FDA), the following 12 fruits and vegetables (the “Dirty Dozen”) consistently contained the highest amount of pesticides when conventionally grown, and should be consumed in organic form when possible:

- | | |
|--------------------------|----------------------------|
| 1. Apples | 7. Grapes (imported) |
| 2. Celery | 8. Sweet bell peppers |
| 3. Strawberries | 9. Potatoes |
| 4. Peaches | 10. Blueberries (domestic) |
| 5. Spinach | 11. Lettuce |
| 6. Nectarines (imported) | 12. Kale/collard greens |

(Continued on Page 13)

COLIN'S HOPE

Increasing water safety awareness and standards

FACTS YOU NEED TO KNOW ABOUT DROWNING

DROWNING ALERT!!!

TEXAS has more drownings than any other state so far this year and we still have a long HOT summer ahead of us. Please be safe in and around the water.

Source: U.S. Consumer Product Safety Commission's Pool Safety Campaign www.poolsafely.gov

For more information,
check out our website at

www.colinshope.org

**DROWNING CAN STILL OCCUR
EVEN IF YOU KNOW HOW TO SWIM**

Download a
QRcode App
on your phone
& scan me!

NO ONE is “drown proof” – no matter their level of swimming ability.

Falls, entrapments, and injuries lead to drowning regardless of swimming level.

DROWNING IS QUICK AND SILENT

Drowning can occur in less than 2 minutes.

Irreversible brain damage can occur in 4 minutes or less.

Most children are out of sight or missing for less than 5 minutes and usually in the presence of 1 or both parents.

Most children die who are submerged for as little as 6-10 minutes.

Children who drown may not *scream, splash, or struggle*. They can silently slip beneath the water, even with adults & lifeguards present.

Going 100 Percent Organic... - (Continued from Page 12)

Alternatively, according to the EWG, the following 15 fruits and vegetables (the "Clean 15") consistently contained the least amount of pesticides, and by adhering to this list, individuals can get their recommended daily allowance of fruits and vegetables without incurring the expense of buying organic products in order to limit their exposure to pesticides:

- | | |
|---------------|--------------------------|
| 1. Onions | 6. Sweet peas |
| 2. Sweet Corn | 7. Mangoes |
| 3. Pineapples | 8. Eggplant |
| 4. Avocado | 9. Cantaloupe (domestic) |
| 5. Asparagus | 10. Kiwi |

Underscoring the importance of the consumption of fruits and vegetables was the release of MyPlate, also in June, replacing the classic food pyramid. The USDA's new food icon is a simple, visual cue that advises individuals to "make half your plate fruits and vegetables," graphically shrinking the role of meats and dairy products in the national diet.

More information on the EWG, as well as the full list of fruits and vegetables ranked, can be found at <http://www.ewg.org>. More information on the Alliance for Food and Farming can be found at <http://www.foodandfarming.info>. To learn more about the USDA's MyPlate, visit <http://www.choosemyplate.gov>, and to discover more about the WHO, visit <http://www.who.int/en>.

Lakes on Eldridge

NOTES FROM THE JUNE BOARD MEETING

DIRECTORS PRESENT

Bronson Clay, President
Carlton Thorpe, Vice President
Cory Hammond, Treasurer
David King, Director
Heather Von Sternberg, Secretary

IN ATTENDANCE

One homeowner, Paul Marks with Water Logic, and Richard Lowstetter representing the managing agent, Association Management, Inc.

HOMEOWNER FORUM

The Board met in Executive Session with the homeowner, who was appealing a Board decision requesting the removal of the artificial turf on his lawn.

FINANCIAL REPORT

Financial Statements:

The Board reviewed the financial statements for the month ending May 31, 2011. The Association had a balance of \$555,480.29 in the Operating Fund and \$416,901.95 in the Replacement Fund. The Fund Balance for the year showed that income had exceeded expenses by \$51,745.71. The financials were accepted.

Accounts Receivable:

The Board reviewed the Accounts Receivable report and instructed the managing agent to proceed with the collection of the outstanding monies in

accordance with the established policy. The Accounts Receivable report was accepted. As of June 21, 2011 there were 39 homes that owed the association money.

Cash Flow Report:

The Managing Agent advised the board that as of June 21, 2011 the association had \$531,859.04 in the operating account and \$416,901.95 in the Reserve Account, giving a total of \$948,760.99.

ADMINISTRATION

Swim Team:

The Board held a lengthy discussion on the proposal made by the Swim Team to use the pool. On a motion duly made and seconded the Board voted to accept this proposal.

PHYSICAL PROPERTY

One-Liner Report:

The Board was given the one-liner report for June.

Citations Report:

The managing agent gave the Board a copy of the latest Citation Report for their review.

Sprinklers:

Paul Marks with Water Logic reviewed with the Board their analysis of the sprinkler system. Their report showed what rotors needed to be replaced and where electrical work needed to be done. The Board voted to allow Water Logic to repair the system at a

cost of \$4,700.00. Paul Marks also reviewed with the Board their satellite controlled system. After a long question and answer Period, the Board asked Paul to make arrangements to discuss this proposal with the MUD district, and tabled any further discussion to a future meeting.

Trees:

The Board held a long discussion on the condition of the trees on HOA property. It was decided to have a tree company give a proposal for removal of all sick or dead trees, and then a decision would be made as to what to do.

Artificial Turf

The Board came out of Executive Session and voted to allow the homeowner to keep the Artificial Turf in the back yard, but to have it replaced with St Augustine grass in the front and side yards. Realizing that Houston is in a severe drought condition, the Board voted to give the homeowner until October 31, 2011 to have this completed.

ADDITIONAL BUSINESS

There was no additional business.

SCHEDULE NEXT MEETING

The next regular meeting of the Board of Directors is to be held on July 19, 2011 at 6:30p.m.

Make an impact.

I am very pleased with the David Flory Team. They kept me updated and were always courteous. I purchased this house through David Flory in September of 1986 and now he has sold it for me in September of 2009, 23 years later. The first contract came in the day I listed and within a few days I had three contracts. Thanks to David and his team!

AGGIE MOM'S CLUB "HOWDY" PARTY

Tuesday, August 9th, 2011

The Aggie Moms of Northwest Harris County want to extend a big "Howdy" to all the Moms of freshman Aggies and current Aggie students. We invite you to join us for some awesome Aggie fun with other Aggie moms in the NWHC region. Northwest Harris County Aggie Moms is an organization that supports our Aggie students through scholarships and donations to many campus organizations that enrich their experience at Texas A&M University. We also support each other as we share the joys and trials of parenting our Aggies through this important time in their lives.

We welcome you to our "Howdy" party to be held on Tuesday, August 9th, 2011 at 7 pm at the Houston Distributing Company conveniently located near Willowbrook Mall at the corner of 7100 High Life Drive and Cutten Road. The evening will include mixer activities, door prizes, refreshments, and a visit from the Aggie yell leaders! Please check our website at www.nwhcaggie moms.org or contact Judy Thompson at 281-798-4312 for a list of dates and information for upcoming meetings and events.

We look forward to meeting all our Aggie Moms!

**These are just a few of the words
we at Yorkshire live by.**

In the hallways and classrooms of Yorkshire Academy, these words are brought to brilliant life through the actions and achievements of our staff, students and parents. As a result, the students of Yorkshire are filled with a passion for learning and a spirit that embraces the world around them. We invite you to share in their ongoing story by visiting Yorkshire yourself.

Stitch & Chat

Members of Stitch and Chat meet every Thursday from 10 a.m. until 12 noon at the LOE Beach Club House. We knit, crochet, do needle point, embroidery, and counted cross stitch, plus mend items and sew on buttons that we have put off much too long. We make quilts for family members, shawls for cancer patients, and caps for newborn babies. We would love to have you join us for coffee and conversation. We would be happy to help you get started on any project that you have always wanted to do.

You do not have to be a resident of Lakes on Eldridge to join us. For more information contact:

Catherine Spellings
at CTSpellings@
aol.com, or call
713-628-7083
or 713-896-
