# SHEN YUN

ALL-NEW SHOW WITH LIVE ORCHESTRA

MAKE THIS HOLIDAY SEASON UNFORGETTABLE.

“AN EXTRAORDINARY  
EXPERIENCE...”

— *Cate Blanchett*  
Academy Award-winning actress

神  
韻

Shen Yun. For Chinese, the words evoke a sense of wonder, magic, and the divine. To audiences who have seen it, they recall the experience of a lifetime—a moment so powerfully beautiful it touches the soul.

Discover the glory of a fantastically rich culture, that of classical China, brought to life through brilliantly choreographed dance and mesmerizing, all original orchestral compositions. Magnificently costumed dancers—the world’s elite—move in poetic arrangements that evoke pastoral beauty, imperial drama, and the glory of an ancient civilization. This season, discover what art was meant to be. Discover Shen Yun.

## THE NAME “SHEN YUN”

The word “Shen” (神) is a term for “divine” or “divine being,” while “Yun” (韻) refers to the overall manner of a dancer and the meaning behind his or her movements. The two words together tell of the grace, compassion, and sublime beauty of heavenly realms that can be glimpsed in even the subtlest expressions and gestures of our dancers. This is the essence of “Shen Yun.”

## Deer Season is Here

November through December is deer season in Texas. For some outdoor enthusiasts, that means hunting. For many animal and nature lovers, however, it is the best deer-watching season of the year. Late fall is the time of year when bucks have grown their antlers and fawns are on the move with their mothers. It is also the deer-mating season, known as the "rut." During this season deer are most active and more likely to run and bolt, so it is a time of year to use extra caution in areas where deer are present.

Austin is one of very few large cities in Texas where you can still experience urban deer.

Northwest and southwest Austin are home to most of our remaining neighborhood herds. Many area residents enjoy the deer's charismatic presence and quiet beauty. Young parents report finding teachable moments in watching does care for their fawns, while for seniors interaction with the deer can be life affirming. Others simply value the opportunity to observe wildlife living freely as they go about such daily business as walking the dog or driving to work.

DeerAustin is a group of Austin neighbors and animal lovers who are committed to living compatibly with urban wildlife and especially to protecting and preserving Austin's urban deer herds. Visit us at [www.DeerAustin.org](http://www.DeerAustin.org). We are providing the following information that is helpful to keep in mind during deer season:

- Always walk dogs on leashes.
- Observe the speed limit. Be extra cautious when deer or deer crossings signs are present and when driving from dusk to dawn.
- To report an injured deer, call the Game Warden at 389-4848 or Austin 311.
- To report a dead deer for pickup, call Austin 311. Be prepared to give the operator an address or otherwise be able to describe the location of the deer (for example, "Loop 360 just north of Spicewood" or "the intersection of Mesa and Greystone").

If you need additional help – email [admin@DeerAustin.org](mailto:admin@DeerAustin.org).

We hope you enjoy the fall season and the opportunity to interact with deer that is a part of what makes Austin a special place to live. Please take care, enjoy the wildlife, and Keep Austin Deered!

## The Austin Diagnostic Clinic *Offers Important Tips for Flu Season*

Seasonal influenza, commonly called “the flu,” is caused by influenza viruses, which infect the respiratory tract (i.e., the nose, throat, lungs). Unlike other viral respiratory infections, such as the common cold, the flu can cause severe illness and even life-threatening complications in some individuals. In the U.S., approximately five percent to 20 percent of the population gets the flu, and more than 200,000 people are hospitalized from seasonal flu-related complications.

The flu virus spreads through the air when a person who has the virus sneezes, coughs, or speaks. The flu can sometimes be passed on through objects that someone with the virus touched, sneezed, or coughed on. When a healthy person touches these contaminated items and then touches his or her mouth or nose, the virus can enter their system. Flu epidemics often start in schools and then move quickly through the community as students spread the virus to family members and people around them.

The most common symptoms of the flu include fever, cough, sore throat, stuffy or runny nose, body aches, headaches, chills and fatigue. Some individuals also experience vomiting and diarrhea. These symptoms may appear one to four days after a person has been exposed to the virus. The fever and aches usually disappear within a few days, but fatigue, sore throat, cough and other symptoms may

linger for a week or more.

The best way to treat the flu is to get plenty of rest and to continuously drink liquids such as water and other non-caffeinated beverages. Most people who get the flu will get better on their own once the virus has run its course. However, call your doctor if your symptoms worsen, if you are having trouble breathing or if you have another health condition such as diabetes, asthma or heart problems.

**Please Note**—People carrying the virus can be contagious one day before their symptoms appear and about five to seven days after they first get symptoms, so it is possible to pass the flu on before a person knows they are even sick. It is important that children and adults stay home from school or work until their temperature has returned to normal and they are feeling better.

The best way to avoid getting the flu is to have all members of your family over six months in age receive the flu vaccine. The vaccine is designed to protect against the three influenza viruses that research indicates will be most common during the upcoming season. This year’s vaccine will protect against the H3N2, H1N1 and influenza B viruses.

“The most common and proven method of preventing the flu in your household is through annual vaccinations,” said Dr. William Lockett, an internist who will serve ADC’s Westlake location. “During flu

outbreaks, it is always a good idea to wash hands often and thoroughly, and to avoid sharing cups, utensils and towels with others. For those that get the flu, it is an unpleasant experience but one that will pass once the influenza has completed its cycle. Bee Cave Public Library is proud to offer our patrons access to best-selling and classic audiobooks, eBooks, and more available 24/7 from the library's website. Look for the OverDrive logo on our webpage.

"Our patrons have been asking for these formats for some time now," said Library Director Barbara Hathaway, "and we are thrilled to be able to make this service available at last. Our initial subscription to the Central Texas Digital Consortium of OverDrive was made possible by donations from the Friends of the Library and the Rolling Sculpture Car Show." The basic subscription gives Bee Cave patrons access to a shared collection created by a number of local libraries who are part of the consortium. "Our City Council has also made funds available for us to purchase an Advantage Collection, which will contain items only available to patrons of our library," added Hathaway. "As both of these collections grow, more titles and formats will become available, so please let us know what you'd like to see added."

You can browse the collection, check out with your library card, and download to PC, Mac®, and many mobile devices. To get started, you will need to install free software by following links on the OverDrive website:

- For audiobooks, music, and video: OverDrive® Media Console™.
- To read eBooks, you'll need Adobe® Digital Editions.
- Titles can be enjoyed immediately or transferred to a variety of devices, including iPod®, Sony® Reader™, and many others. Some audio titles can also be burned to CD to listen on-the-go. Titles will automatically expire at the end of the lending period. There are no late fees!

With hundreds of popular fiction and non-fiction titles to choose from, the new collection should have something for everyone. You can download best-selling novels, well-known classics, self-improvement guides, and much more. If the item you want is already checked out, you may place a reserve on it, and will receive an email when it's available for download. ## **LTHS GOLF TEAM ANNOUNCES ITS ANNUAL FUNDRAISER THE CAV SCRAMBLE**

The LTHS Golf Team is a team of champions! The Boys Team won its 2nd State Championship in 2011. The Boys have won 11 straight District Championships and have gone to the State Championship 8 of the past 11 years! The Girls also boast an impressive record with a 2nd place finish at the State Championship in 2011 and they have won 9 straight District and 9 straight Regional Championships!

Both teams need your support at their only fundraiser of the year, the Cav Scramble. Your participation in the Cav Scramble is an excellent opportunity to support our dedicated student athlete golfers in their pursuit of another state championship. Funds raised at the Cav Scramble are the only source of revenue to fund the tournament fees, equipment fees, lodging and meals for our student golfers. Continued and consistent participation by our golfers in various golf tournaments competing with other schools and districts prepares them for the competitive level of play at the state championship and at future college events. To make the Cav Scramble a success, we need your participation!

### **DONATE AN ITEM FOR OUR SILENT AUCTION!**

**OR SPONSOR A HOLE:** Sponsorships are \$200 and your company info or information is advertised on one hole the day of the tournament.

## *District Begins November Bond Election Community Presentations*

Lake Travis Independent School District (LTISD) officials have kicked off a series of community presentations to provide voters with information about the November bond election.

In May, a 27-member citizens' advisory committee comprised of men and women representing each elementary and secondary school attendance zone recommended to the LTISD Board of Trustees that a \$158.5 million bond package be brought before District voters. Two weeks later, in a unanimous 7-0 vote, the Board approved an order calling a bond election to be held November 8, 2011.

The 2011 bond program components, as recommended by the advisory committee, include the following:

<b>New Elementary School #6.....</b>	<b>\$25,000,538</b>
<b>New Lake Travis Middle School.....</b>	<b>\$53,729,520</b>
<b>Expansion of Lake Travis HS into</b>	
<b>Current Lake Travis MS Campus.....</b>	<b>\$20,624,740</b>
<b>Expansion of Hudson Bend MS.....</b>	<b>\$22,246,711</b>
<b>Upgrades for Existing Facilities .....</b>	<b>\$20,727,262</b>
<b>District-wide Improvements .....</b>	<b>\$16,126,229</b>
<b>TOTAL BOND PACKAGE .....</b>	<b>\$158,455,000</b>

If approved by voters, the estimated tax increase related to the bond would be \$0.0924 for a total tax rate of \$1.4083 per \$100 of assessed property valuation. The 2011-2012 anticipated average market value of a residence in Lake Travis ISD is approximately \$380,000. After the District's 20% Optional Homestead Exemption and the State's \$15,000 Mandated Exemption, passage of the bond election would represent an increase of approximately \$281.88 annually—or \$23.49 monthly—for the average homeowner. Residents who have received an Over-65 Exemption or 'freeze' from the Travis County Appraisal District will incur no tax impact as a result of the approved bond election.

District officials have scheduled approximately 40 bond presentations to date, including a community meeting scheduled for 6:00 p.m., Wednesday, October 5 at the Lake Travis High School Performing Arts Center. To schedule a meeting for your group, or to obtain additional information on the bond program, please visit the LTISD website at [www.ltisdschools.org](http://www.ltisdschools.org) or contact the LTISD Office of Communications at [2011\\_bond@ltisdschools.org](mailto:2011_bond@ltisdschools.org).

## Travis County Sets Up Reverse 911 for Cell Phones

Travis County Emergency Services is making reverse 911 services available to residents' cell phones. The county already offers this service to residents' landlines. Reverse 911 is used in emergencies where there is a threat to public safety. The message gives warnings and instructions.

People can register their cell phones for up to five geographical locations and if there is an emergency in one of those areas, they will get a call. To find out more info about the program, you can go to <http://www.capcog.org/divisions/homeland-security/ens/>

To register, people are asked to go to the Capital Area Council of Governments' website at <http://wireless.capcog.org>.

## Conserve Water in the Winter *and Save Money Year-Round on Wastewater Fee!!*

WCID 17 will be averaging household water usage during the billing cycle beginning November 8 and ending February 15, 2012 (when outdoor irrigation is usually shut off) to calculate the customer fee for wastewater service to be billed beginning in October, 2012 for the following year. Minimizing your water usage during these months will result in keeping your wastewater bill low.
