It’s the time of the year when we find ourselves setting new goals or “resolutions”. Maybe it’s time to set a new personal goal to become a part of our winning team. Unlock your talents and volunteer your time in our school district. The Cy-Fair VIPS team roster needs you and is never too full!

VIPS (Volunteers in Public Schools) in Cy-Fair ISD center the attention of their service on supporting students and staff and making a significant contribution to the education of children. These dedicated individuals, who give freely of their time and resources, impact the academic and personal development of Cy-Fair ISD students. Cypress-Fairbanks ISD is fortunate to be able to draw from a diversity of skills and knowledge in its community.

The district VIPS Executive Board spearheads the business of the VIPS. This board is comprised of volunteers elected to take on specific responsibilities offering support, guidance, and training to all volunteers in the district. The VIPS Executive Board meets monthly to evaluate and address the needs of the district and distribute information relating to volunteer and community activities and strengthen parental involvement in education.

If you are interested in being involved at Cy-Fair schools as a volunteer and making a difference, or would like more information, please contact Pam Scott, Partners in Education Director at 281-894-3950.

Rosehill Christian School Boys Basketball Team Wins Conroe Covenant Tournament

With the sting of losing in the finals of the Irving Cistercian Tournament still fresh on their minds, the RCS Boys came out strong and defeated #3 ranked Austin Waldorf 47-37 in the title game of the Conroe Covenant tournament.

Keith Self tied for a team high 13 points with John Ogle, going a perfect 5 for 5 from the field including 3 for 3 from three point range. To get to the finals, Ogle led the team in scoring with 25 points in the semi-final match against host Conroe Covenant. It was RCS’s first win against the school in three years.

With a record of 10 wins, 2 losses, #2 ranked RCS is off to their best start in four years after being just one basket away from a TAPPS 3A final four appearance last season. “It is important to these guys,” RCS coach Ed Lamar said. “Hopefully they will look back and say they were part of a special team.”

Lamar added, “I was very proud of how they took the loss two weeks ago in the finals of the Cistercian tournament by two points, and they took that adversity and used it as fuel to prevail this week.”

In a smothering display of defense, the RCS Eagles held Waldorf to just 10 points in the first half, leading 24-10 at the break. Jimmy Courtright led the team with 7 rebounds. In addition to Courtright and Ogle, guard Wayne McCullough was also named to the all tournament team. RCS was the only school with three players selected to the squad. At the Cistercian tournament, Ogle and McCullough were also named to the team after leading the team to the title game.

To get to the finals of the Covenant tournament, RCS defeated Woodlands Prep Academy 63-48 in the first round, and were led the way by Ogle and Courtright contributing 20 points each. In the second round, they routed Calvary Baptist 81-24, after leading 52-14 at the half. RCS was led in rebounding by Jeremy Michel, Ogle and McCullough all chipping in with 8 rebounds.

Currently ranked #2 in the State for TAPPS 3A Schools, prior to defeating the 3rd ranked Austin Waldorf, Rosehill Christian has also defeated #5 ranked Dallas Shelton, followed by a win against SPC division Trinity Valley. Earlier in the season, RCS defeated #4 ranked Northeast Christian. Irving Cistercian is ranked #21 in the large private school category. IT’S OKAY TO SKIP YOUR WORKOUT, IN SOME CASES

Although exercise should be a part of your daily routine, it’s important to know when your body needs a break, according to an expert at Baylor College of Medicine. It’s not ideal to work out when you’re sick because you’re stressing your system out, said Dr. David Green, assistant professor of orthopedic surgery at BCM.

The same thing is true after a recent surgery; your body is trying to recover from the surgery. If you still want to stay active, consider using simple things such as arm bands for gentle exercises, but stay away from heavy aerobic exercises, he said. If you’re experiencing some joint or muscle pain, it’s your body’s way of telling you that you’re overdoing it, so you should back off. Try using a heating pad or taking anti-inflammatory medication to help with the pain, said Green.

In general, be sure to have some type of snack about an hour before a workout; do not try to exercise on an empty stomach. If you’re over the age of 40 and just starting heavy exercise for the first time, be sure to consult with your physician first. Also consult with a physician if you’ve had any respiratory, cardiac or joint issues in the past. Look out for hidden calories in holiday drinks.

While many people think twice before taking a second serving of a delicious holiday dessert, they may not do the same when it comes to that holiday beverage. But liquid calories can quickly add up, said a nutrition expert at Baylor College of Medicine.

SOME TIPS TO REMEMBER INCLUDE:

- Combine alcohol with a diet mixer or low-calorie tonic
- Remember to pace yourself and alternate alcoholic beverages with a glass of water or club soda with lime
- When it comes to popular cocoa and coffee drinks, choose non-fat milk, skip the whipped cream
- Pay attention to portions; different beverages are served in different size glasses and cups so be aware of what you are drinking and how many servings you consume at one time. Remember that after drinking alcohol, the desire for salty foods is also enhanced, said Reeves.

HECTIC HOLIDAYS CAN RAISE SPIRITS OF A CHRONICALLY ILL CHILD

The typical craziness of the holiday season can offer an emotional boost for a chronically ill child. The holidays usually are very hectic, but the benefit of seeing family and friends outweighs the hassles of travel and preparation, said Dr. Ernest Frugé, associate professor of pediatrics at Baylor College of Medicine and director of psychosocial programs at Texas Children’s Cancer Center.

It’s no different for a child in a chronic illness. Planning ahead is the key to travel success, whether it is allowing for extra breaks on a long road trip or reminding older relatives about childproofing needs. Parents should always consult with their child’s physician before the trip, pack all medications in their original prescription containers and bring along a copy of appropriate medical information.

Involving the child in the planning and preparations for trips and gatherings reinforces the importance of reconnecting with family and friends, said Frugé. Keeping children away from the usual holiday traditions because they have been ill would separate them from what is a normal experience for the family, he said.

GET THROUGH MENOPAUSE BY REEVALUATING YOUR HEALTH CARE NEEDS

Menopause is called "the change" for a reason. As hormone levels begin to change, so do health concerns, such as osteoporosis, said experts at Baylor College of Medicine. Decreasing estrogen levels can affect bone mass, making a woman more susceptible to osteoporosis, said Dr. Elizabeth Nelson, associate professor of medicine and director of the Women’s Center for Comprehensive Care at BCM. Osteoporosis is a condition that can develop if bone is not replaced as quickly as it is worn away, leaving behind porous or weak bones.

Many factors can affect this condition such as heredity, age and nutritional intake. Modify your risk factors by limiting alcohol intake and not smoking, which can increase bone loss by 10 percent. Exercising three times a week and increasing calcium and vitamin D intake can also improve bone health. However, since each woman’s health care needs differ as they enter menopause, it is important to talk to a doctor to be sure what course of action will be the most beneficial. Screening for osteoporosis should begin at age 65, but many times women will have a screening done at age 50 to use a baseline for future tests.
The outer coating of enamel on your teeth may be the hardest substance in your body, but if it erodes, there’s no way to get it back. Follow these top ten tips for keeping your enamel — which will help you keep your teeth! Enamel, the outer coating on your teeth, is the hardest substance in your body. But while it’s tougher than bones, enamel has a key weakness: it lacks the ability to regenerate itself as bones do. If you break a bone, it can grow back together. If your enamel wears away, it’s gone and you can’t get it back. Since enamel defends your teeth against cavities, it’s extremely important to take care of this protective layer.

Enamel erosion can occur for a variety of reasons, and the three major categories are diet, health issues and physical wear and tear. Many people are unaware of the effect diet has on enamel. Acid sources like carbonated drinks and citrus drinks, when consumed with regularity, can have a serious effect on your enamel. Health issues including dry mouth, acid reflux disease, gastrointestinal problems and bulimia can also lead to enamel erosion. Wear and tear includes friction from your teeth rubbing against each other, fractures due to stress on the teeth, and damage from outside sources, such as brushing your teeth too vigorously or chewing on hard objects. Watch your diet

- **1** - Drink fewer carbonated drinks like soda pop and citrus drinks like grapefruit juice, or eliminate them altogether.
- **2** - If you do occasionally indulge in these types of beverages, drink them through a straw, so the liquid goes straight to the back of your mouth instead of surrounding your teeth.
- **3** - Rinse your mouth with water after eating or drinking.
- **4** - Chew sugar-free gum to increase saliva, which helps clean your teeth.

**ADDRESS HEALTH ISSUES**

- **5** - If you experience dry mouth, let us know; your dentist can help you with this condition.
- **6** - If you suffer from acid reflux, gastrointestinal problems, or bulimia, talk to your family doctor to address the issue; each of these conditions affects more than just your teeth.

**BE GENTLE WITH YOUR TEETH**

- **7** - Always avoid biting pens and other hard objects, and use your teeth for chewing food only – not as tools to open containers.
- **8** - If you are a habitual tooth-grinder, your dentist can help you address the habit.

**STAY ON TOP OF ORAL HYGIENE**

- **9** - Brush with fluoride toothpaste to strengthen your teeth.
- **10** - Keep up with your regular oral care, including brushing and flossing daily and getting professional cleanings every six months.
