SAFETY CORNER

TIP OF THE MONTH

Summer is upon us. Kids are out of school, neighbors are on vacation. From a security and safety point of view...the time is ripe for mischief! What should you do?

- Keep a watchful eye on foot traffic through our neighborhood and report anything suspicious to 713-221-6000.
- Going on vacation: Make sure your house doesn't look abandoned and available for mischief. Use an adjusting light-timer for indoor lighting. Ask a trusted neighbor to collect your mail and newspaper.
- Going on vacation: Send your vacation watch form in to HCSO – it's located in the newsletter and on the www.Steeplechasetx.com website!
- Spring/Summer yard clean-up: Trim those bushes and light-up the outside of your home.
- Make sure your house number is clearly visible from the street – in the event of an emergency, that number is a lifesaver.
- Park your vehicle in your garage. If you don't or can't, remove anything you value and make sure windows are rolled-up, vehicle is locked and alarm is on.
- Keep outside lights on at night and install additional motion sensor lights.
- Know your kids friends. Who are they? Where do they live? Who are their parents?
- Sit in front of your home in the evenings and catch-up with your neighbors. Strengthen your ties and build your friendships!

Online Service Option For Citizens Reporting Crimes

The Sheriff's Office has implemented an on-line service called "CopLogic" for Harris County citizens to report crimes. THIS IS FOR REPORTING LOST PROPERTY, THEFT OR VANDALISM ONLY AND WHEN THE COMPLAINT NO SUSPECT INFORMATION. This service is provided as an option to the citizen in lieu of waiting for a unit to respond to their location and response can sometimes take several weeks.

Examples of incidents that can be reported via CopLogic:

1. LOST PROPERTY: When property is missing or lost, i.e. leaving items in a restaurant or missing from home.
2. THEFT: Property is taken without the owner's permission.
3. VANDALISM: The act of changing, modifying or defacing public or private property, i.e. graffiti, knocking over a mailbox, throwing a rock through a window, etc.

To access this service, please visit the Sheriff's Office web site: www.hcso.hctx.net. Click on "Report Crime" link at top of screen. Click on "Report an Incident." Follow instructions on the screen for filing an offense report.

CopLogic is an alternative method for the citizen to report the crime quickly, get a case number and print a copy of the report. It does not replace entering a call for service for a unit to respond if the citizen prefers to see a unit or does not have access to the Internet.

Tech-Etiquette: Is there an App for Civility?

Submitted by Darcy Folsom

In today's age of apps and gadgets, it's likely that you or someone you know has benefitted handily from the ubiquitous smartphone in today's digitally-dependent society. If the question were posed to our current generation, "What item would you never want to be without?" it is fair to say that most individuals living in 21st century America would answer: "My phone!" Without our phones, it is certain that many of us would be lost. We would be unable to text, tweet, phone, email, face time, and even friend or like another individual. Would we really? Is American society becoming so dependent upon these technological devices that we are challenged to even recognize our our humanity within? How many young men and women know the value of the age-old adage "Never leave home without a smile?" Is who we were created to be, in such competition with what we hold in our hand, that we have forgotten the simple value of kindness - shared in a smile, of gratification - by greeting another with a genuine handshake? Is it technology that propels our lives, or are we doing our best to prepare our lives to propel the technology that supports them?

Regardless of how many apps and buttons and gadgets, and even insurance, we carry on our smartphones, could it be that we have something even better when it comes to insuring our ability to connect with the people we like? Or to be-Friend those to whom we're attracted, or bring restitution to those un-Friended? Today's digitally-dependent generation has a challenge before them that

none before have known. That is, being able to successfully pair technology with common courtesy. Remembering what our grandmothers taught us about the civilities of life (carried in our hip pockets) may apply more today, than any app could ever provide. But pairing the art of civility with the current age of technology requires practice. The 21st century can only get better as those old-fashioned manners make their way from our pockets to the person next to us. After all, the words we speak are far more significant than the technology that transmits them. Why not polish a few points of etiquette this summer and complement your savvy skills on your smartphone? By doing so, you and your smartphone may just move from merely getting the message delivered, to doing so with principles that shape our character and improve our attitudes about both our electronic devices, and the lives of those who use them.

TIP #1 - When you take a call in the presence of another person, you are communicating, "You are secondary; the caller is more important than you are." If you are expecting a call, let your companion know in advance, and excuse yourself before taking the call, limiting the call to under one minute. Never use a cell phone on a date, unless there is an emergency.

TIP #2 - If you find it necessary to use your smartphone while driving, make it a habit to get into your car, buckle up, and prepare your hand's free device to activate the call BEFORE starting your engine.

TIP #3 - Allow your personality, not your PDA to impress others. Avoid using novelty

ringtones, and choose the vibrate option as much as possible.

TIP #4 - Remove your earpiece when not on the phone. Always keep your phone in a pocket or a purse, rather than laying it on the table next to you.

TIP #5 - When in a public place, refrain from using your ear buds to listen to your favorite playlist. Instead, be prepared to greet those who are near you, looking oncoming passersby in the eye, with a smile and "Hello!" This is not only courteous, but it is also a way to remain sure about your surroundings.

As you travel to the lake or the seaside with friends, consider the value that a few manners may add to the dynamics of your summer relationships. Ask the question - is there something more fundamental than a fancy app, or gadget insurance to satisfy our lack? What have we already been given as a way to connect with the people we like, and those we want to be-Friend? Rather than search your smartphone for the latest apps, ask your companion's permission to practice with them, as you begin to apply these principles of Tech-Etiquette. These courtesies will both benefit the words we speak and the actions we offer, as we engage those around us with the very acts of courtesy we desire for others to share with us. Practicing the art of civility alongside the technology that propels our lives, I believe we will see our digitally-dependent generation become the one to re-engage our culture with civility and the accomplished principles of common courtesy.
