

NEWS FOR THE RESIDENTS OF CANYON CREEK

# Canyon Creek CHRONICLE

FEBRUARY 2013

VOLUME 7 ISSUE 2

## AUSTIN NEWCOMERS CLUB

*FEBRUARY ANC  
PUBLICITY INPUT*

.....

Austin Newcomers Club is dedicated to introducing new residents to Austin while extending a hand to make new acquaintances and join fun Interest Groups.

This month our luncheon program will feature James L. Haley, a noted Texas author of nearly twenty books. He'll speak about his newest book, *THE TEXAS SUPREME COURT: A Narrative History, 1836-1986*. One tale from the book:

### **LAW & ORDER COMES TO TEXAS**

During the first court session in East Texas, one feudist who had been hauled in for trial thumped his Bowie knife into the judicial bench and declared, "This, sir, is the law in Shelby County!" Unfazed, Judge Robert M. Williamson leaned back, cocked his pistol, and said, "Well this, sir, is the constitution that overrules your law. Sit down."

What with feudists, Indian raids, Mexican invasions, high water, yellow fever, illiterate clerks, drunken juries, and people who thought they had a God-given right to do whatever they liked, it took a while for law to come to Texas. Come hear how it happened!

The monthly luncheon will be held on Wednesday, February 20 at Green Pastures restaurant, located at 811 West Live Oak in Austin. We get together at around 11:00 a.m. for a social hour with lunch at 12:00 noon. The luncheon is \$20 per person; reservations are required, and payment must be received by Thursday, February 14.

The club website is [www.AustinNewcomers.com](http://www.AustinNewcomers.com) and the telephone number is (512) 314-5100.

## HOW TO EXECUTE THE SERVE

In previous newsletters, I offered tips on how to hit a forehand groundstroke, a two-handed backhand, one-handed backhand, forehand volley, and the two handed backhand volley. In this issue, I will give you instructions on how to execute the serve, considered as the most important stroke, since the player has complete control of the game at this time. In these pictures student Helen Bourgeois demonstrates the proper form and technique. Photos by Charlie Palafox.

**Step 1: Ready Position:** The body is sideways with the right hand holding the end of the racket in a forehand grip position and the left hand is holding the ball under the throat of the racket. The left arm is slightly straight and the ball is held with the thumb, index finger and middle finger. This allows for a consistent toss without using the wrist and/or elbow. Feet are a shoulder width apart and the body is in equal balance. For beginners, it is okay to change the grip slightly toward the forehand grip. As the player gets more advanced, the continental grip will be a better one to give more spin on the ball.

**Step 2: Back Swing:** The left arm comes down and the right arm follows it. It is vital to slow down the motions to allow for both of the arms to have good balance in the front and behind the body. Notice that the hand is in the process of tossing the ball in front

of the body and the left wrist is bent down. It is imperative to have a good consistent toss since it will dictate the success or failure of the serve.

**Step 3: The wind up:** While the ball is in the air, the right arm will bend forcing the head of the racket to pick up speed by going behind the body. Notice the left arm is still up high and the toss is at least four to five inches above the possible point of contact on the sweet spot. The head and eyes are focused on the ball and the body is still turned sideways. Knees are bent to allow maximum explosion of the lower body.

**Step 4: Point of contact:** Once the player is ready to hit the ball, the right arm will force the racket toward the point of contact, while the left hand will come down toward the body. This allows for the "snap" of the wrist to accelerate and bring the ball down. Notice that the point of contact is slightly higher than then center of the racket. Eyes are still focused on the point of the contact and will be ready to look down as soon as the ball leaves the frame. The right hip is extended to allow the body to extend up.

**Step 5: Follow Through:** The racket speed will extend to the left side of the body. The right foot is coming forward and is pointing toward the net. The trunk is straight and eyes are focused on the direction of the ball. At this point the player will take the split step and will jump either behind the base line to rally with the opponent or will move toward the net to serve and volley.

## Heart Healthy Lifestyles

*By: Concentra Urgent Care*

Approximately every 60 seconds, an American will die from a coronary event. According to the American Heart Association (AHA), an estimated 71 million Americans have some form of heart disease, the most common being high blood pressure. And most of these problems are self-created by poor lifestyle choices.

### **WHAT CAN YOU DO TO LIVE HEART HEALTHY? THE AHA RECOMMENDS:**

- Eating a healthy diet
- Lean, skinless meats and poultry
- Fat-free, 1% fat, and low-fat dairy products
- Avoid foods containing partially hydrogenated vegetable oil or added sugars
- Avoid foods high in dietary cholesterol
- Prepare foods without added salt, saturated fat, and trans fat
- Exercising regularly
- 20-to-60 minutes per day, 3-to-5 times per week
- Avoiding tobacco products and tobacco smoke
- Limiting your alcohol intake
  - Women: 1 drink per day (maximum)
  - Men: 2 drinks per day (maximum)

In addition to poor lifestyle choices, heredity plays a factor in

heart disease, too. It is therefore important to know your family history to help identify familial risk factors and help prevent the development of certain familial illnesses.

### **WHAT SHOULD BE INCLUDED IN A FAMILY HISTORY?**

- Any known congenital or hereditary disorders
- Major illnesses
- Chronic ailments or risk factors
- Smoking
- Obesity
- Alcohol problems
- The cause and age of death of any deceased relatives
- Childhood conditions
- Major illnesses
- Vaccinations
- Surgeries
- Treatments, especially those involving radiation

*For more information on living a heart healthy lifestyle, you can contact your health care provider or visit the American Heart Association's Web site at [www.AmericanHeart.org](http://www.AmericanHeart.org).*

# CHEERS for Children

## Wine, Bourbon and Food Tasting

February 23, 2013 | 6:30pm - ?

At Roger Beasley Maserati of Austin  
12925 Pond Springs Road, 78729

*Benefiting Dell Children's Medical Center*

Northwest Austin Circle of Friends presents our 14th Annual CHEERS for Children event benefiting Dell Children's Medical Center of Central Texas. This exciting event, a premier wine, bourbon, and food tasting, will be held Saturday, February 23, 2013. You are invited to join us for an exciting evening filled with premier wines, select bourbons, delicious cuisine from local restaurants, great live music, and a variety of fun and games - all included in the ticket price - as well as live and silent auctions with uniquely tempting items. And, held at a new venue this year, the Roger Beasley Maserati showroom in Northwest Austin is sure to add an extra level of excitement!

All funds raised benefit Dell Children's Medical Center and The Texas Child Study Center Endowment. Additionally, proceeds are 100% matched by a generous donor!

Tickets are available online for a discount until Feb. 21 or can be purchased at the door. For more information go to [DellChildrensCircleofFriends.org](http://DellChildrensCircleofFriends.org) (listed under "upcoming events"). Or contact Karen Peoples, Chairman NWA COF, at [klpeoples@austin.rr.com](mailto:klpeoples@austin.rr.com) or (512) 563-2927.

*The Texas Child Study Center, the mental health program at DCMC, is a collaboration between Dell Children's and The University of Texas which treats children and adolescents with emotional, developmental and behavioral challenges. With your support, this facility will develop disease-specific evaluative and interventional programs to address disorders such as eating and anxiety, as well as attention deficit hyperactivity disorder (ADHD), autism, depression, and other mental health issues.*

## Headaches

*Submitted by Dr. Jeff Echols*

I've been treating headaches for over 25 years and I believe they are very misunderstood by the general public.

It's only human nature to have a reason for why something is occurring, so when people get a headache they usually try to determine the reason for their headache. Some of the reasons I hear are quite amusing. "My husband gives me a headache, ...my boss, ...my kids." "I sit at a computer all day and THAT is the reason I have a headache." Sometimes people think that headaches are just normal and everyone gets them. I can assure you that headaches are not normal. Headaches are a sign that there is something wrong. Just like all symptoms are signs that something is wrong.

Headaches can be caused by a lot of different things. They can be caused by exotic and dangerous things like a brain tumor, but more often they are caused by common things. The most common reason is pressure on the nerves of the neck that radiate back into the head. When the bones of the spine are misaligned it will put pressure on the delicate nerves that exit the spine. This will in turn cause the muscles of the neck and shoulders to become

tight and develop knots in them. You can actually reach up and feel the knots in your muscles. These knots are not normal and are a sign of spinal misalignment and soft tissue damage. Once the spinal misalignments are corrected the muscles relax more and the headaches are gone. Just for fun, I sometimes ask a headache patient when was the last they had a headache, once they have had their spine corrected. They will usually say something like "Gosh I haven't had a headache in months". I will ask them if they got divorced and they will look at me funny and say "NO, why?" You said your husband was the cause of your headaches! "Oh I guess I was wrong!"

So headaches are not normal, but are very common. They're usually caused by nerve pressure built up in the neck which causes tight muscles in the neck and shoulders. They can usually be corrected with gentle chiropractic therapy. You should get this checked even if the headaches are mild because if the bones of the spine are misaligned it will cause arthritic changes to form in the bones of the spine which will limit your ability to move and bend as well as other difficulties. Be proactive about your health.
