FIREFIGHTERS THANK FAIRFIELD FAMILY FOR VEHICLE DONATION

CY-FAIR VOLUNTEER FIRE DEPARTMENT | STATION #7 NEWS

Your Firefighters at Station 7 would like to send out a HUGE Thank You to the Robin and Susan Cox Family of Fairfield for donating a vehicle they no longer used to help make us better. Firefighters were able to use the vehicle as part of a training scenario that simulated a motor vehicle accident with persons trapped. For the scenario it was a family of three (parents and child) who were hit by another vehicle whose driver was distracted (texting/talking while driving).

The vehicle was stabilized to prevent it from moving by placing blocks called "cribbing" underneath. A special blanket was placed over the trapped driver (mannequin) for protection. Another special cover was placed over the steering wheel airbag to prevent it from deploying while the victim was being rescued. The glass was removed from the vehicle with a special saw. Extrication tools known as "The Jaws of Life" were then used to remove the doors, roof, hood, trunk lid as well as push the dash forward. As each victim (mannequin) was

extricated they were prepared for transport to the hospital by ambulance.

The firefighters were able to practice many of the common techniques used to rescue a person(s) trapped as a result of a car crash. Fortunately most accidents with a person trapped do not require all of the techniques listed above but when we are able to have a donated vehicle we like to train for the worst case. The training resulting from the donated vehicle helps us to perform better when the real thing happens. Thanks again Robin

and Susan. I bet you never thought your donation would help so many.

Did you know - fire departments rely on donated vehicles for this type of training? If you have a vehicle you would like to donate to us or questions regarding how to donate please contact our main office at 281-550-6663. Make sure to mention the donation is for Station 7 in Fairfield and if donating a vehicle it will need a clear title. We are a non-profit organization and your donation is tax deductible.

OUR MAY BUS TRIP PLANS ARE FOR: Saturday, May 10, a theater trip to Port Arthur. This month we will be taking a trip to see: "Murder on the Nile". The story line is: Simon Mostyn has recently married Kay Ridgeway, a rich woman, having thrown over his former lover Jacqueline. The couple is on their honeymoon and are at present on a paddle steamer on the Nile. With them are Canon Pennefather, Kay's guardian, and Jacqueline, who has been dogging their footsteps all through the honeymoon. Also on the boat are a rich, ill-tempered old woman with her niece and companion, a rather direct young man, a German who nurses a grudge against Kay's father and Kay's maid. During the voyage Jacqueline works herself into a state of hysteria and shoots at Simon, wounding him in the knee. A few moments later Kay is found shot in her bunk. By the time the boat reaches its destination, Canon Pennefather has laid bare an audacious conspiracy and has made sure the criminals shall not go free. The cost of this trip is just \$11.00 per person plus the cost of your dinner at Floyds Cajun Seafood & Texas Steakhouse. Note: All checks must be received no later than Thursday, April 24th. Cape Canaveral Comes to Cypress?

Wow, a rocket launch! Where, at Cape Canaveral, NASA? No, Cypress! It was conducted by Fountain of Life Church of God's Royal Rangers Outpost 346, the "Shark Patrol" culminating the final step in their quest to earn the Rocketry Badge. For several weeks they learned about the history of rockets, their components and, with the help of their Commanders and adults, assembled their very own model rockets. Each ranger wrote their favorite bible verse on their rockets in anticipation of the day when they would launch it towards heaven.

The day began as the teams arrived at the launch site and quickly began to take their positions. The commander began to assigning tasks as they prepared the launch pad. The recovery and tracking teams gathered together going over last minute details. You could hear the squawking sounds of the two way radios as they were tested before the teams took their respective positions. "Check, check, recovery team to launch team, do you copy?" then came the response, "we copy recovery team".

They moved out, jostling with anticipation of the upcoming launch. The tracking teams, who from their vantage point would follow the trajectory of the rocket to ascertain its altitude, moved into position. Now they were ready to position their tracking instruments, waiting for the radio call from the launch team.

As the launch preparations were being completed one could hear in the background the two way chatter between the recovery team and launch site communication's officer as they reached their position. Meanwhile, the launch team began loading the propellant and connected the ignition apparatus to the engine. We were ready!

The sky was a beautiful blue and the wind was out of the SE at about 20 mph. Tension was building. There was chatter from the communication officer walkie-talkie as he spoke, "teams we are ready for launch". Then the count began "5, 4, 3, 2, 1, 0, lift off!". In a flash the rocket blasted off the pad into the sky above us. Heads turned skyward as we followed the streak of smoke until we could no longer see the rocket. While gazing into the sky one could hear "woooooow", "awesome", "yeah" coming from the crowd as a rush of joy embraced us all. Then, words rang out, "where is it?" "Do you see the chute?" Suddenly a resounding cheer broke out as the parachute deployed and the rocket descends. It was amazing! We were so blessed.

You can watch an amazing video of launch day at: <http://www.fountainoflife-cog.com/>, under Ministries and choose the Royal Rangers link. If you want to know more about the Royal Rangers program you can contact Fountain of Life Church of God at (281) 373-9337.

SAVE WATER

Every Drop Counts!

Spring is here and so is our rainy season. The city of Houston ranks second in the state, after Port Arthur, for total rainfall inches. Out of 48" of rainfall last year, 5.15" fell in May and 5.35" fell in June. With our growing population and limited supply of both groundwater and surface water, we must use water wisely. Rainwater harvesting is an innovative approach anyone can use, and it is good for your landscaping. Rainwater is free of salts and other minerals that harm root growth. It percolates into the soil and forces salts down and away from root zones. This allows roots to grow better and makes plants more drought tolerant. Whether your landscape is large or small, developed or new, now is the time to prepare to catch our rainwater by installing a rainwater harvesting system. Harvesting rainwater saves money on your water bill, reduces demand on the municipal water supply, and reduces flooding and runoff which causes erosion and contamination of surface water. Request a free copy of the *Rainwater Harvesting* brochure, prepared by AgriLIFE EXTENSION at Texas A&M, at our website www.KeepCyfairBeautiful.org.

TENNIS TIPS

By USPTA/PTR Master Professional
Fernando Velasco

The Modern Game: The Top Spin Forehand

In previous newsletters, I offered tips on how to execute the basic strokes for players who are starting to play tennis or who want to get back into the game.

From this newsletter on, I will be offering suggestions on how to play the “modern” game mostly geared towards players who are happy with hitting the ball over the net and controlling the point with consistency. These players may be already playing for leagues or tournaments and are looking for more “weapons” on the court.

In this issue, I will offer instructions on how to execute the Top Spin Forehand. This shot is used when a player is now hitting the ball long and out. The ball will be aimed high over the net and hit with power. The ball will have a “top spin” so that when the ball hits the court, it will take a big hop, forcing the opponent to fall back close to the fence, or to hit the ball on the rise.

In the illustrations, Danny Rodriguez, Director of the Pre-Advanced Tennis Program at the Grey Rock Tennis Club, shows the proper technique to execute this stroke. This shot can also be executed from the service line as an “approach shot” to the net.

Step 1: The Ready Position: When Danny prepares to hit

a forehand top spin, he will change his grip toward the “semi-western” or “full western grip” (The palm of the hand is flat on the handle). His knees are slightly flexed and his eyes are focused on the oncoming ball.

Step 2: The Back Swing: Danny is now ready to perform the shot. The head of the racket is now above his head, his shoulders are turned, the left hand is in front to help him keep the center of gravity in front, and he has loaded his weight to the back foot. His grip is relaxed and his wrist is “laid back” to allow maximum point of contact.

Step 3: The Point of Contact: The success of a top spin shot is keeping the ball on the strings going from low to high in a 30 degree angle. Danny started the swing high and “looped” it to allow the head of the racket to drop down. He will be brushing the ball as he makes contact with it. His left shoulder is almost opening and his weight has now been shifted toward the front.

Step 4: The Follow Through: Notice Danny’s finish above his left ear and his elbow pointing toward his target. He has now shifted his weight on his right foot and is ready to shuffle back to his home base.

Just A Reminder, There Is No Fishing In The Lakes

The On-Site Office received this email from a homeowner: We live in the Lakes section and today my daughter found a group of 3 or 4 young ducklings stumbling and acting strange. She approached them and noticed they were all tangled up in a long fishing line with a bob and a hook still intact. The hook was large and very sharp, and dug deep into one of the ducklings leg/foot. The fishing line was wrapped around several of the ducklings necks. Fortunately, the homeowners were able to unravel the fishing line from the ducklings and all is well.

Brian Roberts for MUD 354

My name is Brian Roberts, and I am running for a director position in Municipal Utility District (MUD) 354 which serves Fairfield. I have been a resident of Fairfield for 14 years, and I have been active in the Fairfield Sports Association (FSA) for nine years as a coach and soccer commissioner. Currently I serve our community as the FSA Chairman. I have also been involved in the Fairfield homeowner's association for the past eight years, and I was proud to be elected as its president in October 2013. My belief is that a representative of any MUD district should be involved and aware of the inner workings of our community in order to make sound business decisions. A vote for me on May 10th at the Bradford Creek Clubhouse would be appreciated, and I will do my best to serve the interests of Fairfield as one of the local MUD directors. Also on the ballot is a Cy-Fair ISD bond issue to add and renovate schools at the Cy-Fair district. Based on recent enrollment projections, this will be a very important bond as explosive growth in our area is predicted over the next 8-10 years. For more information, please contact me at Brian.Roberts53@att.net or via phone at 832.334.1498. Thank you for your consideration.

Cy-Fair Community Group Involved In \$1.2 Billion Bond Election

The Cy-Fair community will have the opportunity to vote for the Cypress Fairbanks Independent School District Bond to help improve major concerns in the school district

"Say YES for CFISD Kids!" kicked off its advocacy campaign on Thursday, March 27 at Lone Star College – Cy-Fair campus. This bond will go to the Cy-Fair community for the vote on May 10, 2014, which was approved by the CFISD Board of Trustees in late February.

The Bond has been approved for \$1.2 billion and will support improvements in four major areas of concern in the Cypress Fairbanks Independent School District. They are as follows:

- Safety and security
- Transportation improvements (including reinstating bus

service within 2 miles of a campus)

- Technology upgrades for entire district
- Planned building for growth of district and remodeling of aged buildings (some over 40 years old)

As an organized group of community members, we are passionate about the success of our students in CFISD and the health of the entire Cy-Fair community. Community residents will only pay about \$5 per month for the opportunity for our school district and kids to have these much needed improvements. Those community members paying taxes to CFISD, who are over 65, will not have an increase in their taxes, as their taxes are frozen at the age of 65.

For more information on the Cy-Fair ISD Bond, contact Leslie Martone at 281-373-1390.

Rosehill Christian School Dedicates New Scoreboard to Dr. Margaret A. White and Dr. James White

Drs. Margaret and James White dedicated their lives to educating young people. They both served in churches and have supported missions in many organizations throughout their lives.

Margaret White spent over 30 years teaching mathematics at all levels. She received her doctorate in math from the University of Houston in 1986. After teaching in elementary and high schools throughout her career, she retired as the Chairman of the Math, Engineering and Technology Department of the College of the Southwest in the Houston Community College System.

Jim White began his ministry as the director of education for Baptist churches in Texas and the Southeast. He received a Masters in Religious Education from Southwestern Baptist Seminary in Fort Worth, a Masters in Educational Administration from the University of North Texas and a doctorate in Administrative Leadership from the University of North Texas. He began working in Christian schools as the headmaster of Second Baptist School in the early 70s. He was the first headmaster of Northwest Academy (now Houston Christian High School) and served as headmaster of Dallas Christian Academy, Brazosport Christian School and Bellaire Christian Academy. He also was a consultant to the founders of Fort Bend Baptist Academy.

In 1991 he met with Dr. Linda Flower and Helen Durham at McDonalds in Tomball to discuss with them how to start a Christian school in the Tomball area from a small kindergarten and first grade program that was then meeting at Girls Country. He assisted with the establishment of Rosehill Christian School by writing the constitution and bylaws, helping to recruit and set up the first board of directors and acting as the first headmaster. At a recent ceremony, the new baseball scoreboard was dedicated to Drs. Margaret and James White in recognition of their devoted service to Rosehill Christian School. Friends and family members came from all around the state to attend in their honor.

KIWANIS CLUB OF CY-FAIR HOUSTON

What is Kiwanis? Here are a few facts about the International and local organizations. Kiwanis clubs, located in 80 nations, help their communities in countless ways. Each community's needs are different—so each Kiwanis club is different. By working together, members achieve what one person cannot accomplish alone. Service is at the heart of every Kiwanis club, no matter where in the world it's located. Members stage nearly 150,000 service projects and raise nearly US\$100 million every year for communities, families and projects.

Kiwanis clubs focus on changing the world by serving children, one child and one community at a time. When you give a child the chance to learn, experience, dream, grow, succeed and thrive, great things happen. To do this, many clubs also sponsor Kiwanis family clubs—K-Kids for primary school children; Builders Clubs for adolescents; Key Clubs for teens; CKI clubs for university students and Aktion Clubs for adults living with disabilities. Through these outreach activities, Kiwanis is able to reach more people and have a greater service impact on their communities.

No two Kiwanis clubs look exactly the same. Each member's and community's needs are different, and each club should look different. Some clubs are very traditional, with weekly meetings and a strong sense of history. Other clubs don't meet at all, and instead hold meetings online

and only come together for service projects. Newer Kiwanis clubs help their communities in countless ways. Service is at the heart of every Kiwanis club, no matter where in the world it's located. Members stage nearly 150,000 service projects and raise nearly US\$100 million every year for communities, families and projects. Kiwanis members don't just do service—they have fun. Members make new friends by being part of a club where they attend meetings and participate in social events. Kiwanis clubs also provide excellent networking opportunities for professionals. Members meet new people from all over their region and the world through service projects, fundraising and by attending district and international conventions.

Houston has several Kiwanis Clubs located throughout the city so that you may find a Club near your home or your place of business. The Cy-Fair Club is located in the Cypress-Fairfield community; however, the membership extends beyond those boundaries. It was founded in 1985 and will celebrate its 29th birthday on May 6 at our regular meeting at the Hearthstone Country Club at 12:15 pm.. You are cordially invited to attend and learn more about the services we render in the community. Lunch will be served. Please call George Crowl at 832-467-1998. Other meetings in May will be held on May 13 and May 20, same time and place. Your visit is always welcome.

A FOCUS ON PHYSICAL ACTIVITY *Pathway to Improved Health*

By Concentra Urgent Care

Being physically active is one of the most important steps you can take to maintain or improve your health. When combined with eating a healthy diet, regular exercise can substantially reduce your risk of chronic disease, prevent weight gain, and improve your overall level of physical and emotional fitness.

HOW MUCH PHYSICAL ACTIVITY DO I NEED?

The U.S. Department of Health & Human Services (HHS) has recently published several recommendations related to exercise:

1. Any physical activity is better than no physical activity
- Includes people with disabilities
 - Far outweighs the possibility of risk of injury or illness
2. Most health benefits occur with at least 150 minutes a week
- Both aerobic and muscle-strengthening are beneficial
3. For most people, additional benefits occur when
- You increase the intensity of your physical activity
 - You increase the frequency of your physical activity
 - You increase the duration of your physical activity

SHOULD OLDER ADULTS EXERCISE, TOO?

The same HHS guidelines apply, but older adults need to make sure that their fitness level and any chronic conditions allow them to safely perform physical activity. For example, if an older adult is at risk of falling, he should do exercises that maintain or improve his balance.

WHAT IF I HAVE A CHRONIC MEDICAL CONDITION?

If you have a chronic medical condition, you should be under the care of a health care provider. It is important to consult your physician about the type and amount of physical activity appropriate for you.

HOW DO I GET STARTED?

The health benefits of physical activity far outweigh the risks and some activity is better than none. Persons who have not been diagnosed with a chronic condition (such as diabetes, heart disease, or osteoarthritis) and do not have symptoms (e.g., chest pain or pressure, dizziness, or joint pain) do not need to consult with a health care provider prior to starting an exercise program.

How To Find and Select An Attorney

Submitted by Patricia L. Brown | NO LEGAL ADVICE INTENDED.

Finding the right professional service provider, whether a doctor, dentist, lawyer, veterinarian, etc. can be challenging. Whether you relocated to a new area, or just finally have need for one of these services, there seems to be some discomfort, perhaps a premature buyers remorse, e.g. "What happens if I make a mistake"? The consequences of selecting the wrong professional to solve your particular problem are surely more troublesome than picking the wrong dry cleaner or restaurant. Furthermore, it can be difficult to assess the technical competence of professional service providers. If your dry cleaned suit is dirty, or the restaurant food is bad, you know it right away. If you get inappropriate legal advice, the implications may not emerge for months or years. The challenge of finding the right attorney can be compounded by the circumstances surrounding your need for an attorney. Such circumstances, whether it be a divorce, child support or custody, abuse, bankruptcy, etc. can cause anxiety and stress, which effect our decision-making capability. Attorneys must attend an accredited law school and pass the bar exam in the states in which they wish to practice. Given this common base level of training, how does one make a selection?

Ask family, friends, and colleagues for recommendations. Keep in mind law firms can range from one attorney to hundreds, and firms can handle a wide variety of legal disciplines and clients, none of which may be relevant to your particular need and circumstance. Be sure the recommendations you

follow are in the same area as your need.

Seek at least 10-15 years direct experience in the specific area of your need.. The experience should also be regional in nature, in our case, central Texas, and particularly in the county in which you reside. Texas law is administered by Texas judges in your county of residence. Each judge and court has its own local idiosyncrasies and your chances of a favorable outcome are significantly enhanced if your attorney is intimately familiar with these idiosyncrasies, knows the judges, and is known by the judges. You do not want a rookie, at any price, gaining experience at your expense, in a matter which might affect the rest of your life.

Select an attorney who is located reasonably close to your residence. There are several reasons for this. First, as stated in #2, your attorney will be familiar with local judges, courts, and practices. Secondly, your attorney should be accessible to insure accurate communications in such vital manners. Having to drive an hour each way in heavy traffic to see your lawyer wastes times, causes unnecessary stress, and reduces communication.

Check local attorneys websites, read the attorneys biography (and his staffs), and look at their videos. Do you think you will feel comfortable with this person? Do they seem to have empathy for their clients? Then make your selection. If you are not comfortable after the first visit, leave, and go to your second choice.
