17th Annual **Salute to the Stars Gala**

It's almost time to applaud Cy-Fair's educators at the 17th Annual Salute to the Stars Gala. The black-tie, celebratory event to be held on October 16, 2014, at Cy-Fair ISD's Richard E. Berry Center will honor 86 Spotlight teachers, one from each of the district's campuses. Dinner, entertainment, live auction and a raffle will be featured as community and business leaders and elected and school officials give thanks to those who give so much to the students in the Cy-Fair district.

Each year in April, Cy-Fair ISD recognizes one teacher from each of its campuses who represents a unique balance of skill, art and heart in teaching students in his or her subject area or program. "Spotlight teachers and their guest as well as the principal and his or her guest occupy spots at the school's table," said Lauri Baker, event co-chair. "The remaining four seats are for those who sponsor the table. Table sponsorships start at \$1,250; however, there are other sponsor opportunities available as well."

Not only is the event a celebration of the district's top-notch teachers, but it's also a way to showcase the talent of students. "Students will perform a drum line performance, those who have won scholarships from the Cy-Fair Educational Foundation will serve as guest speakers and culinary arts students will serve dinner to guests," said Baker. "Involving our students in the event is a perfect way to remember why we are all here."

All proceeds raised at the event go to the Cy-Fair Educational Foundation which provides college scholarships for district students as well as staff development grants to CFISD. Last year the event raised over \$152,000 for staff development grants and student scholarships, bringing the grand total to over \$1.8 million raised since 1998.

This year's underwriter will be Cypress Fairbanks Medical Center Hospital. Also sponsoring in 2014 will be the Cy-Fair Federal Credit

Union as the Red Carpet Premiere Sponsor, Bay- IBI Group Architects as the Superintendent Table Sponsor and Houston Methodist Willowbrook Hospital as the Teacher Appreciation Sponsor.

Baker, who has been involved with organizing the event for ten years, has worked in the school district for 30 years and also serves on the Cy-Fair Educational Foundation Board. "I love working with such a passionate group of dedicated people who put on this great event," she said. "It's really a fun night and people are excited to see each other but also so committed to raise money for the Foundation. The community relationship in our district and the compassion of the Cy-Fair Educational Foundation, that does so much for both students and teachers, is unique and rewarding to be a part of," she said.

For information about the annual Salute to the Stars gala, contact Marie Holmes at 281-807-3591, or e-mail marie@thecfef.org.

TENNIS TIPS

By USPTA/PTR Master Professional
Fernando Velasco

The Modern Game: The Backhand Approach Shot

In previous newsletters, I offered tips on how to execute the basic strokes for players who are just beginning to play tennis or who want to resume playing.

I am now offering suggestions on how to play the “modern” game mostly geared towards players who are happy with hitting the ball over the net and controlling the point with consistency. These players may be already playing for leagues or in tournaments and are looking for more “weapons” on the court.

In this issue, I will offer instructions on how to execute the Top Backhand Approach Shot. This shot is used when an opponent hits a soft shot that has bounced high over the net. The player will take advantage and will charge to the net, thus hitting with top spin high over the net and hit with power. When the ball hits the court, it will take a big hop, forcing the opponent to fall back close to the fence, or to hit the ball on the rise. This shot can be used as a “winner” or as an “approach shot.”

In the illustrations, Kaylen Combs, one of the top players of the Grey Rock Tennis Academy, shows the proper technique to execute this stroke. Kaylen is coached by the Director of the Tennis Academy, Darin Pleasant, who is showing her the proper point of contact on step 2. Kaylen plays with her left hand.

Step 1: The Back Swing: When Kaylen sees the opportunity, she makes a quick turn of her upper body and takes the racket high and back. The head of the racket is now at shoulder height, her shoulders are turned, the right hand gripping the racket and her left hand relaxed. Her weight is on the front foot as her momentum carries her forward to attack the ball. Her right wrist

is “laid back” to allow maximum point of contact.

Step 2: The Point of Contact: The success of a top spin shot is keeping the ball on the strings going from low to high in a 30 degree angle and accelerating the racket head around the outside of the ball. Kaylen started the swing high and “looped” it to allow the head of the racket to drop down. She will be brushing around the outside of the ball as she makes contact with it. Her left shoulder is almost opening and her weight has is moving through the shot.

Step 3: The Follow Through: In order to get maximum control and power, Kaylen is keeping her right arm extended through the shot. She has “snapped” her right wrist and has the head of the racket facing down. Her weight is going forward.

Step 4: The Finish: Kaylen’s upper body acceleration forced the head of the racket to “wrap around” her left ear, thus creating the most power and topspin on the ball. Her legs are already in position to move forward the net for a volley. Her right foot should naturally move forward due to her momentum and racket speed. From her looks, she apparently hit a very wide cross court approach shot for a defensive return.

Step 5: The Volley Winner: Once Kaylen hit, she moved to the net for a “winner”. By the smile on her face, her backhand approach shot was successful and she won the point with a backhand volley.

A Focus on Heat Emergencies

Healthy tips to stay cool in extremely hot weather

Heat emergencies fall into three categories of increasing severity:

HEAT CRAMPS, HEAT EXHAUSTION, AND HEATSTROKE

Heat illnesses are easily preventable by taking precautions in hot weather. Children, elderly, and obese people have a higher risk of developing heat illness. People taking certain medications or drinking alcohol also have a higher risk. However, even a top athlete in superb condition can succumb to heat illness if he or she ignores the warning signs.

If the problem isn't addressed, heat cramps (caused by loss of salt from heavy sweating) can lead to heat exhaustion (caused by dehydration), which can progress to heatstroke. Heatstroke, the most serious of the three, can cause shock, brain damage, organ failure, and even death.

SIGNS AND SYMPTOMS:

Heat Cramps

- Sweating
- Pain in arms, legs, and abdomen

Heat Exhaustion

- Moist, pale skin
- Fatigue and fainting
- Dizziness and lightheadedness
- Headache and confusion
- Nausea and vomiting
- Rapid pulse and breathing

Heat Stroke

- No sweating
- Dry, hot, red skin
- Confusion and loss of consciousness
- Rapid pulse
- Temperature over 103° F
- Seizures

CAUSES:

The following are common causes of heat emergencies:

- High temperatures or humidity
- Dehydration
- Prolonged or excessive exercise
- Excess clothing
- Alcohol use
- Medications, such as diuretics, neuroleptics, phenothiazines, and anticholinergics
- Cardiovascular disease

WHAT TO DO IN HEAT EMERGENCIES...

First Aid

1. Have the person lie down in a cool place. Elevate the person's feet about 12 inches.
2. Apply cool, wet cloths (or cool water directly) to the person's skin and use a fan to lower body temperature. Place cold compresses on the person's neck, groin, and armpits.
3. If the person is alert, give cool water or sports beverages. It's advisable to drink slowly and steadily, particularly if they are experiencing nausea.
4. For muscle cramps, give beverages as above, and massage and stretch affected muscles gently, but firmly, until they relax.
5. If the person shows signs of shock (bluish lips and fingernails, and decreased alertness), starts having seizures, or loses consciousness, call 911 and continue cooling procedures, as described above.

DO NOT:

- DO NOT underestimate the seriousness of heat illness, especially if the person is a child, elderly, or injured.
- DO NOT give the person medications that are used to treat fever (such as aspirin or acetaminophen). They will not help, and they may be harmful.
- DO NOT give the person salt tablets.
- DO NOT give the person liquids that contain alcohol or caffeine. They will interfere with the body's ability to control its internal temperature.
- DO NOT use alcohol rubs on the person's skin.
- DO NOT give the person anything by mouth (not even salted drinks) if the person is vomiting or unconscious.

PREVENTION:

- Wear loose-fitting, lightweight clothing in hot weather.
- Rest regularly in a cool area; seek shade when possible.
- Avoid strenuous physical activity in hot or humid conditions.
- Drink plenty of fluids every day. Drink more fluids before, during, and after physical activity.
- Be especially careful to avoid overheating if you are taking drugs that impair heat regulation, or if you are overweight or elderly.
- Be careful of hot cars in the summer. Allow the car to cool off before getting in.
- Avoid heavy meals and hot foods.

For more information on how to cope with the heat, ask your Concentra health professional, or visit the CDC's Web site at: www.cdc.gov/niosh/topics/heatstress/
