

Canyon Creek CHRONICLE

JANUARY 2015

VOLUME 9 ISSUE 1

10 POWERHOUSE FOODS THAT WILL HELP YOU BURN FAT IN THE NEW YEAR

Marissa Balch - CPT, Nutrition Coach - Texas Fit Chicks Boot Camp

1. Oatmeal - Great source of soluble fiber and slow-digesting carbohydrates that will keep blood sugar and insulin in check so fat burning can stay high.

2. Eggs - A form of well-absorbed protein, healthy fats and Vitamin D (found in the egg yolk). Eggs also contain lecithin, which promotes healthy liver function, thereby helping the body to burn fat.

3. Salmon - High in omega-3 fatty acids, salmon reduces inflammation in the body and lowers LDL and triglyceride levels while raising good HDL levels. Salmon also has a beneficial effect on leptin (hunger hormone) levels in the body, which means it helps to suppress your appetite.

4. Nuts - Another source of fiber and rich in omega-3s, these fats help to regulate blood sugar and protect the heart and the immune system.

5. Grapefruit & Berries - These fruits contain slow-digesting carbs and are rich in fat-fighting fiber. Strawberries, raspberries, blueberries and blackberries all are loaded with soluble fiber and antioxidants that protect blood vessels and promote healthy blood flow.

6. Avocado - It's got fat, yes, but the good kind! The monounsaturated fats found in avocado are burned readily for fuel during exercise and actually encourage fat burning. Good source of fiber and antioxidants.

7. Leafy Greens - Broccoli, specifically, is a fibrous carb that can make you feel full quickly—one reason why it's a great food for getting lean. Broccoli also contains phytochemicals that can help enhance fat loss.

8. Cinnamon - Helps to reduce blood sugar levels, which in turn prevents the body from storing sugar as fat. Add it to your oatmeal and yogurt to enhance flavor without adding calories.

9. Green Tea - Drink this! Not only is green tea packed with antioxidants, it also contains catechins, a phytochemical that helps speed up metabolism and burn more fat.

10. Beans & Legumes - Great sources of protein and they normalize insulin levels and help keep your blood sugar steady throughout the day. Black beans, Garbanzo beans, red beans and lentils are all great to incorporate into your diet.

Recipe of the Month

Chicken Enchilada Soup

Sauté in large pan:

- 1 small onion, chopped
- 1 clove garlic, crushed
- 2 Tbs. vegetable oil

Add & simmer 1 hour:

- 1 - 4 oz. can chopped chilis, undrained
- 1 - 14 ½ oz. can beef broth
- 1 - 14 ½ oz. can chicken broth
- 1 - 10 ¾ oz. cream chicken soup
- 1 - 6 ¾ oz. can chicken
- 1 ½ cup water
- 1 Tbs. steak sauce
- 2 tsp. Worcestershire sauce
- 1 tsp. cumin
- 1 tsp. chili powder
- 1/8 tsp. pepper

Then add and simmer for 10 more minutes:

- 3 cups shredded cheese
- paprika
- 6 corn tortillas, cut in 1/2" strips

Serve with tortilla chips.

TEXAS A&M AGRI LIFE EXTENSION

Fruit flies can become a problem at any time of year because they are attracted to ripe or fermenting fruit. Fruit flies can be brought into the home from ripe fruits or vegetables picked from the garden or items purchased at the grocery store.

Adults are small (about 1/8 of an inch) and usually have red eyes. The front portion of the body is tan while the back portion is dark brown or black. If given the opportunity, females can lay up to 500 eggs. Larvae feed near the surface of fermenting foods or other organic matter.

Prevention is the best way to deal with fruit flies. Do not purchase over ripened fruit or vegetables. Fruit and vegetables should be eaten in a timely manner or stored in the refrigerator. If storage in the refrigerator is not an option because you are ripening the item, place it in a paper bag and use a

FRUIT FLIES

clothespin or chip clip to close the bag. All recyclables should be rinsed thoroughly before placing them into the recycling bin. The recycling bin and garbage can should be cleaned out on a regular basis to eliminate any spilled material.

To eliminate a fruit fly infestation, all sources must be located and eliminated. Insecticides will not help if sources are not eliminated. While searching and eliminating breeding sources, a trap can be constructed to capture adult flies. Create a paper funnel by rolling notebook paper and

place the funnel into a jar that contains a small amount of apple cider vinegar in the bottom.

For more information or help with identification, contact Wizzie Brown, Texas A&M AgriLife Extension Service Program Specialist at 512.854.9600.
