FAQ REGARDING TRASH CANS

Q: What is the decision about the trash cans?

A: These trash can options were approved by the board and do not require an ACC application

Option 1 – a 6 foot fence panel using six inch notched cedar pickets with a minimum of two rails of two inch by four inch treated wood and four inch by four inch treated post. All pickets must face the street.

Option 2 – a 6 foot lattice panel using lattice that is treated and less than or equal to 2 inch square with a minimum of two rails of two inch by four inch treated wood and four inch by four inch treated post. Lattice must face the street and landscaping must be planted in front of lattice which screens the view of the cans from the street.

If you have any questions regarding this decision please contact Karen Janczak at karen.janczak@crest-management.com or at 281-945-4632

LAWN MAINTENANCE

In the case of visible neglect of lawn maintenance and unresponsiveness from the residents, the HOA reserves the right to mow and or edge the resident's lawn and charge them for the services rendered. A flat \$ 80 fee will be charged to the homeowner, regardless of whether the entire lawn will need maintenance, or if only edging (sidewalks, driveways, etc. 0 is required. The HOA has discretion as to which services are needed at the time of service.

For more information on Deed Restrictions please visit <http://www.canyongate.com/communities/park>

Street Trees & Tree Stakes

It is a good time to review the trees on your property and undertake trimming and maintenance, as necessary. Remember to give special attention to your trees, those that are situated between the sidewalk and road. As live oaks mature, their branches have a tendency to dip towards the ground and their canopy needs to be thinned and trimmed. The canopy of street trees needs to be pruned to ensure that the branches do not impede passing traffic. Unused tree stake should also be removed, as they can become unsightly.
