HELP WANTED FOR SPRING FESTIVAL

Spring festival will be May 21st. This is also the date the pool opens for the 1st time.

We will have bounce houses, games, face painting, food (snack type stuff). We tie it in with the pool opening, so it allows some time to swim, play and just have a great time. This is all free!!!

Volunteers needed to help set up tables and pass out water and snacks and clean up after the event.

Anyone who would like to help set up the event or volunteer can contact Leah Protz at my email Imp0486@gmail.com

The more help we get from the neighborhood the more activities we can do.

Pool Tags

The HOA hands out pool wrist bands a few days before the pool opens. They pick about 2 or 3 days to do this, usually two weekdays and one weekend. This year it is going to be May 6, 14, and 19 from 3:30-6pm. Tags are only given to residents who have paid their HOA dues and are not in violation of any HOA rules on record with Graham Management company. These tags will need to be worn when residents come to the pool. We have two different colors due to ages. Children are one color under a certain age will need to verify and can't come to the pool without an adult over the age of 18. Then adults are another color.

Dates for passing out pool tags will be announced closer to the time.

Zika Virus

Zika virus is transmitted by Aedes mosquitoes and there is no specific treatment or vaccine currently available. The best way to avoid getting the virus is to avoid being bitten by infected mosquitoes. About 20% of people with Zika virus actually get

ill. Severe disease, requiring hospitalization, is uncommon and death due to the virus is rare.

The incubation period of Zika virus is thought to be a few days to a week, but is still unknown. Symptoms include fever, skin rash, conjunctivitis, muscle and joint pain, and headache. Symptoms tend to be mild and last from 2-7 days. Zika virus can be contracted

through the bite of an infected mosquito, through blood transfusions, through sexual contact, and from mother to child during pregnancy.

The mosquitoes that are able to transmit Zika virus are also able to transmit dengue and Chikungunya viruses. These mosquitoes are daytime biters, but can also bite at night. Aedes mosquitoes lay their eggs in standing water- buckets, tires, tree holes, animal water dishes, etc.

To protect yourself from mosquito bites, wear light-colored clothing that covers as much skin as possible, use insect repellent (read and follow label instructions), use screening on doors and windows, use mosquito netting (if needed) while sleeping, and reduce standing water areas.

For more information on Zika virus, please see the CDC website here <http://www.cdc.gov/zika/index.html>
