Fall Soccer Season

Registration for the Fall Soccer Season is from May 2nd through May 29th.

Fairfield Soccer is a recreational soccer league for the residents of Fairfield and surrounding communities. We are a volunteer organization supported by the Fairfield Soccer Committee and we offer soccer for boys and girls ages 4-14.

2015 Statistics; 114 teams; 919 players participating & over 150 volunteer parents to help develop and foster a love for the game.

The fall season runs from August to November. The tentative dates for the 2015 season are:

- Player Assessments - Ages 7-14, June 11th and/or June 18th.
- Practices are starting August 1st (tentative).
- The season starts August 20th, and ends the weekend of November 12th.

Weather permitting all teams will play a minimum of 10 games. Ages 7-14 will play 8 league games followed by a tournament. All coaches must complete a background check.

VOLUNTEERS NEEDED

As far as my involvement with FSA Soccer, this will be a transition year for me. I have enjoyed supporting the FSA soccer league for the past 2 years. The combination of personal, and work agenda's and my own children growing out of the FSA league, made me decide to pass on the leadership to a new team by end of this season.

We need the candidates in place by June 2016, to allow me to share and transfer the knowledge I've gained over the past 2 years. Please email me if you are interested in volunteering for FSA Soccer.

For more info and registration visit our website: <http://www.fairfieldsports.net>

I hope to see you in the Summer & Fall!

Bridgeland's Memorial Day Service

On Monday, May 30th 2016, The Bridgeland Community Supports Veterans, Inc. will conduct a memorial service honoring those United States of American Armed Forces, who died in the service of our country. The service will begin at 11 AM at Bridgeland's Pioneer Park which is adjacent to the Activity Center's tennis courts. You will have the opportunity to join with others in writing on ribbons the names of loved ones who made the ultimate sacrifice for our country. The ribbons will be tied on the trees surrounding the park. The service, with the playing of taps, is quite moving and will provide an opportunity to convey to children what Memorial Day is really about. Please come to show your gratitude to those who died to preserve the freedom we so enjoy.

2016 Scouting for Food Results

Scouting for Food is a project rooted in the very foundation of the Scouting movement and its dedication to do and implement the Scout Slogan, Do a Good Turn Daily. It is an ongoing annual program of the Boy Scouts of America, organized at a local level throughout the country, with one objective, to collect food for local food banks. Each year local Cub Scout Packs, Boy Scout Troops, Venture Scout Crews and Sea Scout Ships in every District leave door hangers throughout their neighborhoods soliciting non-perishable food items. One week later Scouts return in the morning hours to pick up and deliver any food donations left on front porches to their local food banks. For the Big Cypress District this occurs annually in late January and donations are provided to Cypress Area Ministries (CAM), our local pantry.

The Big Cypress District of Sam Houston Area Council includes Scouting units in the Northwest area of the Cy-Fair ISD attendance zones of Harris County. This includes Cypress, Bridgeland and Fairfield. The Big Cypress District overall collected 22,168 lbs of food, translating to approximately \$37,686. CAM estimates, for the

number of families they anticipate supporting, this will last from February til end August this year. Thank you to all those that placed a bag, large or small, on their front porch this February!

Cub Scout Pack 3, chartered thru the A. Robison Elementary PTO, has 45 boys, grades 1-5, who primarily attend A. Robison Elementary School. Pack 3 would like to extend a huge THANK YOU to the communities of Lakes of Rosehill, Cypress Mill Parks 1 & 2, Cypress Mill Estates, Cypress Ranch Estates and Cypress Village. With their help the 45 boys of Pack 3 checked the porches of over 2000 homes and collect a combined weight of 751.2 pounds of food to deliver to CAM. The boys enjoy finding these treasured bags of food left on porches, knowing they are doing something to help make a difference in someone's life. Be on the lookout next January for your door hanger and please consider leaving a few things out for the boys to collect, every little bit helps!!

Thank you again from the Cub Scouts of Pack 3 to everyone that contributed to the Scouting for Food movement!!

28TH Annual B. F. Adam Golf Classic

The 28th Annual B. F. Adam Golf Classic, benefiting the Cy-Fair Educational Foundation (CFEF), will be held on Thursday, May 12, 2016, at Blackhorse Golf Club. Cypress Fairbanks Medical Center Hospital has been generously underwriting this tournament since 2010. Returning as Platinum Sponsors, for 10 years or more, are Linebarger Goggan Blair & Sampson and IBI Group. KME Salas O'Brien, LLC has been a Gold Sponsor since 2013.

The B. F. Adam Golf Classic is one of the largest non-celebrity tournaments in the Houston area. Through this tournament, with the support of our community business partners, the Foundation has raised over \$2.6 million to provide scholarships for graduating seniors from Cy-Fair ISD.

CFEF was established in 1970 as a non-profit to raise money to fund a scholarship for high school graduates in the area. Over the past 46 years, the Foundation has grown tremendously through the efforts of the Board of Trustees and the generosity of the Cy-Fair Community. The Foundation has awarded more than \$6 million in scholarships to 1300 graduating seniors. CFEF is a 501(c)3 non-profit organization, all contributions are tax deductible, as allowed by the law.

LIVING IN HARMONY

By Cheryl Conley, TRWC Wildlife Center

Whenever I plant something new, I swear I can hear the deer spreading the word. “Hey, did you know the Conley’s just got some tasty new salad fixin’s? Let’s head over there.” I’ve been doing some research and I’ve found some ways to outsmart

them. Now, keep in mind, if they’re hungry enough, they’ll eat anything regardless of what you do but I have a few suggestions that may save those beautiful plants and shrubs.

- Check to see if what you are buying is deer resistant. Some plants/shrubs will say this right on the container but if not, a simple internet search will help you.
- You can buy solutions and granules to put on/around your plants. They don’t like the smell and will avoid them.
- Check out the motion-activated sprinklers. When a deer approaches, the motion will trigger a sprinkler which will scare them away. There’s one by the Havahart Company and one by

Contech. I am not endorsing either one but if you try one, let me know how it works.

Let’s talk about birds. How many times have you heard birds crash into your windows? It’s a heartbreaking sound and makes us afraid to go out and check for fear the bird will be injured or dead. If injured, you know that TWRC Wildlife Center is available to help but the best thing to do is to try to prevent the problem from happening.

- Install a window screen or a taut net and apply at least 2 inches from the window.
- Go online and look for a film that is specifically made for windows to protect birds.
- Apply tape strips on outside of window spaced 4 inches apart. You can also paint strips or a pattern on your window using washable paint. You can purchase tape on the TWRC website.
- Install shutters or awnings.
- You can use decals which are sold specifically for windows but you’ll need several of them—one won’t work. Check them out on our website.
- Move your bird baths and feeders away from windows.

(Continued from Page 15)

- Keep shades and curtains closed during the day.
If you love wildlife, here are a few suggestions to help them.
- Make sure you provide clean, fresh water daily especially in the hot weather.
- Use natural, organic products on your lawn and garden.
- Hang birdhouses, bat houses and feeders.
- Trim your trees and shrubs in the fall. Leaving them full in the summer acts as protection for wildlife.
- If you see an animal you think is in trouble, make sure it is really in distress before you rescue it. Well-meaning people will sometimes rescue something that doesn't need to be. If in doubt, call TWRC Wildlife Center or check our website for more information.
- Don't try to make pets out of wildlife. They belong in the wild. TWRC discourages feeding wildlife. One or two can turn into an unmanageable number of critters that come to depend on you as their food source. They don't have to forage and never develop those skills because they haven't had to. This is unfair to the animals should you move or stop feeding them.

TWRC Wildlife Center is a non-profit organization in Houston dedicated to helping both people and wildlife to live in harmony. Learn more about TWRC by visiting www.twrcwildlifecenter.org. Questions? Call 713-468-TWRC.

Whiteflies

Whiteflies are small, soft bodied insects with piercing-sucking mouthparts. They are creamy white and adults have a mealy wax coating their body and wings. Immatures, also called nymphs, are small, oval, flattened and wingless.

Whitefly populations can increase quickly when temperatures are warmer. The insects like to be on the underside of leaves, often in clusters. Common species of whiteflies have a wide host range and can switch host plants.

Whiteflies suck plant juices and large populations can cause foliage to turn yellow, appear to be dry or even fall off the plant. Some whiteflies cause plant distortion or foliage to turn silver in color. Whiteflies produce honeydew, a sticky substance secreted by some insects. Honey dew causes foliage to become shiny in appearance and can attract a fungus called sooty mold. Some whiteflies are capable of transmitting plant viruses.

Try to encourage natural enemies to help manage whitefly populations in your garden. To do this, make wise pesticide choices. Try to choose pesticides to target specific pests and/ or specific areas. Also, you may need to manage ants that tend the whiteflies to obtain honeydew. The ants protect whiteflies from natural enemies that may

normally keep the pest population at manageable levels.

In vegetable gardens, you may want to try reflective mulches to make the underside of the leaves where whiteflies hide less habitable.

As for chemical treatment, you can use high pressure water sprays, insecticidal soap, azadirachtin, d-limonene, botanicals or a synthetic product. Target your treatment to the underside of the leaves to get to where the whiteflies like to hide.

Chances are that if you've neglected a spring check up, your air conditioner isn't cooling nearly as well as it could. A years worth of dirt and debris clogging the cooling fins, a low coolant level, a dirty blower fan filter and a number of other simple problems can significantly reduce the efficiency of your system.
