Our May 5, 2016, bus excursion is taking us to the Texas Repertory Theater, to see a theatre classic by Noel Coward called "HAY FEVER". Eccentric family, weekend guests, parlor games and romantic upsets; just the right cocktail for melodrama! Don't miss this delightfully infectious comedy about a weekend getaway gone awry.

We will be dining before the play at Clementine's Restaurant. Established in 1977, Clementine's longevity is indicative of its great food and attentives to service. Your buffet meal is included in the total trip cost.

Tuesday, May 17: Game Night at the Cooks' House.

It starts around 6:30 p.m. Just bring a snack and a healthy appetite. This is always a fun evening with great fellowship. The directions are in the Activity page on our website and will also be in our May 15, weekly e-newsletter.

2016 Scouting for Food Results

Scouting for Food is a project rooted in the very foundation of the Scouting movement and its dedication to do and implement the Scout Slogan, Do a Good Turn Daily. It is an ongoing annual program of the Boy Scouts of America, organized at a local level throughout the country, with one objective, to collect food for local food banks. Each year local Cub Scout Packs, Boy Scout Troops, Venture Scout Crews and Sea Scout Ships in every District leave door hangers throughout their neighborhoods soliciting non-perishable food items. One week later Scouts return in the morning hours to pick up and deliver any food donations left on front porches to their local food banks. For the Big Cypress District this occurs annually in late January and donations are provided to Cypress Area Ministries (CAM), our local pantry.

The Big Cypress District of Sam Houston Area Council includes Scouting units in the Northwest area of the Cy-Fair ISD attendance zones of Harris County. This includes Cypress, Bridgeland and Fairfield. The Big Cypress District overall collected 22,168 lbs of food, translating to approximately \$37,686. CAM estimates, for the

number of families they anticipate supporting, this will last from February til end August this year. Thank you to all those that placed a bag, large or small, on their front porch this February!

Cub Scout Pack 3, chartered thru the A. Robison Elementary PTO, has 45 boys, grades 1-5, who primarily attend A. Robison Elementary School. Pack 3 would like to extend a huge THANK YOU to the communities of Lakes of Rosehill, Cypress Mill Parks 1 & 2, Cypress Mill Estates, Cypress Ranch Estates and Cypress Village. With their help the 45 boys of Pack 3 checked the porches of over 2000 homes and collect a combined weight of 751.2 pounds of food to deliver to CAM. The boys enjoy finding these treasured bags of food left on porches, knowing they are doing something to help make a difference in someone's life. Be on the lookout next January for your door hanger and please consider leaving a few things out for the boys to collect, every little bit helps!!

Thank you again from the Cub Scouts of Pack 3 to everyone that contributed to the Scouting for Food movement!!

Fall Soccer Season

Registration for the Fall Soccer Season is from May 2nd through May 29th.

Fairfield Soccer is a recreational soccer league for the residents of Fairfield and surrounding communities. We are a volunteer organization supported by the Fairfield Soccer Committee and we offer soccer for boys and girls ages 4-14.

2015 Statistics; 114 teams; 919 players participating & over 150 volunteer parents to help develop and foster a love for the game.

The fall season runs from August to November. The tentative dates for the 2015 season are:

- Player Assessments - Ages 7-14, June 11th and/or June 18th.
- Practices are starting August 1st (tentative).
- The season starts August 20th, and ends the weekend of November 12th.

Weather permitting all teams will play a minimum of 10 games. Ages 7-14 will play 8 league games followed by a tournament. All coaches must complete a background check.

VOLUNTEERS NEEDED

As far as my involvement with FSA Soccer, this will be a transition year for me. I have enjoyed supporting the FSA soccer league for the past 2 years. The combination of personal, and work agenda's and my own children growing out of the FSA league, made me decide to pass on the leadership to a new team by end of this season.

We need the candidates in place by June 2016, to allow me to share and transfer the knowledge I've gained over the past 2 years. Please email me if you are interested in volunteering for FSA Soccer.

For more info and registration visit our website: <http://www.fairfieldsports.net>

I hope to see you in the Summer & Fall!

Newest Professional Network of the American Business Women's Association Launches in Houston's Vintage Park Area

Businesswomen throughout the community are invited to attend.

The Women Empowering Women Express Network (WEWEN) of the American Business Women's Association (ABWA) invites professional women to attend its "Official Launch Luncheon" on May 4, 2016 at the Lone Star College-University Park West Dining Room, from 11:00AM to 1:00PM. Informal networking will take place from 11:00AM to 11:30AM, followed by a special presentation and lunch from 11:30AM to 1:00PM.

Susan Hodge, founder of Women Leading Together LLC and Adjunct Professor at the University of Houston Downtown College Of Business will present "Shedding the Shoulds". Learn how to identify and "shed" those unnecessary activities to free up your time for what is important, rid yourself of the guilt that burdens us when we buy into the "shoulds" of others, and stand firmly on YOUR view of what needs to be done.

"We are excited to bring an empowering, energetic, and professional organization to women in Houston. WEWEN will serve as the premiere source for women looking to expand their network, grow their business skills, reach a new audience, advance their career, and truly impact this community," states WEWEN Formation Chair, Darlene Hajduk.

The Official Launch Luncheon is sponsored by University of Houston Downtown College of Business, Lone Star College-University Park, and the Cy-Fair Express Network. To register for this event and other WEWEN events, visit wewen.org or email communications@wewen.org.

6 Health Benefits of Eating Dark Chocolate

If your sweet tooth craves chocolate, there are plenty of reasons to surrender to your cravings and indulge. Dark chocolate is loaded with nutrients that can positively affect your health. Made from the seed of the cocoa tree, it is one of the best sources of antioxidants on the planet. Cacao offers a number of health benefits from helping to control blood sugar to lowering the risk of cardiovascular disease because it contains flavonols, which are a type of antioxidant that has been shown to improve blood flow and can protect against sun-induced damage, improve blood flow to the skin and increase skin density and hydration.

Bottom Line: Quality dark chocolate has various nutritional perks so enjoying a delicious treat that has at least 65% cacao can be guilt-free if you don't overdo it.

NUTRITIONAL PERKS

HEART-HEALTHY

Dark chocolate has been shown to improve blood flow and possibly prevent blood clots. It also helps lower blood pressure and may help keep arteries from hardening.

BRAIN FOOD

Because chocolate increases blood flow to the brain, it can be a boost to your cognitive health.

MOOD CHANGER

Chocolate also contains phenylethylamine (PEA), which encourages your brain to release endorphins that make you feel good.

CANCER FIGHTER

Antioxidants in chocolate help rid your system of free radicals, which have been linked to multiple age-related health risks and diseases.

SOMETHING TO SMILE ABOUT

Theobromine, found in dark chocolate, helps harden tooth enamel, which helps prevent cavities.

SUN BLOCKER

Some studies show that people with diets high in flavonols take longer to burn in the sun than people with low flavonol diets.

LIVING IN HARMONY

By Cheryl Conley, TRWC Wildlife Center

Whenever I plant something new, I swear I can hear the deer spreading the word. “Hey, did you know the Conley’s just got some tasty new salad fixin’s? Let’s head over there.” I’ve been doing some research and I’ve found some ways to outsmart

them. Now, keep in mind, if they’re hungry enough, they’ll eat anything regardless of what you do but I have a few suggestions that may save those beautiful plants and shrubs.

- Check to see if what you are buying is deer resistant. Some plants/shrubs will say this right on the container but if not, a simple internet search will help you.
- You can buy solutions and granules to put on/around your plants. They don’t like the smell and will avoid them.
- Check out the motion-activated sprinklers. When a deer approaches, the motion will trigger a sprinkler which will scare them away. There’s one by the Havahart Company and one by

Contech. I am not endorsing either one but if you try one, let me know how it works.

Let’s talk about birds. How many times have you heard birds crash into your windows? It’s a heartbreaking sound and makes us afraid to go out and check for fear the bird will be injured or dead. If injured, you know that TWRC Wildlife Center is available to help but the best thing to do is to try to prevent the problem from happening.

- Install a window screen or a taut net and apply at least 2 inches from the window.
- Go online and look for a film that is specifically made for windows to protect birds.
- Apply tape strips on outside of window spaced 4 inches apart. You can also paint strips or a pattern on your window using washable paint. You can purchase tape on the TWRC website.
- Install shutters or awnings.
- You can use decals which are sold specifically for windows but you’ll need several of them—one won’t work. Check them out on our website.
- Move your bird baths and feeders away from windows.

News You Can Use

(Continued from Page 25)

- Keep shades and curtains closed during the day. If you love wildlife, here are a few suggestions to help them.
- Make sure you provide clean, fresh water daily especially in the hot weather.
- Use natural, organic products on your lawn and garden.
- Hang birdhouses, bat houses and feeders.
- Trim your trees and shrubs in the fall. Leaving them full in the summer acts as protection for wildlife.
- If you see an animal you think is in trouble, make sure it is really in distress before you rescue it. Well-meaning people will sometimes rescue something that doesn't need to be. If in doubt, call TWRC Wildlife Center or check our website for more information.
- Don't try to make pets out of wildlife. They belong in the wild. TWRC discourages feeding wildlife. One or two can turn into an unmanageable number of critters that come to depend on you as their food source. They don't have to forage and never develop those skills because they haven't had to. This is unfair to the animals should you move or stop feeding them.

TWRC Wildlife Center is a non-profit organization in Houston dedicated to helping both people and wildlife to live in harmony. Learn more about TWRC by visiting www.twrcwildlifecenter.org. Questions? Call 713-468-TWRC.

Whiteflies

Whiteflies are small, soft bodied insects with piercing-sucking mouthparts. They are creamy white and adults have a mealy wax coating their body and wings. Immatures, also called nymphs, are small, oval, flattened and wingless.

Whitefly populations can increase quickly when temperatures are warmer. The insects like to be on the underside of leaves, often in clusters. Common species of whiteflies have a wide host range and can switch host plants.

Whiteflies suck plant juices and large populations can cause foliage to turn yellow, appear to be dry or even fall off the plant. Some whiteflies cause plant distortion or foliage to turn silver in color. Whiteflies produce honeydew, a sticky substance secreted by some insects. Honey dew causes foliage to become shiny in appearance and can attract a fungus called sooty mold. Some whiteflies are capable of transmitting plant viruses.

Try to encourage natural enemies to help manage whitefly populations in your garden. To do this, make wise pesticide choices. Try to choose pesticides to target specific pests and/ or specific areas. Also, you may need to manage ants that tend the whiteflies to obtain honeydew. The ants protect whiteflies from natural enemies that may

normally keep the pest population at manageable levels.

In vegetable gardens, you may want to try reflective mulches to make the underside of the leaves where whiteflies hide less habitable.

As for chemical treatment, you can use high pressure water sprays, insecticidal soap, azadirachtin, d-limonene, botanicals or a synthetic product. Target your treatment to the underside of the leaves to get to where the whiteflies like to hide.
