WOODWIND LAKES *Women's Club*

Thanks to all our Wonderful Members
for a fantastic 2015-2016 season!

Welcome the New Board

President: Marianne West

Vice-President: Barbara Henderson

Secretary: Sharon Siebern / Anne Martin

Treasurer: Cindy Horn

For additional information please contact:

Marianne West (fandmwest@earthlink.net)

Barbara Henderson (texas.cats@sbcglobal.net)

Sharon Siebern (s_siebern@hotmail.com)

Cindy Horn (cindy.d.horn@gmail.com)

Woodwind Lakes Pavilion/Adult Pool

The Pavilion and the Adult Pool are located at 7523 Allegro.

They are beside the Tennis Courts and are in front of The Reserve.

If you would like to reserve either the Pavilion and/or the Adult Pool, please contact Donna Jackson via phone, e-mail or Woodwind Lakes Neighborhood site.

Once a date has been confirmed with me (Donna), I will need a \$50 deposit along with the appropriate form found under "Amenities" on the WWLakes website: www.woodwindlakes.us

You give me the deposit and the form and I will give you a master key that allows access to the storage unit and to the fans and lights at the Pavilion.

When your party is over, you must clean up immediately. No trash can be left in cans on the site nor can the trash be left at curbside.

That's it...very easy...Once your cleanup is complete, you return the master key and I will shred your deposit.

I look forward to hearing from you. We have already had several parties.....As a reminder, the Adult Pool opens May 1.

Honey Bee Swarms

Honey bees are beneficial by producing honey, wax and pollinating crops. With warmer temperatures, honey bees are becoming more active and may soon begin to swarm.

Honey bee swarms look like a large clump of bees clustered together. The swarm may stay in a location from a few hours to a week. Swarms are produced as a part of the colony's reproductive process. An established colony produces a new queen, causing the old queen and half the worker bees to leave the colony to search for a new nesting location. Swarming honey bees are usually gentle and unlikely to sting. Swarms are not protecting their home, food or offspring. Scout bees are sent out from the swarm to search for a nesting site. Colonies produce comb and honey and are defensive. Bees from a colony are more likely to sting as they are guarding their home, food and offspring.

Sometimes, honey bee colonies can be found in wall voids, chimneys, attics or sheds. If bees are in a wall void, DO NOT block their entrance; this makes them search for another way to exit and could lead bees into the structure. To keep bees from entering a home, seal any holes found in walls where pipes enter the home, cracks in window framing, knotholes, weep holes, or cracks between wood and brick junctures.

While many enjoy having honey bees around, some people are severely allergic to their venom. This, along with other situations, such as bees located near sensitive areas (such as playgrounds) may require removal or even extermination of the bees.

People should NOT try remove or exterminate bees on their own. Beekeepers and pest control companies have equipment to carry out these jobs in a safe manner. The city or county does not provide bee removal services.

For more information or help with identification, contact Wizzie Brown, Texas AgriLife Extension Service Program Specialist at 512.854.9600. Check out my blog at www.urban-ipm.blogspot.com

TEXAS A&M AGRI LIFE EXTENSION

Springtails

Springtails are very small, jumping insects that can sometimes become a problem inside homes. Springtails are usually found in areas of moisture, so indoors they may be located near potted plants, sinks, bath tubs or kitchen compost areas. These insects are typically found outside in gardens,

near swimming pools or near where there is excessive moisture or standing water.

Springtails are small (about 1/16 of an inch long), wingless and come in various colors. These insects have a “tail” that latches into a space on the underside of the body that they can use to “jump” several inches into the air.

Springtails are considered a nuisance insect, but some may chew on roots and leaves of sapling plants. They usually do not cause enough damage to warrant control measures to be taken. If you have springtails in your home it points to a moisture problem that should be fixed.

Options for helping reduce springtail problems:

- Remove excessive mulch and/ or leaf litter near the home
- Change watering schedule to reduce the amount of moisture near the home
- Use fans or dehumidifiers to reduce moisture indoors
- Seal cracks, crevices, pipe & wire penetrations on the outside of the home
- Replace or repair any screening on doors and windows that is damaged
- Replace weather stripping around doors and windows that does not provide a good seal
- Suck up any indoor infestations with a vacuum

For more information or help with identification, contact Wizzie Brown, Texas AgriLife Extension Service Program Specialist at 512.854.9600. Check out my blog at www.urban-ipm.blogspot.com

Bring the World into Your Home

Ayusa International, a non-profit organization that has promoted global learning and leadership through high school student cultural exchanges for more than 35 years, is launching its annual search for families in Houston and the surrounding area interested in hosting international students for the 2016-2017 school year.

Ayusa host families who volunteer to open their home to exchange students contribute to the global community as public diplomats for greater international understanding. Each host family and student creates a lasting relationship that spans the cultural differences between their two nations.

The Bray Family from Houston has been hosting two students this year, Mahau from France and Genzo from Japan. Both students have been attending Mayde Creek High School this year. The Brays have six children of their own but feel that hosting exchange students is "probably one of the best decisions our family has ever made," according to host mom April Bray. "[The students] quickly become a part of your family and it's always a great feeling to see their eyes light up when they experience something for the first time or hear the excitement in their voices when they tell you about a new friend they made at school. Your children also get to gain another brother

or sister and it's always fun to see them trying to learn your exchange student's language or customs. For us, there is no greater feeling than watching our exchange students succeed and grow and being able to share our culture and learn more about theirs."

The students have also been having a wonderful experience with the Bray family. Genzo shares, "My host family is so nice to me and I feel like this family is the home I can go back to. They make me feel like I'm loved by them. Of course you can share your culture and learn the language but more importantly, you can experience the other family that you love." His exchange "sister" Mahau says, "It's crazy how much you can love people you didn't know 10 months before. Every day they make my exchange year super great. I consider them like a member of my family. They are the reason why I enjoyed every single day of my new life."

Ayusa works with diverse families who are interested in hosting an international student of high school age. Families without children, empty nesters, military families, retirees, and single people are all welcome. Ayusa families come from all over the country and reside

in rural, suburban and urban communities.

"Houston is a popular destination for Ayusa exchange students in the U.S.," says Heather Wells, Ayusa Regional Manager for the Southwest. "Host families love to share the diversity and history of Houston. It's such a fun area to live in, with activities and things for students to experience, from music and sports to outdoor activities and delicious Tex-Mex!" She continues, "If you have ever wanted to learn about a new culture while sharing life in America, I encourage you to give us a call or check out our website to learn more about how you can create an international friendship that lasts a lifetime!"

Host families provide the exchange student with three meals a day and a bedroom (private or shared). A professionally trained Ayusa representative supports each host family, student, and local school throughout the program year. Ayusa's exchange students are 15-18 years old and come from more than 60 countries around the world. Students are fully insured, bring their own spending money, and are proficient in English.

How to Host an International Student

Interested families can learn more about the program and available exchange students and request additional information by visiting <http://www.ayusa.org> or calling 1-888-552-9872.

The process to apply is simple. Families complete the online application, which includes questions about themselves and local high school, references, and a background check. The local Ayusa Community Representative conducts an in-home interview. They can also help each family with any questions they may have about the application or process.

After families are fully approved, they can select the Ayusa student they would like to host.

About Ayusa

Ayusa International (<http://www.ayusa.org>) is a 501(c)3 non-profit student exchange organization founded in 1981 and an official U.S. Department of State designated Exchange Visitor Program Sponsor. In addition, Ayusa administers high profile grant programs funded by the U.S. Department of State and other organizations. Ayusa is a sister company of Intrax, a family of organizations that provides a lifetime of high-quality educational, work and volunteer programs that connect people and cultures. Intrax is headquartered in San Francisco with offices on four continents.

Finding Time

by Tara Chatterson

I've recently come to the conclusion that the world today has gone mad. It's as simple as that.

Don't believe me? Let's look at one simple fact--in what other place do the majority of the population spend trying to fit 35 hours into a 24 hour day? And continue to do so almost 7 days a week?

Tell me if this sounds familiar: work an 8-9 hour day, come home to do chores like cook dinner, do laundry, feed the dog, etc. add kids to the mix--forget it!

Our success-driven society tells us that we have to push to do more, do it bigger, and do it better than anyone else. Finding time to live any sort of life has suddenly become over-rated and unimaginable as a one-way trip to Neverland.

Over-scheduling, double-booking, extreme intake of caffeine & constant exhaustion have become our closest companions.

Well, I've decided I've had enough. If Neverland is the place where peace exists, then I want to live there.

Is it possible? I believe it is. It starts with claiming the time for yourself to relax and unwind. I've found my Neverland here at Five Horses, LLC. Working with, and learning from, the horses here

has brought me a peace of mind I never believed possible. I know it seems hard at first, but you owe it to yourself to find time to rebuild and recharge.

Indulge yourself by finding time for yourself. There are some amazing new events coming up this month at Five Horses. Take a look--I promise you won't regret it.

Women Empowering Women Express Network

The Women Empowering Women Express Network (WEWEN) of the American Business Women's Association (ABWA) invites you to attend a Monthly Networking Luncheon sponsored by Proline Supply Company on June 1st, 2016. The luncheon will be held in the West Dining Room of Lone Star College-University Park at 20515 State Hwy 249, Houston, Texas 77070. Open Networking begins at 11:00AM, followed by an informative program and lunch from 11:30AM-1:00PM. This month's program includes 2016-17 Board Inductions, the Official Charter of WEWEN, and a presentation from Dorothy Gibbons entitled, The Women of the Rose.

In 1986, Dorothy Gibbons and colleague Dr. Dixie Melillo founded The Rose, a place where every woman could receive quality breast health care regardless of her ability to pay. Today, thirty years later, with two Diagnostic Centers and a Fleet of Mobile Mammography Units, The Rose has served over a half a million women, insured and uninsured, and expanded services throughout

Southeast Texas. Explore the story of how The Rose was born and how it has survived--against all the odds. It is the story of incredible generosity, unexpected corruption, and the hard truth about who can afford healthcare and who can't.

Expand your network, grow your business skills, reach a new audience, or advance your career with the Women Empowering Women Express Network of ABWA. WEWEN meets the first Wednesday of each month from 11AM-1PM. Additional details and luncheon registration (\$25) are available at wewen.org. Contact communications@wewen.org with questions.

About ABWA

Founded in 1949, ABWA provides business training and networking opportunities for women of diverse occupations and backgrounds. ABWA has dedicated 65 years to women's education, workplace skills, and career development training. For more information, visit abwa.org.
