## **Congratulations to Marisa Koch**

Congratulations to Marisa Koch who earned Duke TIP's 7th Grade State Recognition Award for her high SAT scores! A child has to score 50% or higher than the national percentile rankings for college bound seniors in at least 1 category to be eligible. Marisa, 12, was eligible in 2 out of 3 categories.

Marisa is the daughter of Tim and Paula Koch of Bradford Lakes. She is a member of St. John Lutheran Church where she will begin her 3rd year of Confirmation this fall. She enjoys ice skating and has taken lessons at the Willowbrook Aerodrome for the past two years. Marisa loves sports and has played Soccer and Basketball in Fairfield since she was four years old.

Marisa has also just finished an extraordinarily successful first season with EnGarde Speech & Debate Club, which meets at Good Shepherd United Methodist church on Cypresswood. EnGarde is a member of the 3rd largest national high school speech & debate league in the United States: the National Christian Forensics Communications Association (NCFCA) where competition was between 12-18 year olds this past year. Marisa, who was coached by her brother, Trevor, surprised many people when she not only broke into outrounds in Lincoln Douglas debate during her second ever tournament, but she ended up capturing 14th place! Additionally, Marisa placed 4th, 8th & 1st during the season with a Duo Interpretation, alongside Luci Gaines, titled "The True Story of the Three Little Pigs". Marisa was grateful for the opportunity to be in club with so many wonderful people, especially her brother, Trevor, who was a senior this year.

Marisa is very thankful for the outstanding mentors who have shared their love of teaching, learning, and knowledge with her through the years. She shares this prestigious award with them too.

## KIWANIS CLUB OF CY-FAIR HOUSTON

If you live or work in the Cy-Fair area, we would welcome the opportunity to meet you and tell you about the service the Cy-Fair Kiwanis Club gives to our community. Be our guest at our meeting on July 12, 19, and 26.

Time and place: Meetings are held at the Hearthstone Country Club. Lunch is served at 12:15pm, followed by a brief, informative program. Adjournment is at 1:15pm.

What is Kiwanis? Kiwanis is an international service organization focused on changing the world one child and one community at a time. Service is at the heart of every Kiwanis club, no matter where in the world it's located. Members stage nearly 150,000 service projects and raise nearly US\$100 million every year for communities, families and projects. In addition, Kiwanis members actively participate in many service projects in their home communities.

The Cy-Fair Kiwanis Club of Houston seeks to serve this community through sponsoring Key Clubs for high school students, Builders Clubs for middle school students, and Aktion clubs for adults with disabilities. Also, we sponsor Boy Scout and Girl Scout troops. We provide support to various other organizations in the community that serve children and families. ## FINDING RESOLVE

I hear you have joined me as a proud member of the Bit-the-Dust Club. This club consists of people who have "bit the dust" either physically or metaphorically in life. Whichever holds true for you, I want you to know you are not alone, and to share a few important tidbits that are frequently neglected after an incident occurs.

First, this happens to nearly every person at some point. People fall, fail, and are bound to be disappointed at some point in their life. You aren't unique in the club--in fact you were the exception to the rule when you were a "nonmember".

Second, the old saying that you need to, "Dust yourself off & get back into the saddle" after a fall is actually true. Most people don't fully realize the psychological/emotional impact a trauma; like a fall off a horse, losing a job, or divorce, etc., has on them. So, as scary as it might feel, it's a good thing to get back up & give it another go.

Of course, there are always exceptions to this rule. You'll want to make sure you are okay enough to "climb back into the saddle". If you have any concerns that you may be injured or really not ready--wait! Talk it through with your friends & they'll help you find a comfortable way to work through the situation before putting yourself out there again. It's actually a good thing to be able to recognize whether or not you're stable enough to move on.

Finally, get back out there! Your friends and family are there to help you get past any underlying fears and get back on track. One thing that we tell riders (which holds true for the everyday person as well) is that it is so important to understand this one huge truth: it's not true that real horsemen never fall. A real horseman is someone who has learned how to push past the pain and into the pressure. Now is the time to find your resolve and push into pressure.

Welcome to the club;)

## USA Fit Champions Ready to Get Aspiring Runners Marathon/Half Marathon-Ready by January

With many winter long distance races to look forward to, USA Fit Champions seeks to get Spring and Northwest Houston area residents "marathon-ready." The local full and half marathon training group is currently taking registrations through Aug. 30 at [www.ChampionsFit.net](http://www.ChampionsFit.net) for its new season, which kicks off with two orientation/in-person registration events at 7 a.m., Saturday, July 9 and 16, at the D. Bradley McWilliams YMCA in Spring. Now, Co-Organizer Roy McDonald says, is the perfect time, no matter a runner's ability level, to start training for January races such as the Chevron Houston Marathon, Aramco Half Marathon and Memorial Hermann USA Fit Marathon.

"Most people don't believe they can complete a full or half marathon for various reasons," said McDonald. "Our mission at USA Fit is to show people they absolutely can succeed by providing training plans for every fitness level in a fun, non-intimidating and safe environment."

McDonald himself joined USA Fit's Houston group 25 years ago

when he and four fellow employees at his company discussed running a marathon. It was a goal he had never entertained. At the time, he weighed 240 pounds and at the end of his first marathon training with the group dropped to 185 pounds. In addition to gaining a lifelong love of running, McDonald gained a lifelong friend in member and now co-organizer Mitchell Garcia, who was one of the employees who had initially joined him.

McDonald and Garcia both hope as organizers and coaches to bring the same motivation and encouragement that their coaches and fellow members had given him to help runners and walkers around the Champions area reach their own personal goals.

According to McDonald, the top myths about marathon running include:

- Marathoners must be young.
- Marathoners must be athletes.
- It is not possible to walk 13.1 or 26.2 miles.
- Running long distances is dangerous to one's health.
- Runners must be a certain weight or size to successfully run a full or half marathon.

He said that members of USA Fit Champions defy all of these myths and have gone on to complete half and full marathons during their very first seasons with the group as well as meet personal health

and fitness goals.

"The most rewarding part of our job as coaches is to see members achieve so much more than they thought possible, no matter their fitness level or stage in life," said McDonald. "The only thing we ask our members to show up with is a goal and the passion to meet it. We take care of the rest."

Registration for USA Fit Champions is \$140 for new members and \$100 for returning members. Runners meet Saturday mornings for ability-based group trainings, enjoy weekly seminars and social events throughout the season and benefit from the encouragement and expertise of certified coaches. To learn more and to register, visit [www.ChampionsFit.net](http://www.ChampionsFit.net) or contact Roy McDonald at [info@championsfit.net](mailto:info@championsfit.net).

# FACT OR HOGWASH?

By Cheryl Conley, TWRC Wildlife Center

I think we've all heard that one should never touch a baby bird or the mother will not accept it again or may even kill it. This is simply not true. There are many misconceptions about wildlife. Let me help you separate fact from hogwash on a few of the most common ones.

## MYTH: MOTHER BIRDS WILL ABANDON THEIR BABIES IF TOUCHED BY HUMANS

**FACT:** Mother birds will not abandon their offspring if touched by a human. For this to be true we would have to believe that birds can pick up on human scent. In fact, most birds have a rather poor sense of smell. For more information on what to do if you find a baby bird, see our website.

## MYTH: IF YOU FIND A FAWN ALONE, IT HAS BEEN ABANDONED.

**FACT:** It is common to see fawns alone. Since they are incapable of keeping up with mom, she will leave the fawn, sometimes for hours, while she goes off to eat. The doe will visit the fawn two to three times a day. This will continue until the fawn is about 4 weeks old. It's best to leave fawns alone unless you know that the mother is dead and/or fawns are crying incessantly.

## MYTH: IF YOU SEE A RACCOON OUT DURING THE DAY, IT'S RABID

**FACT:** Raccoons are typically nocturnal but are opportunistic creatures and can appear whenever food is around, day or night. In spring and summer when the mother's energy levels are depleted by nursing cubs it is not uncommon to see them out during the day. However, if the animal is acting disoriented or sick, such as circling, staggering or screeching — in addition to being seen during daylight hours — contact TWRC Wildlife Center or animal control.

## MYTH: RACCOONS WASH THEIR FOOD

**FACT:** Raccoons have very sensitive feet and it is believed that dipping their food in water heightens that sensitivity so they can better feel the food before they eat it. They will also use water to soften food.

## MYTH: IF YOU GET CLOSE TO A SKUNK, IT WILL SPRAY YOU.

**FACT:** Skunks only spray to defend themselves, such as when a dog runs up and grabs them. Before they spray, they will stamp their front

feet as a warning to get you to back off. Skunks are also nearsighted so if you come across one, simply talk softly and back away.

## **MYTH: LIVE TRAPPING AND RELOCATING ANIMALS IS HUMANE**

**FACT:** Most animals are very territorial. Residents of an area will more than likely attack and kill a newly relocated animal.

## **MYTH: OPOSSUMS LIKE TO HANG BY THEIR TAILS**

**FACT:** The opossum's tail is capable of grabbing onto a limb to help with balance but it is not strong enough to support the animal's weight.

## **MYTH: TOADS CAUSE WARTS**

**FACT:** Warts on people are caused by a herpes virus, not toads! Toads do, however, have wartlike bumps behind the ears that contain a poison that can irritate your skin.

## **MYTH: OPOSSUMS ARE DIRTY ANIMALS AND ARE VICIOUS**

**FACT:** Opossums are fairly clean when compared to other animals. They groom themselves frequently. While in the care of a rehabilitator, they can even be trained to use a litter box. Like any other wild animal, they are more afraid of you than you are of them. They hiss and show teeth to scare you away, so, GO AWAY!

## **MYTH: IF AN ANIMAL IS FOAMING AT THE MOUTH, IT HAS RABIES**

**FACT:** There are other reasons why an animal may be foaming at the mouth. Some of them are distemper, ticks, worms, diabetes, liver failure, poisoning, and many others.

TWRC Wildlife Center is currently looking for volunteers to help at our center in Houston. If you have a passion for animals and are looking for a worthy organization to help, check our website at [www.twrcwildlifecenter.org](http://www.twrcwildlifecenter.org) or call 713-468-8972.
