## Ladies Club

Since the mid-2000's, Lakes on Eldridge North has had an active ladies club for subdivision residents. The club is an open and welcoming social organization that focuses on providing club members with ongoing activity groups that foster friendship and interaction between LOEN ladies. Our groups include Angels, two Book Clubs, Bridge, Brunch, Bunco, Dinner, Explorers, Garden, and Girls Night Out. We even assist a Men's group to encourage the same comradery among men in LOEN. Occasionally, the club hosts a luncheon encouraging all members to attend. In addition, the club has a holiday party near the end of the year.

We accept new members all year long and encourage any woman, whether a long-time or brand-new LOEN resident, to join our group. We hold meetings several times throughout the year. These meetings begin with a social hour that includes a potluck dinner so members can mix and meet each other and concludes with a brief meeting.

Ladies, we would love to hear from you! If you would like more information or to join our club, please email us at [loenladiesclubpresident@gmail.com](mailto:loenladiesclubpresident@gmail.com).

## Winning Season For the LOEST Dolphins

WOW! The LOEST Dolphins had a stellar season! The team had an outstanding show at the divisional swim meet, with many swimmers getting personal best times! Many swimmers also competed in and preformed their best in the Trinity and Ponderosa Invitationals. Congratulations are in order first to the swimmers who did their very best at every meet, and then to their dedicated parents and coaches who worked hard to give the children a wonderful experience they will not forget!

Many thanks go out to the volunteers who made it all possible and did it with great enthusiasm, and to all the residents of LOE, LOEN and VAL who very graciously hosted our practices and pep rallies this season.

There is still time to participate in the Fall Swim Program for swimmers looking for conditioning and stroke development, which runs through end of October. For more information on days and times, please refer to the team website:

## BLUE JAYS ARE NOT BLUE?

By Cheryl Conley, TWRC Wildlife Center

Blue Jays are easy to recognize because of their crest and their beautiful blue, black and white markings. They are also one of our larger birds, some reaching a foot long. Although beautiful, some consider them a nuisance because they can be aggressive. Aggressiveness towards humans can occur when a Blue Jay is protecting its nest. They've also been known to dive-bomb cats and dogs. They can imitate the sounds of the Red-shouldered Hawk and often do this to keep predators away from the nest. Because they are such good parents and very protective, TWRC Wildlife Center rarely receives any eyes-closed nestlings at the Center.

Did you know that Blue Jays aren't really blue? The color we see is the result of the inner structure of the feathers. There are two types of color in birds—pigmented and structural. The cardinal looks red because the feathers really are red. This is pigmented. Blue and green are unique colors in the animal kingdom and are considered

structural colors. To explain as simply as possible, the blue in the Blue Jay is caused by microscopic structures in the feather that refract light like a prism. When the light passes through a dark layer of melanin, some wavelengths are filtered out, and the bird looks blue. Feathers look blue for the same reason the sky looks blue.

In late summer you may see a bald Blue Jay. Don't automatically assume that it is sick or has been attacked by another animal. Blue Jays, as well as Cardinals, go through a complete molt of their head feathers but they do grow back.

During the spring, TWRC Wildlife Center admits hundreds of Blue Jays, both adults and babies. They are admitted to our on-site care program and require daily care. If you'd like to learn how to feed and care for Blue Jays, volunteer and become a part of our Baby Bird Program. It's fun, it's rewarding and you'll be helping our wildlife.
