CY RANCH KEY CLUB

Todd Sanchir- Publicity
3W- Cypress Ranch
How Key Club Benefits our Society

In your opinion, which is more important, doing things for the good of the individual or the good of the society?

One of Key Club's sole principles is to help out the community in any way, shape, or form through volunteering. Doing things for the good of the community is a default when it comes to volunteering. Whether it's helping kids with math tutoring at nearby schools or aiding the less fortunate through food drives, Key Club

will always strive to help out the community, to better strengthen our society.

While doing things for the good of the individual may seem the right choice, it is evident that everyone isn't as well off as others, and we need to be the first responders in times

when they are in need of help, big or small. Volunteering brings individuals together, forming a stronger community and society.

For example, if there is no one to help out with a certain volunteering event, then there is more work that needs to be done within the individuals organizing the event, that could be easily done amongst volunteers. Helping out with what needs to be done at events allows for a more smooth ride, which benefits all that are both volunteering and participating in the event. Volunteers help out during events to make things easier. Any form of service is considered beneficial to the community, even if those are being impacted indirectly.

Individuals make up our society, and without those who seek doing things for the good of the people, we would be nowhere today. Concerning Key Club, those individuals are our volunteers who strive during each event to do all they can to make a difference when they serve our community. Without them, Key Club wouldn't be what it is, and there would certainly be a void to fill within the world of service.

It is easy to think that you should just worry about yourself and not be entitled to help out others. When you sign up to be a Key Club volunteer, you understand and realize just what it means to put others' needs before yourself. Whether you're assigned to just move and set up equipment or assist the elderly, all events matter and are centered around putting the good of society before yourself as an individual.

Fall Soccer Season

Registration is from May 7nd through June 3rd

Fairfield Soccer is a recreational soccer league for the residents of Fairfield and surrounding communities. We are a volunteer organization supported by the Fairfield Soccer Committee and we offer soccer for boys and girls ages 4-12.

2016 Statistics; 114 teams; 808 players participating & over 150 volunteer parents to help develop and foster a love for the game.

The fall season runs from August to November. The tentative dates for the 2017 season are:

- Player Assessments - Ages 7-12, June 17th and/or June 24th.
- Practices are starting July 31st (tentative).
- The season starts August 26th, and ends the weekend of November 11th.

Weather permitting all teams will play a minimum of 10 games. Ages 7-12 will play 8 league games followed by a tournament. All coaches must complete a background check.

For more info and registration visit our website: <http://www.fairfieldsports.net>

I hope to see you in the Summer & Fall!

Acts of Wisdom Golf Tournament

Friday, May 12,
2017
1:30 pm
Houston National
Golf Course
16500 Houston
National Blvd,
Houston, TX 77095

Join Us for a day of FUN, FOOD, and GOLF benefiting ACTS of Wisdom, a faith-based, non-profit organization that seeks to provide quality education to children in rural Africa.

Cost: \$115 Free range balls, cart, green fees, two drinks on course, tournament prize, and dinner. (If you do not have a foursome, we will pair you with others)

All proceeds benefit Acts of Wisdom and help to expand our

presence in rural Africa to help give more children the materials they need for school. For a registration form or to be a sponsor at any level, please go to actsofwisdom.com.

ACTS of Wisdom grew out of founder Pastor Brad Otto's experiences in Ethiopia and the Book of Acts where an Ethiopian Eunuch asks the Apostle Philip about Jesus. Philip is stunned that he doesn't know, to which the eunuch replies, "No one has ever taught me." Part of the cycle of poverty is not having access to quality education, or having inadequate supplies for education. 145 million children in the world do not have access to education, yet children still dream of becoming doctors, lawyers, and teachers.

At ACTS of Wisdom we believe every child, everywhere, should have access to education and to teachers willing to take time to teach them. Our hope is that through bettering the education opportunities of children, we might be able to help end the cycle of poverty, and begin to have peace in our world.

AHFC Junior Hurricanes (JHSL) Soccer Fall Tryouts & Evaluations May/June 2017

Albion Hurricanes FC (AHFC), established in 1989, is leading the way in South Texas youth soccer by inspiring and developing young men and women through world class coaching and innovative techniques, as well as instilling the proper framework, self-esteem, confidence and sportsmanship within our athletes.

AHFC has multiple campuses in and around Houston. The club invites all interested players from the ages of 7 to 18, to the Player Tryouts & Evaluations and to become part of our success. We ask that all interested players pre-register before coming out to the fields. Please visit albionhurricanes.org for details about your particular campus.

AHFC offers JHSL (a recreational program for 5 - 10 year old) at our Cy Fair and Central locations and offers additional training at Katy Friday Night Academy.

Visit albionhurricanes.org for times and dates.

CYPRESS AREA FOOD PANTRY

Do you know of someone who has trouble putting food on the table? Maybe their employment was suddenly terminated; maybe it's a choice between medications or food; for whatever reason a family can find themselves in a situation where they need a little help.

Fountain of Life Church of God on Mueschke Road runs a food pantry on Mondays from 3:30 pm to 6:00 pm and the only requirement is that the client should live in zip code 77433 and west of Skinner 77429. For more information, contact 281-373-9337. Food donations and volunteers are also greatly appreciated.

Computerized job search and resume preparation and printing are also available.

Relay for Life of Cy-Fair

Relay For Life of Cy-Fair is scheduled for Saturday May 20, 2017 at 11 AM through 11 PM at HP Campus, 11445 Compaq Center Rd. W, at intersection of SH 249 and Louetta Road.

The American Cancer Society's Relay For Life of Cy-Fair is the primary fund raising event for ACS

every year. Help in the fight against cancer by walking with us and joining in the fun activities and solemn and joyful ceremonies! This is the 13th year for Relay in Cy-Fair and this event has grown and raised more money each year since its' inception! To join a team or form one of your own please visit our website. www.relayforlife.org/cyfairtx

This year our theme is: The Cure Boat – Cruise For the Cure!

Fun Activities will be announced in the coming weeks.

Last year flood damage to the facilities postponed our date and inclement weather moved the event indoors, but nothing dampened the spirits of hundreds of participants! Enthusiasm abounded and the event was a huge success, raising more than \$70,000.! This year our goal is to surpass that total. Our efforts will one day provide for cancer research to end this dreaded disease! AND WEATHER WILL NOT STOP US! Participate and help Make Cancer History!

Relay For Life remains the American Cancer Society's most effective fund raising event in the fight against cancer. Money raised supports the American Cancer Society's cancer research, as well as the programs and services we provide to cancer patients and their families. Relay For Life, is now forming both business and personal teams for the May 2017 Cy-Fair event. RFL is also seeking corporate sponsors, volunteers, cancer Survivors and Care-Givers for the Cy-Fair Relay. Anyone interested in signing up or learning more about how you can help in the fight against cancer can go to www.relayforlife.org/cyfairtx . Your involvement is the reason for our success! Thank you!

Richard Iazzetti, Marketing Chair, Relay For Life – Cy-Fair

NATURE'S CLEAN-UP CREW

By Cheryl Conley, TWRC Wildlife Center

You always know when an animal has met an untimely and unfortunate death when you see Black Vultures or Turkey Vultures. So how can you tell the difference? The Black Vulture has a featherless black-grey head while the Turkey Vulture has a featherless red head. In flight, the Black Vulture is distinguishable by

white-tipped wings whereas the majority of the underside of the Turkey Vulture is pale in color.

Both species of vultures feed primarily on carrion. Most of what vultures eat would make any other animal very sick but they are strong animals with an incredible digestive system and a very strong immune system. Their stomachs are extremely acidic. They can usually survive eating carcasses infected with botulism, anthrax, cholera and salmonella. Some believe that vultures spread disease because they eat dead meat. Actually, the opposite is true. They rid our environment of what could potentially cause the spread of diseases.

Turkey Vultures use their eyesight and keen sense of smell to find their food. By flying low, they are able to see dead animals and detect the gases produced when an animal begins to decay. They prefer to feed on animals that are recently dead. Black Vultures can't smell but will often follow Turkey Vultures to find food.

The breeding season of the turkey vulture starts in March,

peaks in April to May, and continues into June. Interestingly, vultures don't make nests. In most cases, females lay two eggs but have been known to lay one and rarely three. The eggs are whitish/cream colored and heavily marked with dark brown or lavender spots around the larger end. Eggs are generally laid on a bare surface in a protected location. TWRC receives many calls from the public reporting that a vulture took up residence in their atrium or on their front porch.

Both parents incubate, and the young hatch after 30 to 40 days. Chicks are altricial, or helpless at birth. Both adults feed the chicks by regurgitating food for them, and care for them for 10 to 11 weeks. When adults are threatened while nesting, they may flee, or they may regurgitate on the intruder or feign death. If the chicks are threatened in the nest, they defend themselves by hissing and regurgitating. Family groups will remain together until fall.

Although not endangered, vultures have been impacted by the use of lead bullets and buckshot used by hunters. If the shot animal is not removed or covered, vultures will consume the contaminated meat and become ill or die.

Because of their eating habits and appearance, vultures would probably never win a "My Favorite Bird" contest or "Most Beautiful Bird" award but they play an important role in keeping our environment cleaner and definitely smelling better. Have you thanked a vulture today?

If you'd like to learn more about TWRC Wildlife Center, what we do and how you can help, visit our website at www.twrcwildlifecenter.org. Opportunities are available at our wildlife center and include baby bird and opossum feeders. We also provide training for in-home rehabilitators. TWRC Wildlife Center, 10801 Hammerly Boulevard, Houston, TX 77043. 713-468-TWRC.

The Houston Choral Society Presents "Music Fit for a King" May 6, 2017

The Houston Choral Society (HCS) culminates its 30th season with magnificent and regal works in its Music Fit for a King concert on Saturday, May 6 at 7:30 PM at The Foundry United Methodist Church.

This inspiring concert, directed by HCS Artistic Director Dr. Kevin M. Klotz, features Handel's "Coronation Anthem Zadok the Priest," Mozart's "Coronation Mass," and John Rutter's "This is the Day" that was composed for the wedding of HRH Prince William and Miss Catherine Middleton.

Handel composed his four coronation anthems between September and October 1727, producing some of the most spine-tingling choral music of the Baroque period. Zadok the Priest is by far the most popular of the four. Composed for the coronation of King George II of England in 1727, this anthem has been performed at every coronation since then. Its adrenaline rush of an introduction, with its teasing promise of release only to start again, is only a warm-up for what is to come. As the regal strings build, it's still a surprise when the trumpets and choir burst onto the scene with their triumphant outpouring of joy, gradually climaxing in a full seven-part choir singing 'God save the King!'

Mozart's triumphal Mass in C Major, K. 317, is one of his most

popular and enduring works. It is known as the Coronation Mass, a nickname it acquired following a performance conducted by Antonio Salieri in 1791 in Prague at the coronation of Leopold II as King of Bohemia. This festive setting of the mass combines soloists, chorus, and orchestra in a brilliant and virtuosic style. In addition, Mozart uses the same thematic ideas from the first movement in the final movement, bringing a sense unity to this magnificent and rousing composition!

In addition, the 75-member chorus will be singing two numbers specifically composed for the coronations of British Royalty - C. Hubert H. Parry's "I was Glad When They Said Unto Me" composed for the coronation of King Edward VII in 1902 and Ralph Vaughn Williams' "O Taste and See" that was composed for the coronation of Her Majesty Queen Elizabeth II in 1953.

"On this concert, we are featuring works that were performed at royal celebrations," said Dr. Klotz. "Come and experience the dramatic and rousing quality of these compositions as the Houston Choral Society presents some of the most magnificent and regal music ever written!"

Guest soloists for this concert are soprano Cynthia Clayton,

Carrot Bundt Cake

From:
shugarysweets.com

Photograph: A portion of the frosting was left without nuts as a courtesy to one of the guests.

CAKE:

- 2 cup granulated sugar
- 1 cup canola oil
- 4 large eggs
- 2 cup all-purpose flour
- 1 tsp baking soda
- 1 tsp baking powder
- 2 tsp cinnamon
- 2 cup shredded carrots
- 1 cup Fisher Chopped Pecans

FILLING:

- 1 package (8oz) cream cheese, softened
- 1/3 cup granulated sugar
- 1 tsp vanilla extract
- 1 large egg

FROSTING:

- 4oz cream softened cheese
- 3 Tbsp milk
- 2 cup powdered sugar
- 1/4 cup Fisher Chopped Pecans

Directions

1. Preheat oven to 350 degrees F. Spray a 12 cup bundt pan generously with baking spray. Set aside.
2. In a large bowl, combined all the ingredients for the cake, mixing until well combined. The batter will be very thick! Set aside.
3. For the filling, beat cream cheese with sugar, vanilla, and egg until smooth and creamy. Set aside.
4. To assemble, fill the bottom of sprayed bundt pan with about 3/4 of the batter. Spoon the cream cheese into the pan, being careful not to let it touch the sides of the pan. Spoon the remaining batter over the cream cheese layer. It's okay if it doesn't cover completely.
5. Bake cake in a preheated oven for 60-65 minutes. The cake will be browned and will pull away from the pan when done. Remove from oven and cool for 5-10 minutes before inverting onto a wire rack. Cool completely before frosting.
6. For the frosting, beat cream cheese, milk, and powdered sugar together until smooth and creamy. Pour frosting into a large Ziploc bag and snip off the corner. Pipe onto the cake, generously. Sprinkle immediately with chopped pecans. ENJOY!

EXPANDING EXPECTATIONS.

IN HEALTH CARE. AND IN CYPRESS.

We're now open to meet our community's need for exceptional care.

Now Cypress families can get Memorial Hermann healthcare services and specialties close to home. Memorial Hermann Cypress Hospital offers orthopedics and sports medicine, neurology, general surgery, heart and vascular, labor and delivery, gastroenterology, urology and more. The 80-bed, state-of-the-art hospital includes an Emergency Center staffed by boardcertified affiliated emergency medicine physicians, 8 operating rooms, a 16-bed intensive care unit, labor and delivery, a neonatal intensive care unit, a cardiac catheterization lab and Memorial Hermann Life Flight® helipad. The hospital is set on a 32-acre, master-planned campus designed with room to grow as Cypress does. And you can expect all of our advanced offerings to maintain the highest quality and safety standards, because a community as special as ours deserves the very best.

NOW OPEN

Mosquito Repellents

As mosquito season is ramping up, everyone is (hopefully) aware of possible disease transmission by mosquitoes. It is important that you protect yourself when spending time outside.

Activity times for mosquitoes can vary. Most people are familiar with the four D's- DRAIN (standing water), DEET (wear some repellent), DUSK & DAWN (stay indoors during dusk and dawn to avoid peak populations) and DRESS (wear long sleeves and long pants). While this is still good advice, it may be a good idea to spread the dress and repellent advice for anytime you spend time outdoors.

When outside, wear long pants and a long sleeved shirt in light colors to reduce the number of mosquitoes that can reach your skin. Repellent should only be applied to clothing and exposed skin. Do not apply repellent underneath clothing! If you want to apply repellent to your face, spray your hands with repellent and rub it onto your face. Do not spray repellent directly into your face or near eyes or mouth. Make sure to apply repellent outdoors. Do not allow children to handle repellents. Wash hands before eating, smoking or using the restroom.

The Center for Disease Control (CDC) recommends using a product registered with the EPA (Environmental Protection Agency) containing one of the following active ingredients: DEET, picaridin, IR3535 and some of the products containing oil of lemon eucalyptus.

DEET, also known N,N-diethyl-m-toluamide or N,N-dimethylbenzamide, was developed by the U.S. Army in 1946 to protect soldiers in insect-infested areas. Pesticides containing DEET have been used by the general public since 1957. Products containing DEET should not be used on children younger than 2 months of age (read the label and check with your pediatrician if you have questions). DEET has a slight odor and may have a greasy feel to some people. It may damage plastic, rubber, vinyl or synthetic fabrics. DEET may be irritating to the eyes and skin for some people. DEET comes in a wide variety of concentrations, so choose the one that will work best for your situation.

Picaridin was first made in the 1980's and resembles a natural compound called piperine (which is found in plants used to produce black pepper). Picaridin has been used in Europe and Australia for many years, but has only been in the U.S. since 2005. Picaridin is non-greasy and is odorless.

IR-3535, or 3-[N-Butyl-N- acetyl]-aminopropionic acid, ethyl ester, was developed in the mid- 1970's and became registered for use in the U.S. in 1999. It is registered as a biopesticide by the EPA because it is functionally identical to a naturally occurring substance (an amino-acid). It may dissolve or damage plastics and may be irritating to the eyes.

Oil of lemon eucalyptus (OLE) or PMD (para-menthane-3,8-diol) are essentially the same thing; PMD is the synthesized (lab created) version of oil of lemon eucalyptus. "Pure" or "essential" oil of lemon eucalyptus is not labeled as a repellent and has not undergone testing and should not be used as a repellent product. OLE/PMD has been on the market in the U.S. since 2002. OLE/PMD should not be used on children younger than 3 years of age. The natural product (OLE) has known allergens within it while the synthetic version (PMD) has less of a risk to allergens. This product is classified as a biopesticide. OLE/PMD has a varying range of residual, some offering about 20 minutes of protection while other products may last up to two hours.

Many factors play into how long a repellent will last for a person. Some of these are:

- The concentration (or percent of active ingredient) of the product. You can find the percentage on the product label.
- Person's attractiveness. Some people are more attractive to mosquitoes than others (and no scientific research has proven that it is because of eating garlic, taking vitamin B, using tobacco products, etc.). A person's genetic code plays a large part on what makes a person so attractive to mosquitoes.
- Frequency and uniformity of application. In other words, how often is the repellent applied and how good of coverage did you get?
- Activity level of the person. The more active the person is, the more sweat they produce which can cause the repellent to wash off the surface of the skin.

As a word of caution, there are products that combine sunscreen and insect repellent. The CDC recommends that if you need sunscreen and repellent, that you choose two separate products. Sunscreen should be applied more often than repellents.

The Beacon is a private publication published by Peel, Inc. It is not sanctioned by any homeowners association or organization, nor is it subject to the approval of any homeowners association or organization, nor is it intended, nor implied to replace any publication that may be published by or on behalf of any homeowners association or organization. At no time will any source be allowed to use The Beacon contents, or loan said contents, to others in anyway, shape or form, nor in any media, website, print, film, e-mail, electrostatic copy, fax, or etc. for the purpose of solicitation, commercial use, or any use for profit, political campaigns, or other self amplification, under penalty of law without written or expressed permission from Peel, Inc. The information in The Beacon is exclusively for the private use of Peel, Inc.

DISCLAIMER: Articles and ads in this newsletter express the opinions of their authors and do not necessarily reflect the opinions of Peel, Inc. or its employees. Peel, Inc. is not responsible for the accuracy of any facts stated in articles submitted by others. The publisher also assumes no responsibility for the advertising content with this publication. All warranties and representations made in the advertising content are solely that of the advertiser and any such claims regarding its content should be taken up with the advertiser.

* The publisher assumes no liability with regard to its advertisers for misprints or failure to place advertising in this publication except for the actual cost of such advertising.

* Although every effort is taken to avoid mistakes and/or misprints, the publisher assumes no responsibility for any errors of information or typographical mistakes, except as limited to the cost of advertising as stated above or in the case of misinformation, a printed retraction/correction.

* Under no circumstances shall the publisher be held liable for incidental or consequential damages, inconvenience, loss of business or services, or any other liabilities from failure to publish, or from failure to publish in a timely manner, except as limited to liabilities stated above.
