LINE DANCING AT THE CLUBHOUSE BOOT SCOOT ON OVER

Sunday, August 27th from 4:00 pm to 6:00 pm come up to the clubhouse for a fun afternoon of dancing. We have an instructor from Two Step Houston coming to teach us some simple line dancing. Country Western Line Dancing does NOT require partners – it's a choreographed dance with a repeated sequence of steps in which a group of people dance in one or more lines or rows. If you have questions you can contact Sue Jolly (suzannejolly33@gmail.com)

CLUBHOUSE EVENTS SET-UP HELP NEEDED

We are looking for people to volunteer to assist the Moving Committee with clubhouse furniture moving. Several events each year require that the interior clubhouse furniture be moved into a side room and then returned after the event. The more volunteers we have, the quicker we can prepare for all the fabulous socials we have planned for the future. Let me know if you can help (suzannejolly33@gmail.com)

Lakes on Eldridge FAMILIES

Interested in meeting some other families in the neighborhood? Join LOE Families on Facebook! We host play dates, pool parties, holiday events, moms night out and more.

We are looking for volunteers for the Halloween Party. All community events are completely volunteer driven, so we need your help to have successful events. Please contact us if you are interested in helping us out.

UPCOMING EVENTS:

**8/19 @ 10 AM – BACK TO SCHOOL POOL PARTY
AT LOE POOL**

Want to join LOE Families, but not on Facebook? Email Christine at lakesoneldridgefamilies@gmail.com.

Swan Care Alert

If you see a swan in your yard or see one walking the street, please call Betty Burkett immediately at 713-302-9929. Do not try to deal with the swan and please keep your dogs and children away from the swan before talking to

Betty. She handles all swan matters for LOE. If a swan is in your back yard, please make sure the swan has access to water at all times while in your yard due to the extreme summer heat. Do not try to approach the swan directly. Betty will take care of the swan. LOE unfortunately had to say good bye to one of our male swans due to a devastating injury to his wing that could not be repaired. These are very beautiful but fragile creatures. We owe Betty endless gratitude for her great care and commitment to them.

Excellent Season For the LOEST Dolphins

WOW! The LOEST Dolphins had a stellar season! The team had an outstanding show at the divisional swim meet, with many swimmers getting personal best times! Many swimmers also competed in and preformed their best in the Trinity and Ponderosa Invitationals. Congratulations are in order first to the swimmers who did their very best at every meet, and then to their dedicated parents and coaches who worked hard to give the children a wonderful experience they will not forget!

Many thanks go out to the volunteers who made it all possible and did it with great enthusiasm, and to all the residents of LOE, LOEN and VAL who very graciously hosted our practices and pep rallies this season.

There is still time to participate in the Fall Swim Program for swimmers looking for conditioning and stroke development, which runs through the end of October. For more information on days and times, please refer to the team website: <http://loedolphins.swim-team.us>

Begin looking for information on the Summer of 2018 season in next February's publications.

- Replaced defective/blinking landscape light at Eldridge entrance.
- Cut-out and replaced all rusting structural steel pieces on pedestrian bridge over Turkey Creek. Repair and repainting of deck boards & railing will soon follow.

Meditation and Stress Relief Clinic with Pranic Healing

In today's world, for the stressed person seeking greater vitality, health— and tranquility — amid the hustle of the modern world, there is one particular healing technology that offers a

simple, easy-to-implement solution: Pranic Healing®.

Pranic Healing® is a highly evolved and tested system of energy medicine developed and promoted by Grand Master Choa Kok Sui (GMCKS), a Filipino entrepreneur and philanthropist of Chinese descent. It utilizes prana(energy) to balance, harmonize and transform the body's energy processes. Prana is a Sanskrit word that means life-force. This invisible bio-energy or vital energy keeps the body alive and maintains a state of good health.

Pranic Healing® requires no drugs, gadgets, not even physical contact with the subject. Physical contact is not required because the practitioner is working on the bioplasmic or

energy body and not directly on the physical body. The reason Pranic Healing® works on the energy body is that physical ailments first appear as energetic disruptions in the aura before manifesting as problems in the physical body.

This pervasive energy that surrounds, interpenetrates and sustains the physical body, also affects our emotions, our ability to handle stress, relationships and even finances.

This Pranic Healing clinic is a free service and welcome donations. This clinic will help to create awareness about meditation and its usefulness and to alleviate the suffering and reduce stress acquired from daily life.

After the meditation, a group of Pranic healers (volunteers) will offer to perform sample healing session (*with disclaimer) on participants (who for ex: might be suffering from knee, throat and back pain...etc), to demonstrate the healing technique.

Complimentary Session August 12th, 5pm to 7pm @ Clubhouse Flex Room

LAKES ON ELDRIDGE BOOK CLUB

We meet the 4th Monday of each month at 7:30 P.M. (unless we decide to skip a month or change the meeting day). We take turns hosting the meeting and sometimes change the date or book, so please contact celeste.fritz@gmail.com to get the details for each meeting.

August 28 – The Japanese Lover by Isabel Allende From *New York Times* bestselling author Isabel Allende, “a magical and sweeping” (*Publishers Weekly*, starred review) love story and multigenerational epic that stretches from San Francisco in the present-day to Poland and the United States during World War II.

September 25 - Circling the Sun by Paula McLain. Sometimes a reader craves a good, old-fashioned yarn. This much anticipated novel from the author of *The Paris Wife* is exactly that: an engrossing story of love and adventure in colonial Africa, complete with gorgeous landscape, dissolute British ex-pats, and lots of derring-do with horses, motorcars and airplanes. That it is also the best kind of contemporary historical novel – the kind that teaches you something about

the real people and events of the time – is a bonus.

October 23 - The Tumbling Turner Sisters by Juliette Fay. Set against the turbulent backdrop of American Vaudeville, four sisters embark on an unexpected adventure—and a last-ditch effort to save their family.

It's 1919, and the Turners are barely scraping by. When their father loses his job, their irrepressible mother decides that vaudeville is their best chance to make the rent—and create a more exciting life for herself in the process.

Traveling by train from town to town, teenagers Gert, Winnie, and Kit, and recent widow Nell soon find a new kind of freedom in the company of performers who are as diverse as their acts. There is a seamier side to the business, however, and the young women face dangers and turns of fate they never could have anticipated. Heartwarming and surprising, *The Tumbling Turner Sisters* is ultimately a story of awakening—to unexpected possibilities, to love and heartbreak, and to the dawn of a new American era.

PETS OF LOE

By: Isabella, Rhea, Matteo and Rohan

This month we decided to interview a dog named Sadie. Sadie's breed is an Old English Sheep dog. She is 5 years old and was brought from Dallas. When she was little she would nudge Kennedy, Hannah and Mackenzie so they would move where she wanted them to be. Sadie's ancestors would herd sheep. That's why she would try to herd people. She is scared of thunderstorms but she is happy most of the time. Her fur color is grey and white, and her favorite treat is chew bones. The Gross family takes Sadie to the dog park at least 5 times a week so she would be calm when she gets back home. Her breed is famous from a classic Disney movie called The Shaggy Dog. If you haven't seen it check it out!

CHINCH BUGS: NO EASY FIX

Author: Nathan Riggs

The heat and high temps of July and August aren't the only culprits that take a toll on your landscape and lawn. If your St. Augustine grass is looking sad and jaundiced, it may be under attack.

Summertime means a lot of different things to people — grillin', fun in the sun, barefoot walks in the lawn and other outdoor activities.

Unfortunately, the hot temperatures in July and August also have a daunting impact on local lawns and landscapes by creating water stress. When St. Augustine lawns in full sun become water stressed in July and August, they fall victim to attack by the Southern Chinch Bug (*Blissus insularis*).

Chinch bugs suck the sap from the grass at the point where the blade emerges from the runner, or rhizome. As they feed on the sap, chinch bugs release saliva into the wound, causing the grass to turn yellow and die.

This yellowing usually begins at a central point and radiates in a circular pattern outward as the chinch bugs expand their feeding area. St. Augustine grass is a chinch bug's favorite meal, but Bermuda and Zoysia grasses may be attacked as well.

Here are a couple of ways to test for chinch bugs in the affected area.

- Drench method: flood an area on the edge of the sick grass with a soapy solution (2 tablespoons of liquid soap to 1 gallon water). If chinch bugs are present, they will emerge from the grass to get away from the soapy water.

- Flotation method: take a metal can with both ends removed and push one end into the ground at the border of the sick grass. Slowly fill with water and see if chinch bugs float up. Repeat for several different areas.

Once you've determined chinch bugs are present, you must target the infestation. To reduce chinch bug populations, treat a 15-foot radius around the damaged area with a liquid insecticide approved for turf grasses. It is NOT NECESSARY to treat the entire yard because a) non-target beneficial insects will be adversely impacted by the treatment, and b) chinch bugs won't be present in the entire yard.

After treatment, you must PATIENTLY rehab the affected turf areas. Do not overwater your grass in an effort to get it back to health because the root system is still recovering from the chinch bug onslaught. Instead, water thoroughly, but infrequently to encourage a deeper, more drought-tolerant root system.
