LOEN Ladies Club News

After the tumultuous events associated with Hurricane Harvey, the LOEN Ladies Club took a depth breath and exhaled a huge sigh of relief. For the first time in club history, Dinner Club was canceled due to bad weather and the closing of the chosen restaurant. As soon as the flood waters receded, the Bunco group decided to forgo the usual Tuesday night game

for a Wednesday night meetup at New York Pizzeria on September 6. It was a great turnout that included husbands, children, and members gathering to trade flood stories and commemorate the beginning of the return of life to normalcy. At no other time has it been more of an honor to be a member of a club which simply exists for the good of its members. Since its conception in 2005, club membership has always been a great way to get to know your neighbors and make new friends. However, after the events of late August and early September 2017, the club proved that it is also a platform for ladies to come together, be themselves and celebrate life.

The most recent LOEN general membership meeting was held on September 26 in the LOEN Clubhouse. It was a great meeting and everyone enjoyed the Potluck Social Hour and catching up on recent events. The general meeting discussed plans for activities through the end of the year including the next general meeting in November.

Membership in LOEN's Ladies Club is open to all women residents, past and present. New members are welcomed year-round and dues are half price through 2017. The club cultivates friendship and fellowship through its' social and game groups that meet monthly and general membership meetings held throughout the year. If you would like more information or want to join the Ladies Club, please contact Jeanne MacKenzie at loenladiesclubpresident@gmail.com.

Cypress 5K Fun Run and Puppy Parade

Submitted by Tracy Williams

Cypress and Houston area residents can strengthen their families, their bodies, their neighborhood school, and their dogs at a very fun family friendly event this fall. Cypress 5K Fun Run and Puppy Parade benefiting the Performing Arts Department at Spillane Middle School will take place Saturday, November 18th at 9:00 a.m. at Spillane Middle School, 13403 Spillane Woods Blvd.

The event is the school's fourth annual Fun Run, and will feature a timed run. You don't have to be a competitive runner to participate since the race also features a family run for those pushing strollers or wanting to walk, and a dog walking segment. The race will begin at Spillane Middle School, and go through the Coles Crossing neighborhood. Medals will be awarded in multiple age brackets, and to the first three dogs who cross the finish line.

While generating funds to support the school's award-winning Performing Arts programs is one goal of this run, event organizers want to strengthen the school's ties to the community as well as encourage community spirit and fitness. The race has become an annual tradition for many, and provides the opportunity to run, walk, bond with, and support family, friends, and neighbors. Last year's run had over 900 participants, and was a great success.

Harvey Effects in Real Estate

Prepare for the shift into a seller's market! Inventory will be low and demand for homes that did not flood will be higher than ever.

Rentals, Rentals, Rentals, if you are considering putting your home on the market as a rental, NOW is the time to do it. People all over the city are looking for dry houses they can call home for the next few months and up to a year.

Price gouging in a time of catastrophe; just don't do it. While the supply and demand concept is a real thing, these homes still need to appraise once they are under contract. Don't jeopardize your risk of appraising by overpricing your home!

If your home is currently on the market consider becoming an investor. If your situation allows for it, consider renting out your current home after purchasing your new one.

When purchasing a home after a catastrophe don't be completely driven away by insurance claims, more and more houses will have that disclosed and it will be a commonly seen aspect of many homes to come.

October is Breast Cancer Awareness Month

October is breast cancer awareness month, and physicians affiliated with Memorial Hermann Cypress Hospital say it's a great reminder for women to schedule their annual mammography.

"I chose to go into medicine after a close family member passed away from breast cancer at a young age. That's why I encourage all my patients to have an annual mammography beginning at age 40," says Iyabode M. Ogunlade, M.D., an OB-GYN affiliated with Memorial Hermann Cypress.

Symptoms of breast cancer include any lump, thickening, or swelling in the breast or armpit, pain in the breast, or change in

size or shape of the nipple. However, the American Cancer Society says many women don't experience any symptoms.

"The key to successfully treating breast cancer is detecting the cancer early. That's why having your annual mammography is so important," says Dr. Ogunlade. "There are also several types of mammograms, including 3-D mammograms, so make sure you speak with a physician about the different screening methods to determine which is right for you."

MD Anderson Breast Care with Memorial Hermann- Cypress combines the convenience and advanced technologies of Memorial Hermann's breast care centers with interpretation and consultation provided by expert radiologists from MD Anderson. This innovative partnership ensures the high quality, safe imaging and expert reading that are critical for precise diagnosis, effective treatment and follow-up for breast cancer patients. MD Anderson Breast Care with Memorial Hermann- Cypress offers 3-D mammography (breast tomosynthesis), breast MRI, breast MRI biopsies, breast ultrasound, stereotactic breast biopsies, and ultrasound biopsies. All of these advanced technologies are conveniently offered close to home for Cypress area residents, and appointments can be scheduled by calling 346.231.6950.

Floodwater Mosquitoes

If you've been outside lately, you have most likely noticed the giant mosquitoes that seem to want to pick people up and carry them off. With recent weather conditions, floodwater mosquitoes have emerged in large numbers.

Floodwater mosquitoes lay their eggs above the water line in ponds, ditches, pastures, or other places where water collects. The eggs can remain in dry areas and when these areas are flooded the eggs hatch, leading to swarms of hungry mosquitoes. These mosquitoes are larger than mosquitoes we are used to and can swarm in high numbers.

While floodwater mosquitoes won't last forever, other mosquitoes called container breeding mosquitoes emerge when floodwaters begin to recede. Many of these species are ones that we are used to seeing around our homes.

Many things can help to reduce mosquito problems around the home. Eliminate all sources of standing water. Containers such as watering cans, buckets and bottles can turn into mosquito breeding grounds. Water should be drained from birdbaths, gutters, flowerpots and pet dishes at least once a week. Children's wading pools should be emptied of water at least once a week and stored so they cannot collect water when not in use. Tree holes should

be filled in with sand or mortar, or drained after each rain. Leaky faucets and pipes located outside should be repaired.

Areas that cannot be drained, such as ponds or large rain collection systems, can be stocked with mosquito fish that eat mosquito larvae. Dunks can also be used in these areas. Dunks are a small, donut-shaped product that contains *Bacillus thuringiensis* var. *israeliensis*. The donut disrupts the life cycle of the mosquito and is non-toxic to humans, amphibians and fish.

When outside, wear loose-fitting, light colored clothing with long sleeves & long pants. Repellants containing active ingredients such as DEET, Picaridin, IR3535, or oil of lemon eucalyptus can be effective to keep mosquitoes from biting when activities cannot be rescheduled.

National Association Names American Business Woman of ABWA

The American Business Women's Association (ABWA) named Jessica Smith, Assistant Vice President of IBERIABANK, one of the Top Ten Business Women of the Year. The Top Ten Business Women of ABWA is a national program that honors 10 outstanding members for achieving excellence in career, education and community involvement.

Jessica Smith is a branch manager at IBERIABANK. She has been in the banking industry for 15 years with a passion for assisting local small to medium size businesses and seeing them grow. Her strengths include providing excellent client services and building long lasting relationships with her clients. Jessica spends a lot of her time also volunteering in her community to help educate,

guide and lead others both personally and professionally.

While a current student at Texas Tech University, a firefighter's wife, mother of two amazing kids and a full-time banker, she manages her roles day in and day out to serve as an active member of the Cy-Fair Express Network of the American Business Women's Association (CYFEN), a secondary active member of Women Empowering Women Express Network of the American Business Women's Association (WEWEN), a financial literacy volunteer for The Women's Resource of Greater Houston, and an advisory council member of the Lone Star College Small Business Development Center which are all located in the community in which she lives.

"Top Ten candidates are a paradigm for ABWA members who strive for excellence in their careers, their communities, and in the Association," says René Street, ABWA Executive Director. "It will be a privilege to recognize these outstanding women this year at the National Women's Leadership Conference and to gain inspiration from their accomplishments."

Tick tock, get your shot

Get your flu shots early for maximum protection

submitted by Erin Rogers

When it comes to addressing health concerns, sooner rather than later is best. With flu season just around the corner, early vaccination is key to protecting you and your family against the nasty flu virus.

"The flu vaccine is one of our best lines of defense against the flu virus," said Cesar Gerez Martinez, MD, a primary care doctor at Seton Family of Doctors plus Express Care. "Get the shot early, before the virus begins spreading in your community."

Protect and Prevent

The flu virus changes from year to year, so does the composition of the vaccine. The Centers for Disease Control Prevention conducts studies each year to determine the most effective vaccine for the season.

The annual needle stick may not be comfortable, but it offers protection for about six months.

"The flu vaccine helps the body create antibodies that provide protection against infection," Dr. Martinez said. "Getting the shot will not only protect you, but others around you throughout the flu season."

Age, illness, or other risk factors may prevent some people from getting vaccinated, so they rely on herd immunity to help keep them protected. When a large population, or "herd," is vaccinated, the possibility of spreading preventable diseases decreases. This creates an extra layer of protection for those who are too young or too sick to be vaccinated.

Risks associated with the flu vaccine are very low. You can't get the flu from the shot.

The most common side effects include redness, mild swelling, or soreness at location of shot. In some cases, people may experience low-grade fever, mild rash, headache and body ache.

Getting the flu shot doesn't always mean you won't get sick, but the immunities already built up from the vaccine can help you weather the illness with more ease.

"If you get sick even after being vaccinated, the symptoms are typically milder," Dr. Martinez said.

Sooner rather than later

The flu virus is active all year, and due to factors such as climate shift and being cooped up indoors more often, the number of infections peaks December through February. Some outbreaks can last into the spring.

The CDC recommends that most anyone aged six months and older can get a flu shot. Talk to your doctor if you have concerns about the flu vaccine.

Tips to reduce the spread of flu

Dr. Martinez emphasizes that getting immunized is key to protecting you and your loved ones against the flu. For additional prevention measures, use these tips to avoid spreading germs:

- Wash your hands and hard surfaces often.
- Don't share food or drinks.
- Stay home if you're sick.

Cesar Gerez Martinez, MD, is at Seton Family of Doctors Plus Express Care, now in your neighborhood 5301-B Davis Lane, Austin TX 78749, at the southwest corner of Mopac and Davis Lane.
