INTRO TO RECIPE CONTEST

We got the great idea from one of our Avery Ranch residents, of having a monthly recipe contest. You can send in your favorite recipes that fit in to our themes for each month. Starting in December our theme will be "Delicious Delights". Send in your Dessert theme recipes by Dec 8th. The winner will be posted in the Jan newsletter.

Should you choose to submit a recipe, you acknowledge and agree to:

1) Include your name and email address on the top right hand corner of the recipe you are submitting. Submit recipes to averyranch@peelinc.com by 8th of each month. In the Subject line state : Monthly Recipe Contest. Recipes posted in this newsletter are attributed to the individual that submitted the recipe.

2) Your recipe is your original work and has not been copied or reproduced from any published or copyrighted source.

3) You grant us and our visitors a royalty-free license to edit, publish, create derivative works from, and otherwise use the recipe, at no charge, in any medium and for any purpose.

We are not responsible for the outcome of any recipe you try. We assume no obligation or liability with respect to these recipes and make no warranties, express or implied, including, but not limited to, the warranties of fitness for a purpose or non-infringement. We are not responsible for any domestic accidents that could result from preparation of the recipes or for any kind of food borne disease. Use your best judgment when cooking with raw ingredients such as eggs, meat, chicken or fish. An adult should supervise children in the kitchen. We assume no responsibility for any typos or other defects in any of the information provided. We are excited to see what you come up with! Good Luck and Get Cooking Y'all!

CENTIPEDES

Centipedes have a single pair of antennae on their head and a long, worm-like body. They have one pair of legs per body segment with the first pair of legs modified to function as claws and are used to capture prey. These claws are sometimes called fangs since they are connected to poison glands that can inject venom to subdue captured prey.

Most centipedes found in Texas are relatively small, but the red headed centipede, *Scolopendra heros*, can reach over nine inches when full grown. The bite of larger species of centipedes may cause extreme discomfort and pain.

Centipedes can live from one to six years. They prefer moist, protected habitats such as under stones, rotted logs, leaves or bark. Winter is spent as an adult and eggs are laid in soil during warm months and are covered by a sticky substance.

Centipedes are predaceous with many species feeding on other arthropods, such as insects. Their modified pair of legs, or claws, is directly under the head, allowing prey to be injected with venom.

Most centipedes can only bite with their poison claws located directly under the head resulting in a bee-like sting; however, *Scolopendra* can harm a person with the sharp claws of its many walking legs. Each walking leg is tipped with a sharp claw capable of making tiny cuts in human skin. A poison produced from the attachment point of each leg may be dropped into the wounds resulting in an inflamed and irritated condition. The best rule of thumb is to never handle large centipedes.

With cooler weather, centipedes may move inside homes to avoid extreme temperatures. Tips to prevent centipedes from sharing your home:

- move objects providing harborage away from the structure such as compost piles, firewood and stones
- create a band of gravel, or similar material between the foundation of the home and any landscape beds that touch the structure
- occasionally turn mulch near structures to allow it to dry out
- seal cracks, crevices, and pipe penetrations with sealant that will expand with our temperature extremes
- repair weather stripping around doors and windows as needed
- properly ventilate crawl spaces or areas under the home to allow for air flow through the area
- use perimeter sprays around a building's foundation

AUTUMN DANCE

By: Sharonna Banks

Falling leaves
The wind through the trees
The brisk bite in the air
Summers gone
The spring far off
Winter lingers near
The autumn leaves upon us
It's the special time of year
Crisp and crunch underfoot
Chill upon your neck
Pumpkin Spice is everywhere Cinnamon too
The smell of the season fills the air and takes hold of you
A time to remember and be thankful for the harvest
A time to recollect about how far the father has brought us
With family and friends around
So close and near
The autumn winds don't feel so cold
It only draws us near.

PERFECT PUMPKIN FRITTERS

If you're like me you have way more pumpkin left over than you know what to do with, after you carve your jack o lantern. While looking online I came across this great little recipe at allrecipes.com It was originally submitted by Dakota Kelly. The Prep time is 5 min, cook time 10 mins, and the delicious treat will be ready in just 15 mins.

Ingredients:

- 1 cup of pumpkin puree
- 1 egg lightly beaten
- 1 Cup of all-purpose flour
- 1 teaspoon of curry powder
- 1 teaspoon of salt
- 4 Cups vegetable oil for frying
- 1 teaspoon baking powder

Here's how you get started:

In a medium sized bowl, combine all ingredients. The pumpkin, egg, flour, baking powder, curry powder, and salt.

Now Mix thoroughly until all smooth.

Next Heat up the oil in a deep saucepan to 325 degrees F. Drop batter by spoonful into hot oil. Fry until golden brown, about 2 minutes. Remove with a slotted spoon, and serve immediately.

I don't know about you but I'm thinking of adding littler powdered sugar to mine while warm. Yum yuum. If you're looking for pictures and more info you can head over to allrecipes.com and search Pumpkin.
