## Maintenance Tips to Get Your Home Ready for Spring

### Prep your home for spring — inside and out.

Maintaining a healthy home goes beyond dusting and vacuuming. When is the last time you checked your smoke alarms? How about the last time you cleaned out your dryer vent? Follow the tips below to make sure your family and home are ready for a happy, clean spring season.

**Clean Gutters** - Grab a ladder, and check your gutters for debris. Remove as much as you can with your hands. Remove any leftover gunk with a garden hose. Take off any nozzle and have a helper turn on the water when you're ready. Shove the hose into the downspout to power out of gooseneck bends. Make sure your downspouts channel water at least five feet from foundation walls.

**Scrub Walls, Baseboards and Outlets** - Scrub all the walls — in the bathroom, kitchen, bedrooms and living areas — with a sponge or brush and mild soap and water. This includes baseboards and outlets. Make sure to completely dry outlet covers before replacing.

**Replace Filters** - Replace all filters including water, range hood and air vent filters. You should replace these filters every 3-6 months depending on the type of filter you have.

**Clean Faucets and Showerheads** - Unscrew the faucet aerators, sink sprayers and showerheads, and soak them in equal parts vinegar and

water solution. Let them soak for an hour, then rinse with warm water.

**Clean Out the Dryer Vent** - A clogged dryer vent can be a fire hazard. To clean it, disconnect the vent from the back of the machine and use a dryer vent brush to remove lint. Outside your house, remove the dryer vent cover and use the brush to remove lint from the other end of the vent line. Make sure the vent cover flap moves freely.

**Wash Exterior Windows** - Pick a cloudy day and first remove the dirt with a brush or vacuum, then pick a glass cleaner to wipe down the windows. Don't be afraid of using too much spray.

**Keep Allergens Away** - Keep dust, mold and pollen at bay by decluttering your home, checking pipes for leaks and keeping the air clean.

**Clean the Grill** - Your grill has most likely collected dust during fall and winter. Help your grill live a long life by giving a clean inside and out.

**Test Smoke Alarms** - Test smoke alarms and CO detectors, and change out batteries as needed. It's cheap, only takes a few minutes and can save your family's lives.

**Clean Outdoor Furniture** - Outdoor entertaining season is just around the corner. There are some basic recipe's you can lookup online for how to get your furniture & cushions to look brand new & ready for your guests.
