Please support the advertisers that make Spring Trails newsletter possible. If you would like to support the newsletter by advertising, please contact our sales office at 512-263-9181 or [advertising@PEELinc.com](mailto:advertising@PEELinc.com). The advertising deadline is the 8th of the month prior to the issue.

## Communications

Thank you to this month's Newsletter Contributors: Malinda Seger. Residents interested in submitting stories or articles for inclusion in the newsletter can do so online at <https://peelinc.com/index.php/submit-an-article/>. Articles are due by the 10th day of the preceding month.

## Easter Egg Hunt

Peter Cottontail made a special visit to Spring Trails April 14th for the annual Easter Egg Hunt. It was a beautiful day for an egg hunt and hundreds of residents and children came to enjoy the fun! Refreshments were served while the children had their photos taken with Peter Cottontail. Families gathered around the hunt areas and eagerly awaited the signal to start hunting for eggs. Peter Cottontail welcomed the children and then gave the signal for the hunt to begin. The children filled their baskets until all the eggs were gone (over 7,500 eggs). Fifty lucky children found golden eggs hidden in their stash of eggs and exchanged them for special Easter baskets.

Once again, this annual event was made possible by the dedicated volunteers who worked many hours to help Peter Cottontail prepare for the hunt! Thank you Lisa and Dylan Benoit, Jan McGlamory, Joyce Zetterberg, Stephanie Cooksey, June Mitschke, Cindy Medchill, Al and Mary Nowak, Ralph and Dolores Jones, Jennafer Howard, Gavin Nutt, Patricia and Carlos Crespo, Larry and Sheila Odom, Gabe Hoke, Susan Skarness, Dorothy and Tony Domingo, Jerry and Marcia Rueschhoff, Events coordinator Ruth Hutyra and several parents and children who stayed to help with clean up. Photos of the event are available on the Spring Trails website.

Let Britny's experience in Spring Trails work for you!

## SPRING TRAILS

### MEMORIAL DAY

Memorial Day is widely celebrated as the beginning of summer, with a long weekend of parties, festivals, and barbecues with friends and family. But above all else Memorial Day is a day to remember the men and women who have died while serving in the United States Armed Forces. As a part of that remembrance, many people visit cemeteries of the fallen to place flags and/or flowers on the graves and participate in activities designed to honor those who have died in service to this nation.

Houston National Cemetery will be open Memorial Day 6:00 am to 9:00 pm. Volunteers will place flags at grave sites Sunday, May 26th starting at 8:00 am for anyone interested in volunteering.

Ribbons will be available at the Visitor's Center the week of May 19th. Residents are invited to write the name, rank and/or branch of service of a fallen family member or friend on the ribbon. The ribbons will be tied around trees along the front entrance esplanade and in front of the Visitor's Center May 24th through May 31st.

## Congratulations Graduates!

Congratulations Spring Trails 2019 graduating seniors! Graduation is an exciting time. It marks both an ending and a beginning. It's warm memories of the past and big dreams for the future. Whatever endeavor you choose to pursue, be confident, be determined, and enjoy your journey.

## ARC Spotlight

1. Gabled and hipped roofs of uniform pitch are preferred.
2. Minimum acceptable roof pitch shall be 4 in 12.
3. Roof edges shall have a minimum 6" overhang.
4. Asphalt shingles must be a minimum weight of 240 pounds and must be dimensional/architectural cut.
5. Color to approximate Timberline Weatherwood in appearance.
6. All roof penetrations including flashing and ventilators shall be painted to match the approved roof colors.
7. Copper roofing on accept areas is permitted.
8. Solar devices are permissible only on rear or side elevations, excluding those side elevations on corner lots or rear elevations facing a greenbelt or neighborhood perimeter.
9. Location of all skylights shall not be permitted on the front slope of any roof.

Check out these and other residential guidelines at [www.springtrails.com](http://www.springtrails.com), under the Documents menu.

# ANDERSON

## ROOFING & RESTORATION

### WIND & HAIL CLAIM SPECIALIST

#### 5 ★ RATED ROOFING COMPANY

# 713.898.7496

[info@andersonroofingandrestoration.com](mailto:info@andersonroofingandrestoration.com)

[www.andersonroofingandrestoration.com](http://www.andersonroofingandrestoration.com)

Call today for a **FREE** Inspection to see if you might qualify for a new roof from an Insurance claim or have a leaking roof in need of repair. Locally owned and operated, fully insured, GAF Master Elite, Susan and Clint offer free no obligation inspections for your roof from leaks, weather related damages from Hail etc., to basic roof maintenance. We work closely with insurance carriers to help you through the claim process if needed!

**(We are still working Insurance claims for hail or wind damage in Spring Trails...)**

## HOA Updates

### Community Pool

Bashan's Painting & Home Repair was contracted to repair and repaint the exterior of the pool house, recaulk fixtures and repaint the pool restrooms.

Effective immediately, the public restroom located at the rear of the pool house will be locked nights and weekends. Access to the pool restrooms will be available to residents using their amenity access cards.

Swimming season begins the first weekend of May. DS Recreational Services will be servicing the pool and providing lifeguards throughout the summer swimming season. The pool will be closed Mondays for cleaning. Residents who wish to use the pool while lifeguards are not present must sign an indemnity waiver and submit it to Inframark. The indemnity waiver, pool hours and rules are available on the Spring Trails website, under the Amenities menu.

### Wild Hogs

Video and photographs were presented to the Association showing adults and minors with their dogs walking into and

around the hog traps. Human and canine scent will and has caused the hogs to avoid the traps and surrounding areas. The locations of the traps are not publicized so as to stem curiosity. Residents who happen upon a trap are reminded to avoid walking and loitering around the hog traps and not to enter the traps for any reason.

## Committee Updates

The Spring Trails Board of Directors is establishing new committees and opportunities for members to get involved. The focus of these committees will be review of the Association's governing documents, and prospective capital improvements to community parks and facilities. Outlines of these committees will be posted to the Spring Trails website. Members and residents interested in participating in committee activities are encouraged to contact the Spring Trails HOA Board of Directors through Request Manager on the Spring Trails website.

## Hurricane Preparedness

May 5th - 11th is National Hurricane Preparedness Week.

Visit <https://www.weather.gov/wrn/hurricane-preparedness> for steps you can take to protect your family, home and business.

Hurricane season officially starts on June 1 and ends November 30. Spring Trails' property management and the Board of Directors have reviewed and updated the Association's disaster preparedness plan which outlines pre- and post-event activities to secure and subsequently evaluate Spring Trails' amenities, common areas, and gated assets.

While residents of Spring Trails are all too familiar with the effects of hurricanes, self-evaluation of emergency supplies and household readiness is recommended every year. Residential disaster plans can vary and should be tailored to meet the specific needs of each family. The National Weather Service, State of Texas and City of Houston offer free resources, guides and checklists to help you develop your plan.

- National Weather Service @ [www.weather.gov](http://www.weather.gov)
- State of Texas, Disaster Preparedness @ <https://emergency.portal.texas.gov/>
- City of Houston Office of Emergency Management @ [www.houstonoem.org/preparedness-are-you-ready/](http://www.houstonoem.org/preparedness-are-you-ready/)

## Secure Important Documents

- ☐ Insurance papers (remember to verify coverage with your agent)
- ☐ Medical records
- ☐ Bank account numbers
- ☐ Social Security cards
- ☐ Deeds or mortgages
- ☐ Birth and marriage certificates
- ☐ Passports
- ☐ Stocks and bonds
- ☐ Recent tax returns
- ☐ Wills
- ☐ Pet immunization records
- ☐ Photos of your family and pets
- ☐ Photos of your valuables

## Evacuation Plan

- ☐ Plan a route out -- Visit the Texas Department of Transportation's website at [www.txdot.gov](http://www.txdot.gov), click the Inside TxDOT link, for updated evacuation routes.
- ☐ Plan for transportation
- ☐ Plan for lodging
- ☐ Plan for your pets
- ☐ Assemble a go-bag (refer to Shelter-in-Place checklist)

## "Shelter-in-Place" Disaster Kit:

- ☐ Cash
- ☐ Water (potable) -- one gallon per person (and pet) per day
- ☐ Food -- non-perishable packaged or canned food and juices
- ☐ Cooking -- grill, charcoal/propane, pot or pan
- ☐ Matches/Lighters
- ☐ Radio (battery powered) and with extra batteries
- ☐ NOAA weather radio with extra batteries
- ☐ Blankets, pillows, etc.
- ☐ Clothing -- seasonal, rain gear/ sturdy shoes
- ☐ First Aid Kit -- including prescription medicines
- ☐ Special items -- for babies and the elderly (diapers, bottles, spare oxygen tanks, etc.)
- ☐ Toiletries -- hygiene items, moisture wipes, sanitizer
- ☐ Flashlight and batteries and/or candles
- ☐ Keys
- ☐ Gas -- fill spare gas cans and your vehicles.
- ☐ Tools -- duck/duct tape, rope/straps/bungees, tarps, basic tool kit
- ☐ Toys or books for children
- ☐ Pet care -- food and water, medicine, carrier/cage, leash

## The Killdeer - A Skilled Actor

By Cheryl Conley, TWRC Wildlife Center

A concerned citizen who came across a nest on the ground with eggs in it and an injured mama nearby contacted us via Facebook. The lady wanted to know what she could do to help. She posted pictures to help us identify the bird. Not being familiar with the hundreds of bird species we have here, I reached out to our former Executive Director who not only identified the bird but also shared some interesting information about the species.

The bird was a Killdeer. They find small depressions in the ground and build their nests with sticks, grass, weeds, shells or rocks. Their nests can be found in parking lots, golf courses, lawns, athletic fields, etc. Their nests are often overlooked because they are almost level with the ground around it. What makes this bird so fascinating is that females will fake injuries to lure predators away from their nests. As a predator approaches, she will drag herself farther and farther away from her nest continuing to fake her injuries. It's also been observed that she may roll completely over, pant and gasp for air—all an act. Another tactic they use to protect the nest is by pretending to build a nest. When a predator approaches the real nest, the Killdeer will move away, find a depression in the ground and pretend to be covering her non-existent eggs. As the predator approaches the fake nest, the Killdeer will leave only to repeat this fake-out until the enemy tires of her games and flies away.

Sometimes groups of Killdeer get in on the action of chasing away real or perceived predators. The first one to spot the enemy will fly very close to the face of the animal while making a loud, shrill cry as if to be yelling at it. Soon others join in with the same loud cries. In most cases, this is enough to scare anything away.

Because Killdeer build their nests on the ground, it can take up to six attempts in a season to successfully hatch their eggs. Pesticides, other lawn chemicals and cats are the biggest threats.

The Killdeer is a member of the plover family. Plover, as defined by the Free Dictionary, is, "Any of various widely distributed shorebirds of the family Charadriidae, having rounded bodies, short tails, and short bills". Although defined as a shorebird, it's equally happy in dry or wet locations. It is classified, as migratory but is a year-round resident in most areas of Texas.

According to Texas Parks and Wildlife, the Killdeer is one of the noisiest birds in America. Their name was derived from their call—a loud "KILL-DEER".

Nature is amazing, isn't it?

*TWRC Wildlife Center invites you to like our Facebook page. You'll find useful information, cute photos and a community of great people who love nature and wildlife: <https://www.facebook.com/TWRCWildlifeCenter>*

## Mosquitoes

Mosquitoes can not only be irritating by biting, but they also are able to transmit various diseases to humans and animals. They are known to transmit heartworm in dogs and cats, and they can spread encephalitis (including West Nile Virus), Chikungunya, Zika, dengue, yellow fever, malaria and filariasis among humans.

Most female mosquitoes require a blood meal for egg production whereas males feed on nectar and do not bite. Eggs are laid on the surface of water or in dry locations that can be flooded by water. Eggs laid in dry locations can remain dormant under for several

months. Eggs hatch into larvae, or wigglers. Mosquito larvae live in water and feed on organic debris or microscopic plants and animals. Larvae molt into pupae which are non-feeding. Mosquito pupae spend the majority of their time at the surface of the water, only moving when disturbed.

Many things can help to reduce mosquito problems around the home. Since three of the four life stages of mosquitoes are in or near water, it is best to eliminate all sources of standing water. Containers such as watering cans, buckets and bottles can turn into mosquito breeding grounds. Water should be drained from birdbaths, gutters, flowerpots and pet dishes at least once a week. Children's wading pools should be emptied of water at least once a week and stored so they cannot collect water when not in use. Tree holes should be filled in with sand or mortar, or drained after each rain. Leaky faucets and pipes located outside should be repaired.

Areas that cannot be drained, such as ponds or large rain collection systems, can be stocked with fish that eat mosquito larvae. Dunks can also be used in these areas. Dunks are a small, donut-shaped product that contains *Bacillus thuringiensis* var. *israeliensis*. The donut disrupts the life cycle of the mosquito and is non-toxic to humans, amphibians and fish.

Cypress, TX 77429

(Continued from Page 12)

Avoiding outdoor activities during peak mosquito hours is the best method to avoid being bitten. When outside, wear loose-fitting, light colored clothing with long sleeves & long pants. Repellants containing active ingredients such as DEET, picaridin, IR3535, oil of lemon eucalyptus (OLE), para-methane-diol (PMD), or 2-undecanone can be effective to keep mosquitoes from biting when evening activities cannot be rescheduled.
