Participants of all ages and abilities completed the 5k run along the park paths. Many families came out to run together.

"It was a great event all around", states Lanie Marcotte, Executive Assistant with the Bee Caves Parks and Rec Department. "We had great weather, great volunteers and great sponsors. We wish to thank Nitro, Aquatic Ms Fit, Juice Plus, AusTex Med Spa, StretchZone and P Terry's."

Proceeds benefitted the Bee Cave Friends of the Parks Foundation, a newly formed group whose mission is to encourage community participation to improve and maintain Lakeway's City Parks and Greenbelts.

Lake Travis Film Festival

Lake Travis Film Festival

www.laketravisfilmfestival.com

An extraordinary new event in the Bee Cave/Lakeway area, the Inaugural Lake Travis Film Festival, will be held February 27-March 1, 2020. After a year of identifying volunteers and engaging community members to create this important event, the festival is now gearing up for submissions from filmmakers and

screenwriters across the globe on June 1st, 2019.

Using the online submission platform Filmmaker Freeway (<https://filmmakerfreeway.com/LakeTravisFilmFestival>) submissions will be open on June 1st and there are early bird discounts for submitting early.

Awards will be given in the following categories:

- Best Feature Film
- Best Short Film
- Best Documentary
- Best Short Documentary
- Best Student Film
- Best Music Video
- Best Texas Film
- Best Feature Script
- Best Short Script

While we hope to showcase up and coming talent from the global stage, we know there's a lot of good filmmaking happening right here in Central Texas too.

In addition to film we especially hope to spotlight music with our music video category and might have local bands play at our event.

Lake Travis is a family area and LTFF will have a special track of screening just for young filmmakers.

LTFF volunteers will spend part of their summer watching videos and reading scripts. Once the programming and screenwriting competition committees have compiled their lists, the submitters will be invited to the area and we'll put together our program.

It's not too late for new volunteers. "We are looking for volunteers in the community to help us and you don't need any special qualifications. We need logistics people as well as film screeners and people willing to help plan events," says festival executive director, Kat Albert.

The most recent information will always be on our facebook page at <https://www.facebook.com/LTFF78738/> or you can check out the web site at www.laketravisfilmfestival.com and remember to check out our Instagram too.

Attention Parents of Graduating Seniors!

Important Tips for Landscape Watering:

Get on the correct schedule as soon as possible. If you have an irrigation system, make sure it's in good working order and the settings are adjusted correctly. Check to see if your system is set to run more than one cycle per day.

Calculate and understand how much water your irrigation system is using each time it runs a full cycle. You can do this several ways.

• **Exact Calculation** - Shut off all inside uses, take a meter reading, run a full irrigation cycle and then take another meter reading. Subtract the first reading from the second to get the exact number of thousand gallons used per each cycle.

• **Approximate Calculation** - Add the total number of run minutes for all zones then multiply by 12 gallons per minute (average system use) to get the approximate amount of thousand gallons used for one cycle.

Examples: 8 zones x 50 minutes per zone = 400 minutes per cycle
400 minutes x 12 gallons/minute = 4,800 gallons per cycle

If you then water two (2) times per week –

4,800 gallons/cycle x 2 cycles per week = 9,600 gallons per week

If you water two (2) times per day on both watering days, (2 cycles/day) you are watering four (4) cycles per week -

4 cycles/week x 4,800 gallons/cycle = 19,200 gallons/week

19,200 gallons/week x 4 weeks = 76,800 gallons/month

Add the amount calculated to your estimated use in the home (approximately 4,000 – 5,000 gallons per month for two persons) to determine your total approximate usage.

If you think your usage is too high, lower the number of minutes watering each zone runs. Should your first spring bill seem too high, pull out this sheet and recalculate your usage. Still have questions; give WCID 17 staff a call to help you out: 512-266-1111.

Portable Fire Extinguishers

A portable fire extinguisher can save lives and property by putting out a small fire or containing it until the fire department arrives; but portable extinguishers have limitations. Because fire grows and spreads so rapidly, the number one priority for residents is to get out safely.

Use a portable fire extinguisher when the fire is confined to a small area, such as a wastebasket, and is not growing; everyone has exited the building; the fire department has been called or is being called; and the room is not filled with smoke.

To operate a fire extinguisher, remember the word PASS:

- **PULL** the pin. Hold the extinguisher with the nozzle pointing away from you, and release the locking mechanism.
- **AIM** low. Point the extinguisher at the base of the fire.
- **SQUEEZE** the lever slowly and evenly.
- **SWEEP** the nozzle from side-to-side.

For the home, select a multi-purpose extinguisher (can be used on all types of home fires) that is large enough to put out a small fire, but not so heavy as to be difficult to handle.

Choose a fire extinguisher that carries the label of an independent testing laboratory. Read the instructions that come with the fire extinguisher and become familiar with its parts and operation before a fire breaks out.

Install fire extinguishers close to an exit and keep your back to a clear exit when you use the device so you can make an easy escape if the fire cannot be controlled. If the room fills with smoke, leave immediately.

Know when to go. Fire extinguishers are one element of a fire response plan, but the primary element is safe escape. Every household should have a home fire escape plan and working smoke alarms.

Offering both 1 on 1 and small group (3-5 athletes) wide receiver development training sessions weekly throughout Austin and the surrounding areas.

Mission statement: To take what I've learned from playing at both the collegiate and professional level and bridge the gap between what's being taught at the highest level of play to those even as young as 4th grade.
