# Hurricane Preparedness

Each year NOAA and the American Red Cross publishes a preparedness guide of tropical cyclones to help us prepare for such an emergency. You can download a copy of that guide at <http://www.nws.noaa.gov/os/hurricane/resources/TropicalCyclones11.pdf>. This guide gives great information on the metrological terms associated with tropical storms and what to expect from those storms. Most importantly, it lists critical information about how to prepare for an incoming storm.

Guidelines each year prior to hurricane season:

- Determine safe evacuation routes inland
- Learn locations of official shelters
- Check emergency equipment such as flashlights, generators and battery powered equipment such as cell phones and your NOAA Weather Radio All Hazards receiver.

- Buy food that will not spoil and store drinking water.
- Buy plywood or other material to protect your home if you don't have it.

- Trim trees and shrubbery so branches don't fly into your home.
- Clear clogged rain gutters and downspouts.
- Decide where to move your boat if applicable.
- Review your insurance policy.
- Find pet friendly hotels on your evacuation route.

During the storm and when Pearland is in the warning area, you should:

- Closely monitor radio, TV or NOAA Weather Radio All Hazards for official bulletins.
- Close storm shutters.

- Follow instructions issued by local officials. Leave immediately if ordered.

- Stay with friends or relatives at a low-rise inland hotel or at designated public shelter outside of the flood zone.

- DO NOT stay in a mobile home or manufactured home.

- Notify neighbors and a family member outside of the warned area of your evacuation plans.

- Take pets with you, but remember that most public shelters do not allow pets other than service pets for people with disabilities.

- Identify pet friendly hotels along your evacuation route.

If you are staying home to "hunker" out the storm:

- Turn refrigerator to maximum cold and keep it closed.

- Turn off utilities if told to do so by authorities.

- Turn off propane gas tanks.

- Unplug small appliances.

- Fill bathtub and large containers with water in case clean tap water is unavailable. Use water in bathtubs for cleaning and flushing only. Do NOT drink it.

- Stay away from windows and doors, even if they are covered. Take refuge in a small interior room, closet or hallway.

- Close all interior doors. Secure and brace exterior doors.

- If you are in a two-story house, go to an interior first floor room.

- If you are in a multi-story building and away from water, go to the first or second floor and stay in the hallways or other interior rooms away from windows.

- Lie on the floor under a table or other sturdy object.
