55+ Living Options

Series of Free Educational Seminars Provide Answers to Late-Life Issues

According to the AARP: "By 2030, one in every five Americans will be over age 65, and our nation will face a severe shortage in appropriate housing to meet their needs." This stark truth is one of many topics that face, such as Liquidating the "Stuff", Buying, Building, or Remodeling your "final" home or selling your home "As is".

These topics, along with others, will be presented in the upcoming over 55 seminar series as 90-minute monthly educational seminars. Adults 55+, seniors, and caregivers are invited to attend the free "55+ Living Options" seminar to learn the actual facts about issues related to home ownership and post-retirement living in the Austin area.

More and more retirees of all ages are relocating to active adult and senior living communities all around the country. You may be considering such a move yourself, but just aren't sure what the fuss is all about!

During this 90-minute panel discussion, you will learn the facts about local 55+ living options from some of the most knowledgeable and experienced professionals in the industry. We will cover locations, amenities, and costs for both purchase and lease options for those 55 and older.

This seminar will be held at two different locations:

*July 10 @ 10:30 AM at Onion Creek Club, 2510 Onion Creek Parkway, Austin, TX 78747

*July 16 @ 10:30 AM at Laura Bush Community Library, 9411 Bee Cave Rd, Austin, TX 78733

This series of candid conversations and expert panel discussions about the unique and often complex issues facing long-time homeowners is to be moderated by Cyndi Cummings, considered the leading authority on issues related to downsizing, late-life relocation and (55+) senior living solutions in Austin.

Cyndi has made it her mission to educate and guide both consumers and professionals on best practices related to post-retirement living.

This month's speakers are John Redford, John Brown, and Cyndi Cummings. John Redford has worked as an Executive Director or Regional Operations Director. John is currently the Executive Director at RCM Senior Living at Village on the Park Onion Creek.

John Brown spent 39 years in the pharmacy business. "As a caregiver for my mother as she progresses through the later stages of dementia with added complex medical conditions, I've learned first-hand the challenges facing families during these difficult transitions."

While Cyndi Cummings, Realtor, works with people of all ages, she specializes in helping older adults (those 55+), senior citizens, and their caregiver families navigate the unique challenges that face boomers and seniors when they contemplate a late-in-life move.

The 55 Plus Seminars Series continues with "Liquidating the Extra Stuff" on August 12 and 16 and "Buying, Building, or Remodeling your Last House" on September 11 and 17. More topics will be introduced as the series continues.

Photo: Black Witch

Commonly known as owlet moths, cutworms, or armyworms, moths in the Noctuidae family make up one of the largest families of Lepidoptera. The word Noctuidae is derived from the Latin word noctua meaning ‘little owl’ and the largest moth in this family in the continental United States is the Black Witch (*Ascalapha odorata*).

The Black Witch moth has been known as mariposa de la muerte or ‘butterfly of death’ since the time of the Aztecs, when it was believed that they were harbingers of death. With a wingspan of up to 6 inches, its upperside is mottled dark brown to grayish-brown with hints of iridescent purple and pink, and females, which are slightly larger and lighter in color than males, have a pale almost lavender-pink median band through both fore and hind wings.

Common to abundant in the New World tropics as far south as Brazil, the Black Witch flies year-round in south Florida and the Rio Grande Valley of Texas. In June and July, summer monsoons in Mexico trigger this fabulous creature to migrate north through Texas, where it is often found roosting in garages, under eaves, or under bridges. It has the ability to migrate great distances over bodies of open water, such as the Gulf of Mexico, and one specimen was recorded in 1903 in Leadville, Colorado, caught in a snowstorm on the Fourth of July!

Primarily nocturnal, the adult Black Witch is attracted to light and fermenting fruit. Its larvae feed at night on a variety of cassias, acacias, ebony, mesquite, and other woody legumes, and rest during the day hidden under bark and branches. Up to 3 inches long, its caterpillar is dark gray tinged with brown, with a pale stripe down the back and dark stripes down the sides, and it relies on this natural camouflage to make it difficult to spot. Pupation occurs on the ground in scattered leaf litter within a fragile cocoon. Black Witches breed year round in overlapping generations, and their adult stage is thought to last only three or four weeks.

At first glance, this very large moth is often mistaken for a small bat hovering around a porch light, but it will eventually land and linger for several hours if undisturbed. If this happens to you, you can only hope that the South Texas legend of the Black Witch is true, as it states, “If a Black Witch lands above your door and stays there for a while, you could win the lottery!”

"Producing this show is a historical moment for the TexARTS Professional Series. We often get the opportunity to feature Academy alumni in our professional shows, but showcasing talented young actresses training in the academy will show the community the excellence in arts education training TexARTS is providing area youth," said Jarret Mallon, TexARTS executive director and executive producer.

"TexARTS is a place that prides itself on introducing musical theatre to performers of all ages. *Annie* gives us the opportunity

for musical theatre students to have rehearsal and stage time with professional actors and creatives. Our talented cast of professionals are role models for many of our academy students," said Mallon.

Joey Banks directs the show. A professor of theatre at Southwestern University, his work as an actor and director has earned him multiple B. Iden Payne and Austin Critics Table Awards nominations. New York-based choreographer, Christopher Shin from the Broadway production of *Mary Poppins* returns to TexARTS for his second summer in Lake Travis. His energetic show-stopping choreography was last seen in TexARTS' *Grease*. Award-winning music director, Susan Finnigan serves as the production's musical director.

Beat the Heat, Donate Blood and Catch a Movie

The Lakeway Community Blood Drive is just around the corner. It's not only an opportunity to donate blood in some fresh air conditioning, but all participants will get the chance to relax with a free movie pass from Alamo Drafthouse Cinemas. One ticket will be available per donor.

The upcoming event will be held from 8 a.m. to 12 p.m. on July 20 at the Lakeway Activity Center located at 105 Cross Creek. Blood collected at this drive is dedicated for use in the 10-county area surrounding Travis County. Donors will know that they are helping others – maybe saving a life – and getting a movie reward for their efforts.

Details:

Who: We Are Blood (weareblood.org) **What:** Lakeway Community Blood Drive **When:** Saturday, July 20 from 8 a.m. to 12 p.m.

Where: Lakeway Activity Center @ 105 Cross Creek

Why: Helping those who may be in need

Prospective donors with appointments are given priority during the donation process. Walk-ins are welcome, too. Donors who are unable to schedule an appointment at their desired time may email the coordinators, at the address below, to be added to a standby list.

Donors need to be in generally good health, at least 17 years old and weigh 115 pounds or more for whole blood donations. Photo identification is required. Organizers recommend donors eat a good meal and drink plenty of fluids beforehand.

If you're interested in scheduling an appointment or for more information, visit weareblood.org and search Group Code A197. You can also email the coordinators at LakewayCommunityBloodDrive@gmail.com. The website also includes useful information regarding eligibility and answers to other FAQs. If you've traveled internationally lately, had a recent vaccination, or are currently taking antibiotics or other medications, take a look and see what might or might not impact your ability to donate.
