## TexARTS Professional Series Presents Little Shop of Horrors October 4- October 20, 2019

The TexARTS Professional Series presents Little Shop of Horrors with book and lyrics by Howard Ashman and music by Alan Menken. Performances take place October 4-20, 2019 at the Kam & James Morris Theatre in Lakeway.

Broadway's J. Quinton Johnson returns to TexARTS to make his directorial debut. Since performing as Sky Masterson in TexARTS' 2015 production of Guys and Dolls, Johnson has made his Broadway debut in Hamilton and originated the role of Bobby Marrow in Tony-Nominated Choir Boy. From ABC's musical reboot of Dirty Dancing to Amazon Studios feature Last Flag Flying opposite Bryan Cranston, Steve Carrell, and Laurence Fishburne; Johnson has an impressive theatrical and film resume to which he can now add directing to.

Joining the creative team is Val Williams as choreographer. Williams was last seen in TexARTS' The Unexpected Guest and has choreographed TexARTS Academy shows. Lyn Koenning serves as the music director for the production. Last heard in Xanadu, Koenning has also worked on The Marvelous Wonderettes and Smokey Joe's Cafe at TexARTS.

The delicious sci-fi smash musical, Little Shop Of Horrors has devoured the hearts of theatre goers for over 30 years. The rock musical was inspired by the much darker and far less intentionally campy 1960 Roger Corman film of the same name.

*Michael Wheeler*

*Leigh Sauvageau*

## Health and Wellness

### Here's What Happens When You Eat Grapes for Two Months

The near-magic of grapes lies in their potent combination of vitamins, minerals, fiber, protein, and antioxidants. From disease prevention to better memory to a longer life, there is little that grapes can't do. They can even be used to chill drinks without watering them down like ice does.

#### 1. Disease Prevention.

Antioxidants are highly beneficial compounds that help repair cellular damage caused by harmful free radicals. Grapes contain many types of antioxidants, primarily in the skin. Red grapes have the highest level of antioxidants, including the polyphenol resveratrol, which has been credited with significant heart-healthy benefits. It also regulates blood sugar and lowers your risk of developing cancer and diabetes.

#### 2. Better Eye Health

The beneficial compounds in grapes may also help protect your eyes from common degenerative diseases. In test tube studies, resveratrol also protected human retinal cells from damage due to ultraviolet light. Grapes also contain a pair of antioxidants called lutein and zeaxanthin that further shield your eye health, especially from the blue light that comes from your phone.

#### 3. Slower Ageing

Certain plant compounds found in grapes, including resveratrol, have been found to affect aging and lifespan. While resveratrol handles your insides, the vitamin C in grapes helps to keep your skin healthy. It plays an important part in the production of collagen, the substance that keeps skin smooth, elastic, and wrinkle-free.

#### 4. Decreased Inflammation

Chronic inflammation is the hallmark of diseases like arthritis, but is actually a factor in every disease. Grape powder has featured in several studies that look at inflammation. In one study of 24 men with metabolic syndrome (a group of risk factors for type 2 diabetes and cardiovascular disease), a daily dose of grape powder equivalent to 1.5 cups of fresh grapes was found to significantly raise the level

of anti-inflammatory compounds in their bloodstream.

#### 5. Sharper Memory

One 12-week study done on 111 healthy older adults found that 250 mg of a grape supplement each day noticeably improved upon baseline scores for a cognitive test. Another study revealed that 8 ounces of grape juice per day can both boost your mood and increase your speed of memory recall.

#### 6. Improved Bone Health

Grapes provide many of the minerals critical to bone health, vitamin K being chief among them. Vitamin K plays a strong role in keeping calcium inside your bones, preventing it from leaching out into the bloodstream. In a nice kind of synergy, grapes also contain some calcium, as well as phosphorus, magnesium, potassium, and manganese.

#### 7. Bolstered Immune System

There are several compounds in grapes that can protect against viral and bacterial infections, including good old vitamin C and the magnificent resveratrol. With a daily dose of grapes, you too can become one of those annoying people who never seem to come down with the seasonal cold or flu. Grapes may also offer some protection against food-borne illnesses. (From RobHealth)

# HOME DECOR 101

## Decorating with Bold Colors

**F**rom dark and moody to vibrant and bold, colorful design is gaining favor among homeowners ditching safe, neutral palettes to create more daring, dramatic spaces.

Decorating with deeply saturated colors can be intimidating. Explore these ideas to welcome more bold colors into your home and create inviting spaces for living and entertaining.

### WALLS OF COLOR

Say goodbye to beige and embrace the bold color trend by enhancing walls with hues that make a statement. The trick is to avoid making colors so loud that the space loses its stylish appeal. Bold doesn't necessarily mean bright, so look for muted variations of the shades you prefer. Also remember that when it comes to design, there is such a thing as too much. If painting all the walls in a space will close it in or make it feel lost in the dark, try adding color in more subtle ways, such as an accent wall (or two), or painting the ceiling as your accent. Another option for implementing vibrant wall color: stick to smaller rooms, where the bold look is less likely to be overwhelming.

### Unexpected Pops of Color

Designers often talk about adding pops of color to bring together a palette, but there are no real rules about where those color enhancements can or should be. Introducing vibrant color in unexpected places can be an especially impactful way to stylize a room. One example is with a skylight blind, which provides a decorative element while also allowing for light control. If you prefer a trendy option like combining dark colors with metallic accents, consider options such as a metallic gold skylight blind from Velux to connect to the room decor below. More than 80 color and pattern choices heighten the drama of a skylight blind, and you can choose from features like room darkening, light filtering and Venetian-style blinds to add function as well.

*(Continued on Page 11)*

(Continued from Page 10)

## ILLUMINATE COLOR WITH NATURAL LIGHT

When decorating with statement colors, remember that lighting can make a significant difference in the overall aesthetic. In addition to lighting fixtures, be sure to incorporate plenty of natural light to bring out the best in those bold hues.

To bring natural light deeper into the space, consider skylights as an option with a solution such as Velux No Leak Solar Powered Fresh Air Skylights, which can bathe the space in natural light and open to bring in fresh air. Another smart way to capture natural light is by installing an option like Sun Tunnel skylights. With their low-profile design, they create a sleek appearance, and installation is also quick and easy. Learn more at [whyskylights.com](http://whyskylights.com).

## BOLD FURNISHINGS

An often overlooked but essential component of design is the furniture. Creating a colorful, inviting room doesn't stop with the walls and floors; what's in the room can bring the colors to life. Think of the space and all its contents, not just the architectural components, as your canvas for creating the space you envision. If you're hesitant to invest in a pricy couch in a trendy hue, a compromise might come in the form of a richly colored accent table or chair.

## CREATIVE CABINETRY

Traditional wood grain cabinetry sometimes gives way to far more creative color schemes in kitchens and bathrooms. While white is still a popular choice, and can even be considered bold in the right setting, true color on cabinets is also gaining traction among homeowners. With the right backsplash, countertops and flooring, you can safely install cabinets in a uniform color throughout the kitchen, but another on-trend option is to reserve the color for an island base or just one wall of cabinets. You could even mix and match colors on the tops and bottoms. Detail elements like the hardware provide another opportunity for a bold look. You can enhance the room's design with standout pulls that lend extra vibrance to the space.

## FABRIC WITH FLAIR

Textiles provide nearly unlimited options to balance a bold design. Using lighter fabrics for elements such as draperies, upholstery, rugs and decorative pillows can soften the feel of a room with bold tones. Look for subtle patterns that pull in hints of the deeper hue to bring the look together, or simply coordinate shades from complementary color families.

## Wedding Planning 101

*Photo courtesy of Getty Images*

First comes the proposal then comes the wedding planning. There are dozens of decisions that need to be made before it's time to walk down the aisle, which can be overwhelming for brides and grooms.

To help make it less stressful, these tips from Macy's can help couples through the entire wedding-planning process, from on-trend apparel and accessories for the entire wedding party to all the essentials to create a perfect registry.

### **Dressing the Ladies**

When it comes to bridesmaid dresses, the mix-and-match approach is trending in popularity. Start by deciding on a color palette, such as lilac, champagne and petal pink. Then have each bridesmaid choose her favorite style within that range of hues. Bring it all together by choosing a uniform look for makeup, shoes and accessories.

There is no better time to thank the ladies than the morning of the big day. A few thoughtful gifts can go a long way, such as matching robes, tumblers to stay hydrated throughout the day and cosmetic cases to stow makeup essentials.

### **Dressing the Gents**

Similar to bridesmaid dresses, groomsmen attire can be dependent

on the venue and overall event aesthetic. While a suit can fit the bill for a country club wedding, a city affair may call for the sleek finishes of a tux. Tuxedo accessories, such as cuff links or bow ties, make great groomsmen gifts and are classic pieces they can use time and time again.

### **Creating the Perfect Registry**

When building a registry, it's never too early to start. People want to give gifts as soon as they know a couple is engaged. Start by taking inventory of what you already have, what you need and what you want to upgrade. It's also recommended to update the registry regularly so there are enough gifts to choose from, especially if there is an engagement party and bridal shower coming up. To get started, some popular registry items include stand mixers, craft beer glasses, Dutch ovens, bath towels and vacuums. For extra guidance, couples can speak to advisors who can help with the full registry building process at Macy's stores.

## Start the School Year Off Right

As kids head back to school, it's important to provide them with the necessary resources to succeed. As a parent, you can take steps to put your kids on the path toward a successful school year.

To help your children put the best foot forward, consider these suggestions from The Salvation Army, which operates hundreds of low-cost after-school programs for kids of all ages in low-income neighborhoods across the country and understands the importance of setting children up for success all year.

**Get back into a routine.** During the summer months, family routines tend to slide, especially morning rituals and bedtime habits. A few weeks before school starts, begin transitioning your way back to a normal school schedule. A gentle progression toward earlier bed and wake-up times is easier on kids physically and mentally. Try adjusting by 15 minutes each day until you reach the optimal schedule for your family. Remember that routines aren't just about the clock, though. If there are certain steps that are part of the school year routine, such as packing lunches and laying out clothes for the next day before bed, make those part of your transition plan, too.

**Set a good example.** Kids learn important behavioral lessons by watching the adults in their lives. The back-to-school season provides many opportunities to demonstrate compassion and social responsibility. For example, giving back to an organization like The Salvation Army helps provide funding for programs that support the educational needs of children who otherwise may not have access to the same resources.

**Research resources for homework help.** Discovering your child is struggling in school can be overwhelming. You'll want to be able to pull in help as quickly as possible, so it's a good idea to research resources in your area that can help provide support outside the classroom. Your school likely has some options available, but it's a good idea to also look into tutoring programs and other community services that encourage literacy and study skills as well as provide one-on-one assistance with homework and school assignments.

**Get organized.** The first few weeks of school typically bring plenty of change and adjustment. You can help manage the stress by creating

some structure. Use a wall calendar to keep track of school start and dismissal times, bus pick-up and drop-off times, after school activities and other appointments. Review lunch menus and plan ahead so you're not finding out at bedtime that you need to pack a home lunch in the morning. Stock up on breakfast foods and make time to catch up on laundry before school begins so hunger and wayward socks don't derail your mornings.

**Explore extra-curricular programs.** With the new school year comes numerous ways to enrich your kids' social and cognitive development. Extra-curricular activities let kids continue practicing skills even after the school bell rings, but in a fun environment so they may not even realize they're still learning and cultivating healthy, safe relationships with friends. In addition to sports and clubs, a wide array of music and art education activities may be available that focus on everything from choir, band and dancing to drawing, writing and acting.

**Set goals.** Begin the school year by encouraging your children to take ownership and pride in their learning. Talk about goals like reading a certain number of books each month or earning grades that reflect their highest potential. Get kids motivated by designing goal boards or charts that can serve as daily reminders and track their progress. For larger goals, consider setting milestones so they can celebrate progress along the way and stay motivated for a big finish.
