September 2019

No. 9

Oyez! Oyez! Oyez!

Graham Management Company will soon be mailing out the official Notice of Annual Meeting of Members which notifies members of the date, time and location of this meeting. Unless otherwise notified, this year's meeting will be held at the Willowbridge Clubhouse, 9330 Willowbridge Park Blvd., Thursday, October 24th at 6:30 pm.

The annual meeting requires a quorum of 10% (83 homeowners) of the votes of members (property owners) to conduct official business. Members/property owners must be either present in person or by Proxy. If you are unable to attend, your Proxy becomes very important for purposes of establishing a quorum. The official Proxy you receive allows you to let the Board of Directors vote for you. A second option allows you to appoint a Designated Proxy (a trusted member such as a neighbor that attends the meeting) to vote for you. If you choose to appoint a Designated Proxy other than the individual named on the Proxy you MUST fill in the name of your Designee, otherwise the voting privilege is negated and your Proxy will be used to establish a quorum only. Please mail and/or fax your Proxy to Graham Management Company at the address/number provided on the Proxy, or give to a friend to bring to the meeting.

The Annual Meeting conducts business as designated by the By-Laws. A general outline of business conducted follows:

- Confirmation of a Quorum
- Call to Order
- Election of Two (2) Directors to Serve a Three (3) Year Term
- Financial Presentation
- Confirm Rollover of Operating Funds to Subsequent Year for Tax Filings
- Community Update

Also enclosed in the Notice of Annual Meeting will be a CANDIDATES INFORMATION FORM for individuals wishing to run for the Director's position.

PLEASE MAKE THIS MEETING A PRIORITY IN YOUR SCHEDULE. IT IS YOUR BEST OPPORTUNITY TO LEARN MORE ABOUT THE MANAGEMENT OF YOUR NEIGHBORHOOD AND TO SUPPORT THE "VOLUNTEERS" WHO WORK ALL YEAR, MASSING COUNTLESS HOURS (UNPAID) ON YOUR BEHALF.

CONGRATULATIONS! Angela "Angie" Gonzalez, Area Pool Manager, for being named July Employee of the Month and to our Pool for being named July Pool of the month, out of 86 community facilities, managed by Greater Houston Pool Management, Inc.

BOARD MEETINGS

QUARTERLY MEETINGS: 4th Thursday of January, April & July @ 6:00 pm. **ANNUAL HOMEOWNER'S MEETING:** 4th Thursday of October @ 6:00 pm. Additional meetings may be held as determined and NOTICED by the Board of Directors via the marquee and website.

HARRIS COUNTY ROAD AND BRIDGE

To report street or curb damage, missing/damaged street signs and street flooding: (281) 353-8424 or www.hcp4.net.

If a resident wants to request a new sign or replace a damaged one, they have to go online and fill out a request.

STREET LIGHT OUT?

If you notice a street light out PLEASE report it to CenterPoint Energy. We pay for all of the street lights in our subdivision... every month...regardless if they are illuminated or not!! This is also a serious safety issue. To report an outage, follow these steps:

- By Phone: During normal business hours (7 am – 7 pm)
- Call (713) 207-2222
 - Give the Customer Service Representative the 6 digit pole number (located approximately 6 feet up the pole), the street name and closest address.
 - Online (anytime): centerpointenergy.com

NEWSLETTER ARTICLE SUBMISSION

Newsletter Article submission Deadline is 3rd of each month. Please give a 2 month advance notice.

WillowTalk@ProtonMail.com

Parking Violations and Texas State Laws

This subject has been covered in several issues of WillowTalk since 2015 and continues to be an ongoing problem on a daily basis in our neighborhood. It is exacerbated in the summer when students are home from college and/or out of secondary school, and during winter and spring breaks. For new residents, a little background and for other residents a reminder of traffic issues faced in the neighborhood. At the Annual Meeting held October 23, 2014, Al Sterlex, a CyFair Volunteer Fire Department (CFVFD)* member and Willowbridge resident, made a presentation on obstruction of traffic flow in the neighborhood. A few days before the meeting, CFVFD brought a large fire truck into the neighborhood (and homeowners volunteered their cars) to determine if it could navigate our streets with cars parked on both sides of the street across from each other. **IT COULDN'T!** Two examples were used: turning left and turning right onto Bexar Dr. from Willowbridge Park Blvd. Listed below are some of Al's observations presented to those in attendance at that annual meeting.

1. Turning left onto Bexar Dr. requires 46' from the crosswalk with **NO OBSTRUCTIONS** on the south curb.

2. Turning right onto Bexar Dr. requires 38' from the crosswalk with **NO OBSTRUCTIONS** on the north curb.

Vehicles parked across the street from each other (less than a vehicle length apart), completely obstructs passage of an emergency fire response vehicle. The civil liability to the HOA and vehicle owners that obstruct the passage of an emergency vehicle will be substantial if a delayed response time results in excessive property damage or delayed patient care.

Al's suggested actions were:

1. Notify residents and property owners of consequences of illegally parked vehicles with regular reminders in the newsletter.

2. Notify residents and property owners of potential criminal and civil consequences of obstructing traffic flow of emergency vehicles by parking vehicles across the street from other vehicles less than a car length away.

3. Direct law enforcement security contractors to immediately begin and continue to enforce the Texas Transportation Code, Chapter 545, and be prepared to cite vehicle owners who violate Texas Penal Code 42.03 when parking of vehicles renders a street impassable or renders passage unreasonably inconvenient or hazardous.

4. Direct the management company to notify property owners who consistently park vehicles in such a manner as to restrict the traffic to one lane, of the potential criminal and civil liability of such parking as well as the inconvenience caused to their neighbors.

As a part of the presentation he also cited parts of the Texas **Transportation Code, Chapter 545.302 – STOPPING, STANDING OR PARKING PROHIBITED IN CERTAIN PLACES (b):** An operator may not, except to momentarily pick up or discharge a passenger, stand or park an occupied or unoccupied vehicle:

- (1) in front of a public or private driveway;
- (2) within 15 feet of a fire hydrant;

(3) within 20 feet of a crosswalk at an intersection;

(4) within 30 feet on the approach to a flashing signal, stop sign, yield sign, or traffic-control signal located at the side of a roadway.

Following are the laws applicable to our neighborhood. Many residents are not aware that seemingly simple things we do each day **are against state law.** State Law **PROHIBITS** the following:

BLOCKING A FIRE HYDRANT

This is one of the most common violations. When a vehicle is parked blocking a fire hydrant or fire lane, it creates problems for emergency vehicles and hinders their ability to do their job safely and effectively. No vehicles may be parked within 15 feet of a fire hydrant.

BLOCKING DRIVEWAYS

When a vehicle is parked, blocking a driveway, it creates an inconvenience for the homeowners attempting to leave and/or enter their property.

BLOCKING SIDEWALKS

If a vehicle is parked, blocking a sidewalk, it becomes difficult for pedestrians, bicycles, children, strollers and wheelchairs to pass safely. Blocking the sidewalk can result in forcing these people to enter the street causing unsafe conditions. **This includes parking a motorcycle on the sidewalk!**

PARKING TOO CLOSE TO AN INTERSECTION/ CROSSWALK

Vehicles can't park within **30 feet** of a stop sign, yield sign, flashing signal, or traffic control signal or within **20 feet** of a crosswalk.

PARKING NEXT TO CURBS AND ONCOMING TRAFFIC

Vehicles can't be parked more than 18 inches away from the curb, must be parallel to curb and parked in the same direction of traffic flow. This means that the vehicle must follow the curb and can't pull in or back in straight onto the curb. **(This is a serious problem on streets with cul-de-sacs).**

48 HOUR PARKING

Vehicles can't be parked on any residential street for more than **48** consecutive hours.

It is against the law to park across a sidewalk causing pedestrians, bicycles, strollers, wheel chairs, etc. to go into the street. (It is also against the law to park a motorcycle on the sidewalk the same reason above).

Failing to obey these laws can result in the issuance of a traffic citation. **Please remember that it is your responsibility to ensure that these rules are also followed by your guests.**

Willowbridge - Stonebridge

JULY YARDS OF THE MONTH

WILLOWBRIDGE – 9507 Pearsall Dr. – Kayla & Robert James (2nd time winner) Kayla and Robert James moved to Willowbridge in June 2000 and won yard of the month their first month here. The James have three children, Rachel, Ross and Rebecca. Rachel and Ross graduated from JV in 2001 and 2003. Rebecca was a charter member at Gleason when it opened in 2000 and graduated from Houston Christian High School in 2012. Owners of Cottage Properties, a residential real estate brokerage, the James have listed and sold many homes in our neighborhood over the years. In addition to residential real estate, Robert and Ross have a commercial real estate brokerage, Leverage Commercial. Kayla particularly loves the neighborhood with its easy access to Beltway 8 and convenient access to one stop shopping nearby at such merchants as Los Arcos, Mosa, Café India, Z Mailboxes & Postal, Texan Liquor, Expo Nails and West Vision! A sucker for homeless animals she is constantly adopting dogs and cats herself or finding them their forever homes with other families.

After completing many renovations in the spring, including new front doors, the James decided to “spruce up” even further by removing almost all of the existing landscaping from 1992 (when home was built) and started fresh. Their yard is a mix of shrubs, blooming plants and greenery, including vincas, butterfly bush, bougainvillea, flax lilies, variegated ginger, ferns, split-leaf philodendron, miniature palms, Asian jasmine, variegated ivy, and Japanese yew. The porch is home to a Hawaiian schefflera.

STONEBRIDGE – 9227 Stone Porch Ln. – Gilberto & Martha Pena (1st time winner) Martha and Gilberto Pena moved to Stonebridge in 1997. They said they couldn’t believe it when they saw the sign in their yard and that they are very excited to have Yard of the Month for the first time. Gilberto is the owner of Cal-Tex Excavation, a pool excavation company and has been in the pool building business for 30 years. Cal-Tex also does clean up, pool removal, and is also able to excavate such things as volleyball courts and ditches. Martha has been employed by InterAmerican Coffee, Inc., a Specialty Green Coffee importer, for 34 years. She works in their import department and is their Inbound Logistics Coordinator. The Pena’s enjoy riding their horses, working out together and she enjoys playing Candy Crush. They have two adult children, a daughter and son, both UH graduates.

If the Pena’s address sounds familiar it’s because last month’s winner from Stonebridge is their next door neighbor. We may have a little friendly competition going on. The Pena’s yard is on a cul-de-sac and their yard includes two large blue Agave cacti, a sago palm, vincas, variegated ginger, Indian Hawthorne, an apple crape, flax lilies, pink crepe myrtles, boxwood, Japanese yew, Italian cypress, an oak tree and ornamental grasses. Last, but not least, their porch is anchored by two large elephant planters containing Mona lavender.

STONEBRIDGE - 9123 Stoney Lake Dr. – Ann and Mike Kucera (1st time winner) The Kuceras moved to Stonebridge in 2008. Ann is a retired school teacher and is now employed by Texas Teachers, the largest teacher certification company in the U. S., as

the Director of Curriculum and Instruction. Mike is employed by Zone Industries and designs pumps for municipal and industrial uses.

They have been married for 41 years and have two grown children. Their son Brennan and wife Megan live in San Antonio and are attorneys. Daughter Hillary, husband Aaron, granddaughter Emerson (10) and grandson Jackson (11), live in the Memorial area. Max and Sadie, Cavalier King Charles Spaniels, completed their empty nest five years ago. Ann and Mike enjoy fishing, traveling, the Astros and especially spending time with their grandkids, teaching them to fish and watching them grow and compete in sports. They love living in Stonebridge and are so excited about receiving this award for the first time. Never give up, they advise...your Yard of the Month is coming. They said they truly appreciate all the well wishes from their neighbors and have enjoyed meeting people who have stopped by on their morning walks to congratulate them. Included in their landscaping (designed and planted by JC Landscaping), are flax lilies, salvia, angelonia, coleus, impatiens, ornamental grasses and Italian cypress, surrounded by stones. The porch is home to a large pot of crotons.

Willowbridge - Stonebridge

SCOOP THAT POOP... EVEN IN YOUR OWN BACK YARD!

Do you like the sweet aroma of your pet's poop? Probably not, **and your neighbors certainly don't!** Dog poop...it's something inevitable that comes with dog ownership, but there can be some serious risks associated with the practice of not picking up dog poop, not to mention you're breaking county law and can be fined! You're also breaking the Pet Policy adopted by the HOA Board of Governors adopted October, 2001 and can be fined! For the full policy go online to willowbridgehoa.com.

For purposes of this article we're addressing POOP IN YOUR BACK YARD! A homeowner recently called and asked if we could put something in the newsletter about a neighbor that has several dogs in their backyard and the aromatic smell of it coming into their back yard is causing the complainant to not be able to enjoy eating on their patio or enjoy their back yard. Add our hot summers and you have a smelly disaster on your hands (or in this case, UP YOUR NOSE!).

For both small and large yards, you should clean up your dog's poop from your yard daily, regardless if you have only one or three dogs (the maximum allowed by the Pet Policy). Dog poop poses hazards to humans and the environment. You should also try to pick it up during daylight to avoid exposure to parasites and other toxins. **It is estimated that a single gram of dog poop can contain 23 MILLION fecal coliform bacteria,** which are known to cause cramps, diarrhea, intestinal illness, and serious kidney disease. Pet waste contains nasty pathogens and bacteria like E. coli, salmonella and giardia, things that can actually cause a health hazard to us humans, not to mention the risk of contracting roundworm, tapeworm and hookworm.

Cleaning up dog poop from a backyard is an important part of both yard and pet maintenance. Removing dog poop promptly from areas where your family plays and works will reduce the chances of stepping in it and spreading bacteria. Some poop parasites can be very harmful to people, for example, **roundworm larvae can cause blindness in children!** Choose a time and frequency for waste removal that works for you. Obtain the necessary tools for poop pick up, including bags, gloves, paper towels and a pooper scooper then decide how to dispose of it in a safe and sanitary way.

Remember your neighbors are entitled to peaceful enjoyment of their property. Dogs constantly barking and the smell of their bacteria filled poop floating across the fence does not bode well for their enjoyment. If you are the neighbor that has to put up with your neighbor's inconsiderateness, try discussing the issue with your neighbor. If all else fails, remember....you can go online to our website and anonymously report this infraction (if you've signed up for Graham Go aka Nabr).

TRAFFIC SIGNS & SPEED LIMITS

A NECESSITY IN AND AROUND SCHOOLS AND SCHOOL ZONES

Please be observant, respect and obey all of the Posted Traffic Signs found inside and outside our community, including the posted speed limits. The signs and the speed limits are there to make our community a safe and pleasant place to live. School will have commenced for the 2019-2020 session by the time residents receive this month's newsletter, however, our children will be gathering at bus stops; walking and biking to and from school; or being dropped off or picked up in the car-rider lanes for 9 months. Please use extra caution when driving during school start and end times around the Waller Park and Wheatland Park areas and entries/exits to the walking/jogging trails. Obey laws regarding **STOPPED school buses** that are picking up or dropping off students at bus stops (on numerous street corners) and all of the streets outside our neighborhood where students are being picked up and dropped off. **Remember use of a cell phone is against the law in active school zone!**

EVENT CALENDAR

Garage Sale - 10/19/19

Garage Sale Rain Date -10/26/19

HOA Annual Meeting - 10/24/19

Winter Holiday Event - TBD

Are you a student needing community service hours? Please contact Barbara Lallinger at: blallinger@hotmail.com to volunteer for one of these events.

PET PLACE DIY RECIPES FOR WILD BIRDS WITH SOMETHING FOR YOU!

HUMMINGBIRD NECTAR

3 parts water

1 part sugar

Boil until the sugar dissolves. Fill feeder with ½ of the mixture.

Refrigerate the remainder. Don't add red food coloring!

BIRD SUET (Ann Lander's Recipe)

1 c. lard (not vegetable oil)

1 c. flour

1 c. peanut butter (crunchy or plain)

2 c. instant oatmeal

2 c. cornmeal

1 c. ground peanuts

1 c. raisins

1. Melt the lard and peanut butter in a very large pot over low heat.

2. Add all of the remaining ingredients. Stir to mix.

3. Pour into a large pan and put it in the refrigerator overnight.

4. Cut into blocks to fit your suet feeder or you can reuse the containers your store-bought suet comes in.

5. Wrap up leftover blocks in waxed paper, put in a freezer bag and freeze.

FLOWER BOMBS

2 parts compost

5 parts powdered clay

1 part wildflower seed

1 part water

1/4 part Cayenne Pepper

Mix everything together, shape into balls and let dry. The clay holds it together and the compost provides nutrients. The cayenne pepper helps keep critters from eating the seeds. Throw in tall grass or other areas in need of wildflowers. Wait for rain and sun and watch the magic.

HOW TO PLAN FOR TRAVELING WITH KIDS

Photo courtesy of Getty Images

Families that travel with kids typically know tablets and other gadgets and activities can make the journey easier, and vacation rentals can make the stay more relaxing and affordable.

These tips from the experts at Vrbo can help make it easier to hit the road with kids, whether it's exploring exciting new places, visiting relatives or relaxing during an annual trip to the beach.

Start packing early. Begin a week

or two before the trip by helping kids write a list of what to take. It can help build excitement and avoid last-minute fusses over how many toys and favorite pajamas go in the suitcase. If there's a long journey ahead, consider temporarily lifting limits on tablet screen time and bring along a couple travel surprises like coloring books.

Don't overpack. Since many vacation rentals come with washers and dryers there's no need to pack two outfits per day per child plus backups in case of spills. If the place your group is staying has a laundry room, pack enough clothing for half the trip then throw a load in the wash after a few days. Pack some detergent pods in a plastic bag in case it's not provided.

Pack snacks. Travel often messes with mealtimes, but you can keep hunger (and the crankiness that comes with it) at bay with portable snacks. Pack a selection of treats to tide over hungry bellies until you're able to stop for a complete meal. Include a few items typically reserved for special occasions so you have the added benefit of excitement to distract from an unfamiliar eating schedule.

Bring favorite toys. A sentimental and familiar item from home can help a child feel more secure in new surroundings. In fact, a survey from Vrbo revealed just how popular teddy travel is, with more than half of those surveyed (55%) citing stuffed animals as the most important thing their child brings on vacation.

However, 69% of those surveyed said their child has left a toy or stuffed animal behind while away from home. In the event a toy does get left behind, look into resources like Vrbo's Teddy Bear Service. Any traveler staying in one of the company's vacation rental homes can call 1-774-VRBOTDY or email TeddyBearHotline@vrbo.com to report a lost teddy bear or other item of sentimental value, and the company will help track it down and expedite its return home.

Plan for nap time. Whether you're racing to put miles behind you or scurrying to catch a connecting flight, it's easy to get off track and miss nap time completely. If you're likely to miss a nap, try to at least plan for some quiet time to let kids rest and rejuvenate. Also remember that travel can be tiring for kids who have outgrown naps on a regular basis and encourage them to grab some shut-eye before signs of exhaustion emerge.

Find more traveling tips and information at vrbo.com.

TEACHERS' TOP NEEDS FOR 2019

Great classrooms don't happen by accident. Teachers across the country work hard to build vibrant, energizing learning environments for their students, which often means everything from microscopes to pipe cleaners, graphic novels to oboes, class pets to field trips and much more. As a result, teachers spend more than \$1 billion from their own pockets each year on supplies.

However, parents and community members can lend a hand. Helping to offset teachers' expenses can take many forms, from working directly with your child's teacher to identify needs to

participating in school-based fundraisers. Another option is sharing your assistance with a program like DonorsChoose.org, which makes it easy for any individual to address the inequity in schools, one classroom at a time.

Over the past 19 years, more than 3.8 million people have donated to classrooms through the program. Last year alone, nearly 145,000 teachers had projects funded on the site and over 255,000 classroom requests were brought to life. These requests reveal some of the key things teachers across America need for success:

(Continued on Page 9)

(Continued from Page 8)

Books, Books and More Books

While books may seem “old school,” teachers know that a single book can change a student’s life. Year after year, teachers request books more than any other resource. Many elementary school teachers ask for leveled reading books to meet their students’ individual needs. Others want to diversify their libraries with books that reflect their students’ identities. “The Hate U Give” and “Wonder” are among the most popular books requested this year, and e-readers have become a popular way to expand libraries beyond what the classroom bookshelf can hold.

Flexible Seating and Classroom Furniture

Many teachers credit flexible seating with transforming the classroom learning experience. Rather than rigid desks, students choose from comfy chairs, bouncy balls, bean bags or wobble stools, all designed to let students get those wiggles out so they can better focus on their work.

Technology

Because of rapidly evolving technology, 65% of children now entering primary school will hold jobs that don’t currently exist. Resources like laptops and tablets help students learn at their own pace and practice 21st century skills like coding. For example, coding robots and 3D printers are becoming some of the most popular items requested in high schools.

Back to the Basics

Many teachers simply need basic supplies: paper, pencils and tissues top the list. Last year, teachers requested enough pens and pencils to write the complete works of William Shakespeare more than 2,000 times.

Life Essentials

Another popular request is “hygiene closets,” which allow teachers to provide students facing poverty with free toiletries to take home such as deodorant, toothbrushes and toothpaste, as well as laundry supplies and clean undergarments.

An Appreciation for the Arts

There are plenty of extracurricular activities at nearly every school that require care and compassion from the community. Drama teams, for example, require supplies to create music, perform plays and more. Donations often allow students to explore their artistic abilities while learning how to create sets, write their own scenes, use instruments and more while simultaneously building their management and teamwork skills.

Community Service

Not all learning must take place in a classroom. In fact, teachers across the country often take aim at new ways to engage students, such as integrating practical life into the daily curriculum through an outdoor learning environment like a community vegetable garden. By requesting composters, rain barrels, seeds, gardening tools and more, educators can take their classrooms outside to help make the planet healthier while students learn how to be healthier themselves. It also gives students an opportunity to give back to their community by donating food to local families in need.

Learn more about how you can make a difference for classrooms in need at www.donorschoose.org.
