Austin Photographer Named Gold Medalist at International Photographic Competition

Roy Nierdieck of Red Dragon Photography, LLC

Roy Nierdieck of Red Dragon Photography, LLC is honored by peers and jurors for high-quality photography Austin, Texas – Roy Nierdieck of Red Dragon Photography, LLC in Austin, Texas was named a Gold Medalist during Professional Photographers of America's 2019 International Photographic Competition. Nierdieck's work will be on display at the Gaylord Opryland Convention Center in Nashville, Tennessee, January 19-21, 2020. This International Photographic Exhibit is held in conjunction with Imaging USA, an annual convention and expo for professional photographers. A panel of 36 eminent jurors from across the United States selected the top photographs from over 5,200 total submitted entries at PPA headquarters in Atlanta. Judged against a standard of excellence, 2,654 images were selected for the General Collection and 625 (roughly 12 percent) were selected for the esteemed Loan Collection—the best of the best. The Loan Collection images will all be published in the much-anticipated "Loan Collection" book by Marathon Press. The level of the award is determined by how many of those four images receive the highest possible honor: acceptance into the PPA Loan Collection, which is displayed at photographic exhibitions, conventions and other photography events. Nierdieck was named a Gold Medalist, meaning that two of his four merited images entered the PPA Loan Collection. In 2019, he was one of only 60 Gold Medalists. About PPA: Founded in 1868, Professional Photographers of America (PPA) is the largest and longest-standing nonprofit photography trade association. It currently helps 30,000+ pros elevate their craft and grow their business with resources, protection, and education, all under PPA's core guiding principle of bridging the gap between photographers and consumers.

(Soprano with wide range and very high vocals.)

Suzy(29, 38) is giddy, happy-go-lucky, slightly ditzzy, and best friends with Missy. "The Truth About Selling 'As-Is'"

SERIES OF FREE EDUCATIONAL SEMINARS PROVIDE ANSWERS TO LATE-LIFE ISSUES

The truth. It's what Austin residents want concerning late-in-life issues like Selling your Home "As is", and Living, Dying, and Leaving a Legacy.

These topics, along with others, will be presented in the upcoming over 55 seminar series as 90-minute monthly educational seminars. Adults 55+, seniors, and caregivers are invited to attend the free "Selling As-Is" seminar to learn the actual facts about issues related to home ownership and post-retirement living in the Austin area.

There are a lot of myths out there about what you must or "should" do in order to sell your home. The myths are perpetuated by shows on television featuring real estate agents with pearly white teeth and selling tiny homes for 2 million dollars. Real estate agents further confuse the issue because they advertise homes as "totally remodeled" and make it seem as though these homes are the only ones available.

During this 90-minute panel presentation, we will discuss the pro's and con's of fixing up a home to sell, as well as the pitfalls and benefits to selling 'as-is.' Here are just a few of the questions that will be answered: What is necessary to sell a home in the Austin metropolitan area? What does 'as-is' really mean and does it make financial sense to sell that way? How do I know if an as-is cash offer is a fair offer?

This seminar will be held at:

*October 15 @ 10:30 AM at Laura Bush Community Library, 9411 Bee Cave Rd, Austin, TX 78733

This series of candid conversations and expert panel discussions about the unique and often complex issues facing long-time homeowners is to be moderated by Cyndi Cummings, considered the leading authority on issues related to downsizing, late-life relocation and (55+) senior living solutions in Austin. Cyndi has made it her mission to educate and guide both consumers and professionals on best practices related to post-retirement living.

The 55 Plus Seminars Series continues with "The Truth about Selling "as is" on October 11 and '15 and "Living, Dying, and Leaving a Legacy" on November 13 and 19. More topics will be introduced as the series continues.

There is no cost to attend for those age 55 or older. Reservations can be made online at www.55PlusSeminarSeries.com or by calling 512-937-2772. Space is limited and pre-registration is recommended.

Rabbi Meir Kahane and al Qaeda's New York City bombing plots. Author of "Beirut Rules: The Murder of a CIA Station Chief and Hezbollah's War Against America," Mr. Burton will discuss the murder of Beirut CIA Station Chief William Buckley, and why a 1980's terrorism spree is relevant today amid the evolving threat from

terrorism, the escalating tensions in the Persian Gulf region and the unique role that Iran plays in both.

Next, on November 17, we will have a presentation on "Why We Love the Movies" from Lakeway's own Stephen Harvill. As entertaining as it is educational, this unique presentation takes you through the elements of our movie experience discussing the power of story, the narrative arc, music, emotions, psychology, and the after effects of going to the movies. Filled with movie clips, music, interactive participation and Oscars for those who know their stuff. Among his many

corporate clients are IBM, General Mills, Southwest Airlines, Microsoft, Apple and Samsung, to name a few.

On January 19, 2020, we will hear from Bill Hawkins, a 22 year resident of Lakeway who will focus on Lakeway's History. He is also the Director of the "B-Team" program at Dell Seton Medical Center and the Support Hospital Opioid Use Treatment (SHOUT) Texas program at Dell Medical School. Rich's work and research is centered around the hospital-based treatment of opioid addiction, education, and stigma reduction and he will discuss the role of Hospitals in treating the National Opioid Epidemic.

Dr. Mark Houston, a registered geoscientist in the State of Texas, is slated for March 29, 2020, to talk about "Fracking Shale Oil and Gas – Pros and Cons." Dr. Houston has 35+ years working in the Oil & Gas industry in a variety of roles from senior management to operations manager. He has focused on subsurface imaging technology development for both field and interpretation applications. Mark will discuss how the rapid emergence of shale oil & gas has thrust the U.S. into a new, dominant economic position, and also how the development of unconventional resources has brought controversies because of environmental issues and questions of unintended consequences for national policies and global strategic relations.

Fred Burton

Terrorism—Today's World & What the Future Holds

Fred Burton is one of the world's foremost authorities on security and terrorism. He oversees Stratfor's analysis of global security affecting business assets and personal safety. Prior to joining Stratfor, Mr. Burton was deputy chief of counterterrorism at the Diplomatic Security Service, where he was in charge of preventing and investigating attacks against diplomatic personnel and facilities. He was involved in many high-profile investigations among them: the search and arrest of Ramzi Yousef, mastermind of the first World Trade Center bombing; the assassination of Israeli Prime Minister Yitzhak Rabin; the killing of Rabbi Meir Kahane and al Qaeda's New York City bombing plots. Author of "Beirut Rules: The Murder of a CIA Station Chief and Hezbollah's War Against America," Mr. Burton will discuss the murder of Beirut CIA Station Chief William Buckley, and why a 1980's terrorism spree is relevant today amid the evolving threat from terrorism, the escalating tensions in the Persian Gulf region and the unique role that Iran plays in both.
