## WHAT IS UNIQUE ABOUT CORRECTIVE MUSCLE SOLUTIONS?

*Contributing Article from Scott & Lauren Frost*

Over the years, the conventional approach to muscle health and performance has yielded quite ordinary and unremarkable results.

At Corrective Muscles Solutions, we are challenging the conventional approach to rehabilitation and the muscle system in a way that

is changing people's lives with truly extraordinary results. Scott is part of a unique subspecialty in the field of kinesiology. It is so highly specialized that there are currently only 25 practitioners certified worldwide.

People of all ages come to us with complex cases of muscle & movement problems that have stubbornly been unresponsive to other treatments. We work with all sorts of difficult cases to help people regain control of their body and maintain the health of their muscle system for life. We are recommended by many orthopedists and other medical providers to supplement traditional therapy for complicated rehab cases that need a level of attention and detail that cannot be attained with physical therapy alone. We even treat people with issues from head trauma (concussions from the past or present), jaw problems and other motor development problems.

We believe in being a “happy-place company.” We feel that people need a comfortable, easy going environment to help them with what can be really frustrating and challenging issues in a unique way. Watching and witnessing as people who have been suffering for years to feel better, smile more and re-engage in the things they love. Another great reward is seeing desperate individuals contemplating joint replacement surgeries be able to hold on to what they have and avoid surgery.

## Austin Music Lovers Can Park Close to ACL & Help Young Artists

**Austin High School Band  
Annual Fundraiser Offers  
Affordable Convenience to Festival Goers**

With ACL Festival parking near Zilker Park being sold on Craigslist for hundreds of dollars, smart concertgoers who REALLY love music are using their parking fees to invest in the future of music. By choosing one of hundreds of paved spots available in the Austin High School parking lot, ACL Festival attendees not only get a short walk to Zilker Park via the Mopac Bridge, they'll also be investing their \$40 in the future of some great young musicians.

"The Austin music scene not only supports internationally-known events like ACL Festival, it also fosters young artists through great school music programs. Our parking fundraiser allows concertgoers to support both at the same time," said Chessie Zimmerman, Austin High Band Boosters President. "On Saturday, October 5th, people not only get below-market rates for great parking, but they also get the satisfaction of knowing they're supporting the next generation of musicians."

Located at 1715 W. Cesar Chavez Street, the Stephen F. Austin High School parking lot is accessible from Cesar Chavez, just east of the intersection with MOPAC. Parking is available off Veterans Drive by the tennis courts or on the east side of campus by Cesar Chavez. Look for the "Home of the Maroons" sign. Drivers are reminded that no animals can be left in vehicles. Parking at AHS is available on Friday and Saturday of both ACL weekends, with proceeds benefitting the band on Saturday, October 5th. New this year, guests can reserve parking in advance by purchasing online at [www.parking.band](http://www.parking.band).
