CICADA KILLER WASPS

Cicada killer wasps are very large wasps reaching up to 1 ½ inches long and can be somewhat frightening if you see them flying about your lawn. These wasps have a reddish-brown head and thorax, a black and yellow abdomen, and wings with a rusty tinge. Females are capable of stinging, the stinger is a modified egg laying structure, but are rarely aggressive. Males look similar to females and are territorial; they will buzz near you if you enter their territory. Once you leave the male's territory, the wasp will ignore you.

Cicada killers can be considered beneficial insects since they help to control cicada populations. Cicadas, common in Texas trees in the summer, are stung and paralyzed by female cicada killer wasps then carried back to a burrow dug in the ground by the female wasps. The female wasp pulls the cicada into the burrow where it is tucked into a side tunnel and has an egg deposited upon it. When the egg hatches, the cicada killer larva eats the cicada(s) provided.

Cicada killers usually do not warrant any control methods. If people are uncomfortable with large wasps flying over their lawn

or do not like the holes caused by the wasps, then insecticidal dust can be sprinkled around the opening of the burrow. Tamp the dust around the opening with your shoe and as the wasps work on cleaning out the entrance to the burrow, they will pick up the dust on their body and eventually die.

Please note that cicada killer wasps are often mistaken for Asian giant hornets (AGH), also referred to as “murder hornets”. AGH have not been found in Texas and have only been located in Washington state within the U.S.

For more information or help with identification, contact Wizzie Brown, Texas AgriLife Extension Service Program Specialist at 512.854.9600. Check out my blog at www.urban-ipm.blogspot.com

Heather Hughes at hughesguyz@aol.com

What is the COVID-19 antibody test?

The COVID-19 antibody test will show if your immune system has responded to the virus by producing antibodies. Most people who have antibodies will have had some symptoms of the disease, such as fever, cough, or trouble breathing, but some persons may have antibodies even though they never had symptoms. COVID-19 antibody testing will be performed in addition to the standard infectious disease testing all blood donations receive.

What test is Gulf Coast Regional Blood Center using to look for the COVID-19 antibody?

Gulf Coast Regional Blood Center is using the Roche Diagnostics Elecsys Anti-SARS-CoV-2 Test. This test is authorized by the FDA under an Emergency Use Authorization, which means it can be used only during the time of the Coronavirus pandemic crisis. This test is authorized by the FDA only for detecting the presence of antibodies against SARS-CoV-2 and is not intended for diagnosis of COVID-19.

Does the antibody test cost me anything?

No. The test is free to blood donors. This test is available to donors that complete a whole blood, platelet or double red blood cell or plasma donation.

Do I have to be a blood donor to get the COVID-19 antibody test?

Yes, in order to get the COVID-19 antibody test, a complete donation must be given. This test is available to donors that complete a whole blood, platelet or double red blood cell or plasma donation. You do not need to have donated before with Gulf Coast Regional Blood Center to receive the COVID-19 antibody test.

Do I need to have a successful donation to receive my results?

Yes. You must have a successful donation in order to receive COVID-19 antibody results. Gulf Coast Regional Blood Center's standard operating procedure is that only successful donations move on to testing at our laboratory. Therefore, if you are unable to complete your donation, the COVID-19 antibody test, as well as all standard infectious disease testing will not be performed or provided.

Messiah Lutheran Church is a grace place, a congregation of the Evangelical Lutheran Church in America (ELCA). Messiah is located at 11522 Telge Road, ½ mile north of Highway 290. Regular Sunday worship times are: 8 am—Traditions; 9:30 am—The Gathering; and 10:45 am—The Crossing. The Discovery (education) Hour is 9:15-10:15 AM on Sundays. For more information, 281-890-3013 or www.messiahlc.org. All people are welcome at Messiah.

YOUR HEALTH IS STILL IMPORTANT

Seeing your Houston Methodist doctor and staying healthy is smart — and safe.

No matter what's going on in the world, your health matters. And while you may have delayed getting the care you need, maintaining your well-being is vital. We are open and safely seeing patients, and you can be confident we are taking every necessary precaution to keep you safe during your visit, including:

Screening all patients when scheduling appointments and upon arrival.

Implementing enhanced cleaning and sanitizing processes to disinfect all equipment and surfaces.

Wearing masks and other personal protective equipment while providing patient care.

Redesigning waiting rooms and check-in lines to ensure social distancing.
