*News for the Residents of Blackhorse Ranch*

November 2020 • Volume 14, Issue 11

Unlike last year, Cy-Fair Helping Hands will not be sponsoring a canned goods drive, hold a silent auction, or have an end of the event celebration. Instead, every weekend, NOW through December 31st, it will be partnering with community eateries to raise awareness and funds in a unique way. Spearheaded by Metta's Local Eats Dine Out for Charity, CFHH is asking that when you plan to eat out, you consider dining at participating LOCAL Cypress and surrounding Restaurants who are partnering with Metta's Local Eats Dine Out for Charity to put food in the stomachs and on the tables of the hungry and homeless.

## **Here is how it works:**

Make sure to join Metta's Local Eats Facebook page so you'll always have the current list of the newest partners! As you are out and about, please patronize the participating restaurants and order the Metta's Local Eats Dine Out for Charity appetizer, entre, or drink special. Remember to let them know that you are there to support CFHH! And SHARE! SHARE! SHARE with everyone on your email list!

**KEEP YOUR RECEIPT!** MLE will offer exciting random giveaways just by supporting local and eating out! One qualifying item from the list below of Participating Restaurants **MUST** be ordered. Numbers in (\$) reflect the amount donated to Cy-Fair Helping Hands.

## NEW TOMBALL RESIDENTS

By Cheryl Conley, TWRC Wildlife Center

A pair of beautiful bald eagles are now calling Tomball, Texas, home and they've become quite the attraction. People are coming from miles around just to get a glimpse of them and to snap a photo. Should you decide to come and take a look, remember to keep your distance and do not disturb the birds in any way.

Bald eagles are protected by multiple federal laws that include the Bald and Golden Eagle Protection Act, the Migratory Bird Treaty Act, the Lacey Act as well as other state and municipal protections that may be in place. The Eagle Act was originally passed in 1940 and was amended in 1972, increasing civil penalties. The Act provides criminal penalties for persons who "take, possess, sell, purchase, barter, offer to sell, purchase or barter, transport, export or import, at any time or any manner, any bald eagle ... [or any golden eagle], alive or dead, or any part\*, nest, or egg thereof." The Act defines "take" as "pursue, shoot, shoot at, poison, wound, kill, capture, trap, collect, molest or disturb."

"Disturb" means: "to agitate or bother a bald or golden eagle to a degree that causes, or is likely to cause, based on the best scientific information available, 1) injury to an eagle, 2) a decrease in its productivity, by substantially interfering with normal breeding, feeding, or sheltering behavior, or 3) nest abandonment, by substantially interfering with normal breeding, feeding, or sheltering behavior."

Here are some interesting facts about Bald Eagles:

- They have been our national symbol since 1782.
- They are almost always found near water.
- They live to be between 20 and 30 years old. The oldest recorded bald eagle was 38.
- Their wingspan is between 6 feet and 7.5 feet.
- Females are larger than males.
- They can see 4 to 7 times better than humans.
- They can see fish up to a mile away.
- They mate for life but should one of the pair die, the other will find another mate.
- They return to the same nest every year. They will make repairs and add additional twigs, grass, etc. each year. The nests average 2-4 feet deep

and 4-5 feet wide. The largest nest on record weighed 2 tons!

- The female lays 1 to 3 eggs and both the male and female take turns sitting on the eggs. The first egg will hatch after 35 days of incubation. The next egg will hatch several days later.

- Sometimes the first eaglet to hatch will kill the younger one(s).
- By 3 weeks of age, the feet and beaks are nearly as large as an adult.
- Eaglets fledge between 8 and 14 weeks of age.
- It's not until 3 years of age that the head and tail begin to turn white. In the 4th year, the eagle gets its white head, tail and upper and undertail coverts.

- Eagles can swim—sort of. If they swoop down for a fish and it's too heavy, they will paddle to shore.

TWRC Wildlife Center asks that you respect all wildlife. With regard to the Tomball eagles, keep your distance, view with binoculars, keep the noise level down and report anyone harassing them or getting too close. They could be breaking a federal law.

## This Holiday, *Keep Family Stories Alive*

by Jackie Devine

When you and your relatives gather to celebrate family, Thanksgiving and the Christmas holidays are the perfect times to capture memories and start creating a legacy that can be handed down for generations to come. But time is of the essence. Our mothers and fathers, grandparents, aunts, uncles, and cousins leave us too soon.

Pull out your phone, place it on video, and start asking questions. If you need a list of questions, email me at [jackiedevine@peelinc.com](mailto:jackiedevine@peelinc.com). I will send you a list of questions to ask your family and friends. I'll wager you will be surprised by the answers.

Please don't wait until it is too late like I did. Capture your family folklore before your living vault of information has disappeared.

To recreate my Grandmother's story, I had to interview scores of cousins I had not seen in decades. That was helpful, but I knew theirs wasn't the whole story. After researching the national archives, I stumbled upon long lost kin I had never met, and precious photos I had not seen. As a result, I created a priceless mini-biography of my Grandmother, which included family photos, memories, conversations she had with me over the years, and various precious documents. It remains available on the web for family members all over the world to retrieve.

For the last few years, several organizations have encouraged families to listen to one another and record family history. Two excellent organizations include:

StoryCorps, for example, launched The National Day of Listening. StoryCorps encourages everyone to ask elder family members to tell stories at the Thanksgiving dinner table—memories that provoke more memories and stories. It's a beautiful way to connect older generations with newer ones and create a shared family tradition.

In response to the COVID-19 pandemic, StoryCorps Connect offers a first-of-its-kind platform that enables you to record a StoryCorps interview with a loved one remotely using video conference technology. The audio and a still photo from each interview goes into their archive at the American Folklife Center at the Library of Congress.

StoryWorth, located at <https://welcome.storyworth.com>, is another option that allows you to preserve your memories, connect your family, and learn about relatives in a new and exciting way. Once a week, they email your mother, dad, or grandparents a question, possibly about subjects you have never thought to ask. All they do is reply with a story that is shared with you each week. At the end of the year, the stories are compiled and bound into a beautiful keepsake book.

Please don't let another holiday pass without preserving your family's stories and life-lessons for future generations. When they are gone, your stories have vanished.

If you are not comfortable working with national forms and prefer something up close and personal, I will help you gather and compile your family's history. Contact me at [jackiedevine@peelinc.com](mailto:jackiedevine@peelinc.com). And let me know that you are interested in taking a memoir writing class. If we have enough interest, I will make myself available free of charge for a 6-week memoir writing class in our community.
